Virtual Cabinet Release Notes

Product: Virtual Cabinet

Build: 5.0

Release Items: 15   **Fixes:** 10   **Enhancements:** 5

© GetBusy Ltd 2021

This version of Virtual Cabinet uses **Microsoft Framework .Net 4.6**. **This must be installed prior to the upgrade** in order for Virtual Cabinet to work. For more information on preparing for this upgrade please see our website: https://www.virtualcabinet.com/support/preparing-for-virtual-cabinet-4-0

Best endeavours have been made to ensure this release is free of bugs and other defects. Testing and Quality Assurance processes have deemed the release as fit for purpose. However, not all environments and scenarios can be simulated. Any bugs or defects identified with this build should be reported via the Support Website.

Area	Type	Id	Build	Details
General	New	VC-6553	5.0	**New look and brand!!** New modern look for the product. Improved design to make things clearer, easier to use, and a more pleasant user experience. New branding (logo, colours) to match the new Virtual Cabinet branding across the company.
	New	VC-7544	5.0	**Improved database upgrade performance** Significantly improved the speed of upgrades, by removing unnecessary database upgrade scripts.
	New	VC-7016	5.0.1.890	**Remembers username and password** On sites that are not using Windows Authentication automatic login (e.g. on a Workgroup), VC will now remember your username and password for 24 hours on this computer. This is configurable, and this is secure.
	New	VC-7712	5.0.1.890	**Improved visibility of selected item** Improved the contrast of the colour used on selected items, including documents, in VC. Making it easier to distinguish what is selected. Also removed the alternate grey backgrounds for rows in the list of documents to make it easier to distinguish between selected documents.

	New	VC-7720	5.0.1.890	**Change format of Copy Link** You can now change the format of the link that Copy Link creates based on your preferences. Change this in Global Settings. Choose either markdown format or just the link, depending on if you are often pasting in to a program that supports markdown format links. E.g. vclink://123/1/1 OR [Tax Return 2011](vclink://123/1/1)
	Bug	VC-3453	5.0.1.890	**Error reindexing when Original File Name has "<>|** Documents with certain characters ("<>|) in the Original File Name were failing to reindex. These documents usually came from emails captured automatically as part of a conversation rule.
	Bug	VC-7664	5.0.1.890	**Indexes not configurable for Document Creation** The index definitions for the Templates filing cabinet could not be managed from the admin tab. Only an issue in 5.0.1.750.
	Bug	VC-7659	5.0.1.890	**Reduce unnecessary calls to the database** Significantly reduced the number of calls to the database when VC starts up to improve performance. Unnecessary calls were being made to spDCTemplateSettingsIndexMapping.
	Bug	VC-7593	5.0.1.890	**Home screen freezes on 3D view** The home screen was freezing if you used the 3D view of recent documents and had locked your computer. Only an issue in 5.0.1.750.
	Bug	VC-7699	5.0.1.890	**Cannot remove pages after scanning** The option to remove pages whilst approving a scan was not working. Only an issue in 5.0.1.750.
Email	Bug	VC-7600	5.0.1.890	**Capture Service stops working after 1 hour** If the Email Capture Service is pointing to a Microsoft Exchange Online mailbox then it will not be able to authenticate 1 hour after it was initially configured.
	Bug	VC-7686	5.0.1.890	**Outlook crash after trying to Connect** Outlook would crash, or the Office Addin would not work as expected, if the user did not log in to VC when Outlook first started up, and then used the Connect button in the Indexing Pane. Only an issue in 5.0.1.750.
	Bug	VC-7694	5.0.1.890	**Cannot create a new Capture Service Account** Could not create a new Capture Service Account when setting up Conversation Rules to automatically capture emails. Only an issue in 5.0.1.750.

Integration	Bug	VC-7657	5.0.1.890	Cannot send document to GetBusy with & in name
				You can now send a document to GetBusy with an ampersand (&) in the name.
Portal	Bug	VC-7521	5.0.1.890	Publishing stop after trying to publish a >250MB file
				After a user tries to publish a very large document, >250MB in size, the Portal Integration Service will get stuck and will not be able to publish any other documents. A user will no longer be able to publish these large documents and will receive an error message when they try.
