

## hh2 Field Reports Daily Logs

Available on:

hh2 Field Reports gives your field managers the freedom to move around their job sites while accurately detailing the activities that occur around them. Managers can utilize the web or apps built for iOS and Android to submit their daily logs, making the information available instantly for those back in the office. hh2 Field Reports syncs data down from your accounting system as well as integrating with hh2 Remote Payroll.

### Header with Header

hh2 Field Reports lets you keep track of the smallest details that occur on your job site. Now you can record construction activities using pre-built forms that can cover everything from weather to subcontractors. If you need to track data that isn't included in our pre-built forms, create your own custom forms to start tracking today.

### Detailed Field Activities

With the Daily Activity Worksheet, you can keep track of Production Units and Percentage Complete for every cost code you use at your job site. With an intuitive interface that makes it simple to calculate and enter in your numbers, it has never been easier to keep your daily activities on a job so up-to-date.

### Optimized for the Device

hh2 Field Reports is a cloud-based reporting solution. Your employees submit their daily logs through a mobile app for smartphones and tablets, or through a web browser on their laptop or desktop computer. Each interface has been finely crafted for the device you are using. We support the most widely used web browsers and have custom apps for iOS and Android devices.

“ I think my favorite feature of Field Reports is being able to take some of these paper reports and, through the custom tabs, be able to create that form. Like a lot of the OSHA stuff I created—my safety guy just gave me some forms and I was able to put a report together very easily.”

Steve Haynes  
IT Manager  
Fahs Construction

### Affordable and Risk-Free

We are so confident that you'll love hh2 Field Reports, we don't charge any signup fees and you are free to cancel at any time without penalty. b That means all the time and money we spend to implement you on the platform is on our dime. To

sign up you just start paying the monthly fee that is based on actual usage. The fee starts off as somewhat trivial and scales as usage goes up or down. We must earn your business each month with a great product and outstanding personalized service.
