

Renew Advent Capital Campaign Projects Update:

Thank you for your contributions to the campaign that have made these projects possible!

These projects are already completed:

- Nine dying trees were removed from Advent grounds
- A beautiful Steinway grand piano was donated
- The new heating and cooling system has been installed
- The damaged stucco siding on the exterior of the building has been replaced
- The sanctuary hardwood floors have been re-finished
- Installing LED lights in the parking lot

These projects have bids accepted; waiting for work to begin:

- Replacing the controlled access system for both the front and rear doors
- Replacing the Education Wing roof

The project management team is currently getting bids for the following projects:

- Working with Busch Architects on the initial planning and design for the portico and vestibule
- Replacing worn carpeting in Anderson Hall, the Cornerstone room, the library, and the hallways

Finally, these projects are also in progress:

- Looking at upgrades to classrooms (e.g., Tables, lighting, painting projects...)
- Talking to companies about a new church sign
- Looking at designs for the education wing kitchen

The whole congregation can celebrate the fact that we have already been able to fulfill parts of our pledges to our three ministry partners. We gave \$25,000 to Lutheran World Relief, \$11,000 to the Redeemer Center for Life in Minneapolis, and \$5,000 to the Peace of Mind fund at CROSS Services.
