

RETINAL HEALTH IMAGING CONSENT

Our office monitors retina health using the latest imaging technology. These images give the doctor a detailed eye health picture. We recommend this every year to monitor for diseases such as high blood pressure, diabetes, glaucoma, and macular degeneration. Your scan will become part of your permanent medical record and monitored each year for any type of progression. In many cases, this may be used instead of dilated examination.

View through undilated pupil

View through dilated pupil or with retinal health imaging

The universal co-pay for this scan is \$39, to be collected at the time of service.

Please initial to indicate your preference of the following options:

1. _____ I consent to obtaining retinal health images. I understand this scan is not a guarantee that I will not need dilation.
2. _____ I decline the retinal health images. I accept dilation as recommended by my doctor.
3. _____ I decline retinal health images and dilation. I understand that this may result in missed or delayed diagnosis and accept this risk.
