Moss

chenille

Technically advanced upholstery fabrics made of chenille fibres consisting of two simple twisted together threads between which cut fibres are placed. Owing to that a fabric has the structure similar to that of velour or plush.
A feature that is typical for chenille is irregularity of upper structure, tiny irregular clearances and downiness.

STANDARD

polyester 48%, acrylic 35%, wool 9%, viscose 8%

FLAME RETARDANT (FR)

polyester 47%, acrylic 36%, wool 9%, viscose 8%
