OPTIONAL items suggested: Masks, hand sanitizer, reusable water bottle								
**as applicable.....disposable masks will be available in multiple locations around our campus as well as hand sanitizer, handwashing sinks, etc.								

Two-week campers **do not** have their laundry done while at camp, so most of what we send home is dirty laundry. Four-week campers **will** have their laundry done once every two weeks while here. Still, much of what we send home will be dirty. Emergency laundry **will** be done; anything that is wet, soiled or if a camper runs out of a certain item. If campers are not sent with the basics, we will notify you, purchase them for the camper and charge the provider for the items. Lastly, please know that we do train our staff on tracking belongings and try extremely hard to have your camper return home with everything they arrived here with, however, life is busy at camp and the counselors are working extremely hard to make each moment a memorable one for your camper. Sometimes in doing so, items are lost. Please notify us if you find upon your camper's return that there are missing items.

- Use this clothing and supply list as a packing checklist to record the items your camper is bringing. Please feel free to attach a second sheet!
- We **DO NOT** do two week camper's laundry; for campers staying four weeks, we will do laundry once.
- You must have a mesh laundry bag.
- Bring this **completed list** with you to camp, and give it to the counselor. Please feel free to attach a second sheet!
- **Identify all items with camper's name.** May we suggest, NameLabels.com; they offer reasonably priced iron on labels for your campers clothing!
- Please do not send brand new clothing.
- All items; clothes, electronic devices including tablets, phones, etc., are **NOT** the responsibilities of Camp Horizons.
- Please refer to information in our FAQs about the collection station on intake day. Please turn in valuables/electronics at this station.
