2015 RIEDLIN ROT Baden Spätburgunder Rotwein

Alcohol 13.5 Vol %, Residual sugar 0.3 g/l, Acidity 5.7 g/l

General:

The vineyards are located in the town of Laufen in the single vineyard site Altenberg. The vines of the RIEDLIN ROT are up to 50 years old. Farmed according to biodynamic principles we cultivate a spontaneous cover crop to grow in the rows, which keeps useful and harmful creatures in a natural balance. Low yield is assured through the pruning of the vines to 8-10 buds/vine. At the end of June, shortly after blossom, manual shoot thinning is done as well as removal of leaves and secondary shoots in the grape zone.

This results in light-weight, small-berried grapes perfectly exposed to the sunrays. What is important for the timing of the harvest is to reach physiological ripeness at the beginning of October, with sugar readings of minimum 95° Oechsle (Specific gravity 95° = 1.095 kg/l or 22.5° Brix).

The grapes are collected during harvest in small crates to ensure that they reach the cellar undamaged. They are destemmed and crushed into an open vat. Indigenous yeast fermentation starts and after 4 weeks of skin fermentation we prefer an additional few weeks of skin mazeration until mid November.

The Spätburgunder is then taken off the skins and moved into the French barriques for 15 months barrel aging.

2015 Vintage:

An early bud break started the season followed by picture book weather that lead to an early bloom finished already in the first week of June. Two hot summer months followed with at times over 35° C. The dry weather conditions caused reduced cell divisions resulting in very small berries that perfectly colored through. In the last week of September we could pick them all of the grapes in outstanding condition.

To the Label:

The wonderful label is from the artwork of Adolf Riedlin (1892-1969), a family member and a grand uncle from Markus. It is from a painting called „The Drinker“ created in 1950. In the case of the RIEDLIN ROSÉ he holds a Rosé bottle and in the case of the RIEDLIN ROT a red bottle in his hand. Adolf Riedlin is regarded today as a pioneer of the „Modern Art“ in the region Baden.
