

PatDocs

What is PatDocs?

PatDocs is a time-saving and cost-effective streamlined system for all IP legal professionals to support key activities in prosecution.

This automated software can save you hours on otherwise slow and manual processes including ordering documents, identifying parent and child relationships or searching for up-to-date Legal Status information.

Why use PatDocs?

PatDocs offers worldwide coverage of patent documents with instantaneous machine translations and unlimited PDF downloads.

Features include family tree mapping, auto-populate IDS forms, generate legal reports and order original patent documents. Document delivery is quick and seamless, downloadable from email or within PatDocs.

Where does the data come from?

The worldwide coverage available in PatDocs comes from major collections on every continent, including USPTO, EPO, DPMA, China, Japan, Korea and Minesoft's own extensive patent archive.

Family Tree

See full family trees by searching a single patent number. Any level of family complexity can be illustrated clearly in PatDocs family trees.

Share a live link which updates with any new status changes or family additions, or export as a PDF, Excel or image file.

The screenshot displays the PatDocs interface for a family tree search. At the top, a search bar contains 'US2019351019A' with a 'Submit' button. Below the search bar, there are controls for 'Display Options' (Hide Unselected, Filter by authority), 'Layout Settings' (Alignment: Left to right, Layout: Compact), and a 'Timeline Filter' (Nov 2016 to May 2019). The main area shows a hierarchical tree starting from a root node 'US2019351019A' (Published: 2019-11-21) which branches into several other patents, including 'US16/421763' (Filed: 2019-05-24) and 'PCT/US2017/64060' (Filed: 2017-11-30). A sidebar on the right provides detailed information for the selected patent 'US16/421763', including its application number (US16/421763), application date (2019-05-24), title (STERIOD ADMINISTRATION AND IMMUNOTHERAPY), current assignee (ZIOPHARM ONCOLOGY, INC.), and inventor (Laurence J.N. Cooper). A legend at the bottom right indicates 'Cards' with green for 'Alive' and red for 'Dead'.

Input a single patent document number

Intuitive hierarchical organisation from priority document

Interactive family tree. Clicking on a family member opens more information and options in the sidebar

Auto-Populate IDS Forms

Simply input publication numbers of known prior art on the Order page, and add any additional details for the Form such as application number and date, and inventor. There is also a field to add any non-Patent Literature.

The IDS form will be automatically populated in Adobe Acrobat with the input details. Any empty fields on the form are editable.

Legal Reports

Order Patent Copies | **IDS Form** | Legal Report | Translate | Family Tree

Legal Report

For known patent document numbers, enter the patent numbers (one per line) into the order box below and complete the options as appropriate.

Please enter patent numbers e.g.

US20050229734A1
EP1977499
DE102006003884
US8587173B2
US20150303773A1
WO07085229

Include Columns:

- Abstract
- Full-Text
- Original PDF
- Assignees
- File History
- Legal Status & Family
- TextMine
- Claims
- Family Tree

Reference/Subaccount:

Create custom legal reports by entering patent document numbers and selecting fields to include in the report. Your custom report can contain links to the original full-text PDF, File history, Legal Status, TextMine and Family Trees. This table with live links can be exported as an Excel and shared with anyone!

Select which fields to include in your legal report

Search

Search for patent numbers using the search forms. The search database is based on PatBase's extensive collection. There are many intuitive search forms to use.

The screenshot shows the PatDocs search interface. At the top, a dark blue navigation bar contains the links 'Order', 'History', 'Search', and 'Help'. The 'Search' link is highlighted with a purple box and an arrow pointing to the text 'Navigate to the search page using the main menu'. Below the navigation bar, there are five search tabs: 'Basic Search', 'Advanced Search', 'Number Search', 'Semantic Search', and 'Quantity Search Beta'. The 'Advanced Search' tab is selected. The search form includes a dropdown menu set to 'Full-text', a text input field containing 'eg.Motor', and a '+ Add Another Text Row' link. Below the input field is a 'Restrict by Date' dropdown. Further down, there are two more dropdown menus: 'Publication Type' set to 'All' and 'Filter by Dead/Alive' set to 'Show All'. At the bottom of the form are 'Search' and 'Clear' buttons. A purple box highlights the search input field, with an arrow pointing to the text 'Conduct a keyword search using the Basic and Advanced Search forms to quickly search across global patent documents.'

Navigate to the search page using the main menu

Search results are sortable by score (out of 100%) based on relevancy to your search, or application or publication date.

Conduct a keyword search using the Basic and Advanced Search forms to quickly search across global patent documents.

PAIR Alerts

Administrator users can set up PAIR Alerts to send email notifications to a multiple recipients when a change occurs in any US case. Alert emails include links to family trees.

Create Alert

Serial Number
Enter Serial Number

Alert Notes
Enter Notes for Alert

Alert when changes are made to:
 File History +
 Transaction History +

Project
None

Run Alert
 Weekly Monthly Quarterly

Email List (one per line)
support@minesoft.com

Get Serial Number from a Publication Number
Enter Publication Number [Search]

Create alert for a different account
Enter Company Name [Search]

Search for serial numbers easily by entering the publication number directly on the alert form.

Set alerts to track file history and transaction history changes. The + symbol expands a list of event alerting options.

Select the frequency of the alert from weekly, monthly or quarterly. Receive an email with a summary of all changes during that period.
