

## **Journeyman Renovation Carpenter – Lead Hand**

\$30-\$32 an hour – Full Time, Permanent

Experienced Journeyman Carpenter required to work on the tools while organizing and leading the crew and subtrades at a specific job site. The Lead Hand works under the direction of the Site Supervisor who is overseeing multiple sites and the Construction Manager who oversees all production.

Ackard is a 38-year-old multi award-winning company built upon the core values of honesty, integrity, loyalty and quality workmanship. We are seeking a candidate who holds those same values and is driven to deliver results our clients will love while maintain a positive relationship with clients, staff and trade partners.

Our Lead Hand Journeyman Carpenters are excellent communicators who lead by example and are mentors to those they work with. They have strong organizational and problem-solving skills and are the go-to person on site.

### Quick Summary of Duties:

- Receive direction from the Site Supervisor and/or Construction Manager.
- Monitor and report job activities and progress.
- Lead and mentor the field team.
- Assess and resolve daily work issues.
- Coordinate equipment, tools and supplies for the job.
- Tend pumps, compressors and generators to provide power for tolls, machinery and/or equipment for heat.
- Read, interpret and work from blueprints, drawings, sketches and/or building plans to prepare project layout and determine dimensions and materials required.
- Prepare layouts which conform to building codes.
- Provide take offs, material lists and manpower hour reports weekly.
- Manage hours spent and provide direction to field staff.
- Promote and enforce safety and environmental policies and procedures.
- Conduct daily hazard assessments and weekly toolbox meetings.

Type of residential carpentry work you can expect includes, but is not limited to:

- Install/frame foundations, walls, floors, ceilings and roofs.
- Fit and install window frames, doors, door frames, door hardware, interior and exterior trim.
- Erect scaffolding and ladders.
- Position or dismantle forms for pouring concrete.
- Mix, pour or spread concrete using a portable mixer.
- Shape or cut material to specific measurements.
- Demolish by dismantling and removing material to be discarded.

MUST HAVES include:

- Journeyman Carpenter certificate, red-seal preferred.
- 6+ years of experience in residential renovations and/or new home construction.
- Valid driver's license and own transportation.
- 3 or more positive previous employer references.
- Excellent written and verbal communication skills.

TO APPLY go to <https://www.ackard.com/careers/>, fill out our application form and attach cover letter, resume and references. Incomplete application forms or applications made via Indeed will not be considered.

Ackard thanks all those who apply, however only short-listed candidates will be contacted.
