

5/26/2021

There is a revised range of dates when the Culvert Project will be starting. This is due to the ongoing legal challenge related to the bid award.

The Village prevailed initially when the court did not grant a temporary restraining order.

Subsequently, the next court proceeding for a preliminary injunction is scheduled for June 2nd.

If the Village prevails in that proceeding, the revised start date range for the project is from mid- to late-June.

The exact start will depend on the contractor not having any issues with material orders being delayed due to the interruption caused by this legal issue.

As new information becomes available, email updates will be provided.
