

Tannery Brook Culvert Replacement Project Update – 6-21-21

The construction schedule is posted in this section of the website for the Culvert Project. No groundbreaking construction activities are planned the week of July 5th, however mobilization of contractor equipment will be occurring.

Effective July 12th, the Village's Engineer, GHD, will issue the Notice To Proceed (NTP) to the construction contractor Mark Cerrone Inc. (MCI). The project is slated to take 100 days, with an ending date projected of October 20, 2021.

Construction activities, excavations, etc., will commence beginning the week of July 12th.
