

COOKIE NOTICE

What are cookies?

Cookies are small text files that websites may use to make your visit as pleasant as possible. The law states that we may place cookies on your device if they are strictly necessary for the operation of the site. For all other types of cookies we need your permission. We use the following types of cookies on this website:

Your consent applies to the following domains: www.budejovickybudvar.cz, budvar33.budejovickybudvar.cz, opiciejl.budejovickybudvar.cz, letajicisladek.budejovickybudvar.cz, budvarkrouzek.budejovickybudvar.cz, budvarredix.budejovickybudvar.cz

Your current state: Allow all.

Cookie declaration last updated on 17.03.23 by [Cookiebot](#):

Strictly necessary (13)

Strictly necessary cookies ensure that the website is usable and allows you, for example, to navigate the site and other basic functions. Without these cookies, it cannot function properly.

Name	Provider	Purpose
__cf_bm	Monotype	It is used to differentiate between human and robot visitors.
CONSENT [x2]	Google YouTube	It is used to determine whether a visitor has accepted marketing category in the cookie banner. This is necessary for the website's GDPR compliance.
CookieConsent [x6]	Cookiebot	Stores the status of the user's consent to save it on the current domain.

Name	Provider	Purpose
CookieConsentBulkSetting-#	Cookiebot	Enables consent to cookies on multiple sites.
p.gif	Adobe Inc.	This cookie is installed by Adobe Typekit. It ensures the correct behaviour of the website fonts. The cookie does not record any data about visits.
wfont [x2]	budvar33.budejovickybudvar.cz budvarredix.budejovickybudvar.cz	Stores information about whether the external fonts are loaded into the cache.

Statistics (15)

Thanks to statistical cookies, we are able to better understand how visitors use our site. They collect and share information anonymously.

Name	Provider	Purpose
_ga	Google	Registers a unique ID that is used to generate statistics about how the visitor uses the website.
ga#	Google	Google Analytics uses it to collect data on the number of times a user has visited a website and the duration of their visits and last visits.
_gat	Google	It is used by Google Analytics to direct traffic to different actions it sends to the server.
_gid	Google	Registers a unique ID that is used to generate statistics about how the visitor uses the website.
_hjAbsoluteSessionInProgress	Hotjar	This cookie is used to calculate how many unique visitors have visited the site - this is done by generating a unique visitor ID so that the visitor does not register multiple times.
_hjFirstSeen	Hotjar	This cookie is used to determine if a visitor has visited the site before or if they are a new visitor to the website.

Name	Provider	Purpose
_hjIncludedInPageviewSample [x4]	Hotjar letajicisladek.budejovickybudvar.cz	It is used to determine whether visitor navigation interaction is included in site data analysis.
hjIncludedInSessionSample#	Hotjar	Collects statistics on the visitor's visits to the website, as the number of visits, average time spent on the website and what pages have been read.
hjSession#	Hotjar	A cookie that contains the data of the current session, ensuring that subsequent requests in the session are assigned to the same Hotjar session.
hjSessionUser#	Hotjar	The Hotjar cookie is set when the user first visits the Hotjar script page. It is used to store the user's session ID.
_hjTLDTest	Hotjar	Registers statistical data about user behavior on the website. It is used for internal analysis by the website operator.
collect	Google	It is used to send device and visitor behavior data to Google Analytics. It tracks the visitor across different marketing channels.

Marketing (27)

Marketing cookies track visitors in order to serve them relevant and interesting advertising.

Name	Provider	Purpose
_fbp	Meta Platforms, Inc.	This type of cookie is set by Facebook to serve ads to users who are on Facebook or another Facebook-owned platform when visiting this page.
_gcl_au	Google	It uses Google AdSense (or Conversion Linker) to track conversions with ad effectiveness across websites using their services.
ads/ga-audiences	Google	It uses Google Ads to re-engage visitors who are interested in becoming customers based on their online behaviour on the website.

Name	Provider	Purpose
anj	Appnexus	Registers a unique ID that identifies the returning user. The ID is used for targeted advertising.
C	Adform	Used to check whether the user's browser supports cookies.
fbssls_#	test.kamnabudvar.cz	It collects data on how the visitor uses the site's content and what articles the visitor has read on the site. It is used for marketing purposes.
fr	Meta Platforms, Inc.	The cookie is used by Facebook to deliver advertisements such as real-time offers from third-party advertisers.
IDE	Google	It is used with Google DoubleClick to register and report the actions of web users after viewing or clicking on an advertisement from one of the advertisers in order to measure the effectiveness of the advertisement and present targeted ads to the user.
pagead/landing [x3]	Google	It collects visitor behaviour data from multiple websites to present more relevant advertising, while allowing the user to limit the number of times the same ad is shown.
px	Appnexus	It logs anonymised user data such as IP address, geographic location, websites visited and which ads the user clicked on in order to optimise the display of ads based on the user's movements on websites that use the same ad network.
test_cookie	Google	It is used to verify that the user's browser supports cookies.
uid	Adform	Registers a unique user ID that recognizes the user when visiting websites that use the same ad network. It is used to optimize the display of ads based on the user's preferences and the bids of different advertising providers for the user's ads.

Name	Provider	Purpose
uuid2	Appnexus	Registers a unique ID that identifies the returning visitor. The ID is used for targeted advertising.
VISITOR_INFO1_LIVE	YouTube	It attempts to estimate the bandwidth of a visitor's internet connection on sites with embedded YouTube videos.
YSC	YouTube	Registers a unique ID that keeps statistics on what videos a visitor has seen.
yt.innertube::nextId	YouTube	Registers a unique ID to keep statistics of what videos a visitor has seen on YouTube the user has seen.
yt.innertube::requests	YouTube	Registers a unique ID to keep statistics of what videos a visitor has seen on YouTube the user has seen.
ytidb::LAST_RESULT_ENTRY_KEY	YouTube	Saves the visitor's video player preferences using the YouTube video app.
yt-remote-cast-available	YouTube	Saves the visitor's video player preferences using the YouTube video app.
yt-remote-cast-installed	YouTube	Saves the visitor's video player preferences using the YouTube video app.
yt-remote-connected-devices	YouTube	Saves the visitor's video player preferences using the YouTube video app.
yt-remote-device-id	YouTube	Saves the visitor's video player preferences using the YouTube video app.

Name	Provider	Purpose
yt-remote-fast-check-period	YouTube	Saves the visitor's video player preferences using YouTube video app.
yt-remote-session-app	YouTube	Saves the visitor's video player preferences using YouTube video app.
yt-remote-session-name	YouTube	Saves the visitor's video player preferences using YouTube video app.

Unclassified (1)

We have a process of classifying these cookies together with the providers of the individual cookies.
