

Friday 21 September

Admiralty Drive intersection works

This Friday, 21 September 2012, works to install underground water services across Admiralty Drive will commence and continue for up to one week from 6:30am to 6:30 pm, Monday to Friday.

Work will be undertaken in stages to maintain traffic flow. During construction, north and southbound traffic access into and out of Paradise Waters will be maintained, however points of access may change.

To minimise the impact on residents and traffic, works involving closure of the left hand slip lane onto the Gold Coast Highway will not commence until 9:00am.

Sunday 23 September

Track works

This Sunday, 23 September, works will take place to install track within the dedicated light rail corridor adjacent to Paradise Waters between 6:30am and 6:30pm.

Minor works to prepare for a track pour were delayed this week due to recent rain. The works on the western-side of the Gold Coast Highway must be completed prior to the Amor All Gold Coast 600 and will take place this Sunday 23 September.

What to expect:

- Please drive to the conditions at all times during construction as points of access, temporary lane closures and changes to traffic and pedestrian flow will occur. Traffic management will be in place to assist motorists and pedestrians.
- Heavy machinery, such as saw-cutting and excavation, to facilitate construction.
- Temporary work areas will be contained by safety fencing.
- Construction noise, dust and vibration at times. Every effort will be made to minimise these impacts.
- Timing of this work is subject to weather conditions and construction constraints.

We apologise for any inconvenience and thank you for your patience during construction.
