

Gold Coast University Hospital Station Parklands Drive

To facilitate construction of Queensland's first light rail, GoldlinQ will continue works along Parklands Drive and begin works at the Gold Coast University Hospital Station Shell (GCUH), beneath Parklands Drive, from late June 2012.

When complete the Gold Coast University Hospital Station will link the new Gold Coast University Hospital and Griffith University campus with the busy activity centres of Southport, Surfers Paradise and Broadbeach.

Construction works will include:

- Installation of site fencing and traffic barriers.
- GCUH temporary laydown yard above the station. Relocation and creation of underground services and storm water drainage.
- Asphalt, kerb, footpath and landscaping.
- Fit-out of the GCUH Station.
- Track laying.

What to expect:

The majority of construction work will be carried out between 6:30am and 6:30pm, Monday to Saturday.

- Heavy machinery noise including reversing alarms from 7:00am.
 - Temporary storage of construction equipment.
- Timing of this work is subject to weather conditions and construction constraints.

Night works:

- Some night work will be required between 7:00pm and 6:00am, Sunday to Thursday.
- Affected stakeholders will be notified directly about night works impacts. Please sign up to receive SMS or email updates at www.goldlinq.com.au.
- During night works vehicles will use "quacker" style reversing alarms rather than beepers to reduce noise
- Light towers will be placed to limit glare.

About GoldLinQ:

In June 2011 GoldLinQ was awarded the contract to design, build and operate Stage One of the light rail system scheduled to commence operations in 2014. McConnell Dowell (MacDow) and Bombardier Transport (BT) Joint Venture are the design, construct and delivery arm of the GoldLinQ consortium. MacDow will design and deliver the track works, roadworks, bridges, station structures and buildings. BT will deliver the rail systems including design and installation, and bring into service the rail systems, rail power and light rail vehicle.

Thank you for your patience during construction and apologies for any inconvenience.
