

Parking changes in Southport

As part of Queensland's first light rail construction, works will be undertaken in Nerang and Scarborough Streets in Southport. Construction will involve relocating underground services such as gas and water, upgrading storm water drainage, landscaping, track form works to lay the rail, five stations and landscaping.

On-street parking along sections of Nerang Street and Scarborough Street will be progressively and permanently removed.

Alternative parking opportunities are available to make it easy to access shops and businesses in Southport. Traffic and pedestrian movements will be maintained around work areas but the points of access may change. Please continue to support your local retailer during construction.
