

## Works Notification

November 2016

# Gold Coast Light Rail Stage 2

### EARLY MORNING CONCRETE WORK

From Thursday 24 November 2016 intermittent early morning concrete deliveries will commence from 5.30am, weather and construction conditions permitting. These works will continue for approximately four months on the Uplands Drive excavation and along the Smith Street Motorway between Longcove Place and Stanton Court. During the warmer summer months, concrete spraying for retaining wall construction will need to occur during cooler temperatures to ensure the quality of the concrete and its finish.

### Work will involve:

- Workers will arrive on site prior to 5.30am to prepare the work area ahead of concrete deliveries.
- Delivery and setup of a concrete pump used to spray concrete onto the structures.
- Concrete delivery trucks and workers' vehicles will enter the site.
- Once the concrete rock face is completed, the rock face is painted to blend in with the environment.

### What to expect

- Noise from the delivery and set up of the equipment including the revving of the concrete truck agitator.

Every effort will be made to keep disruption to a minimum for residents and road users. We appreciate your patience during these important works and will continue to update you as work progresses.

## Project information

Gold Coast Light Rail Stage 2 involves the design and construction of a new 7.3km route which runs from Helensvale heavy rail station adjacent to the Gold Coast Line, then adjacent to the Smith Street Motorway to connect with Stage 1 at the Gold Coast University Hospital light rail station.

GoldlinQ's construction contractor CPB Contractors commenced construction in July 2016 and are committed to completing the project in time for the Gold Coast 2018 Commonwealth Games.
