

Portable power, anywhere for anything

Distributed energy management
to democratise access to power
that is cleaner, greener and
cheaper for all

Distributed energy platform

Decentralised energy storage

STORE AND USE POWER ANYWHERE FOR ANYTHING

Fixed or portable
renewable energy
generation

At home or on-
the-go

Smart device,
cloud connected

Go (4-8kWh)

B2x

Battery to X

At home or
away (camping)

Battery to
device (B2D)

Load management,
peak shaving and
back-up

Battery to
home (B2H)

Export and grid
/energy services

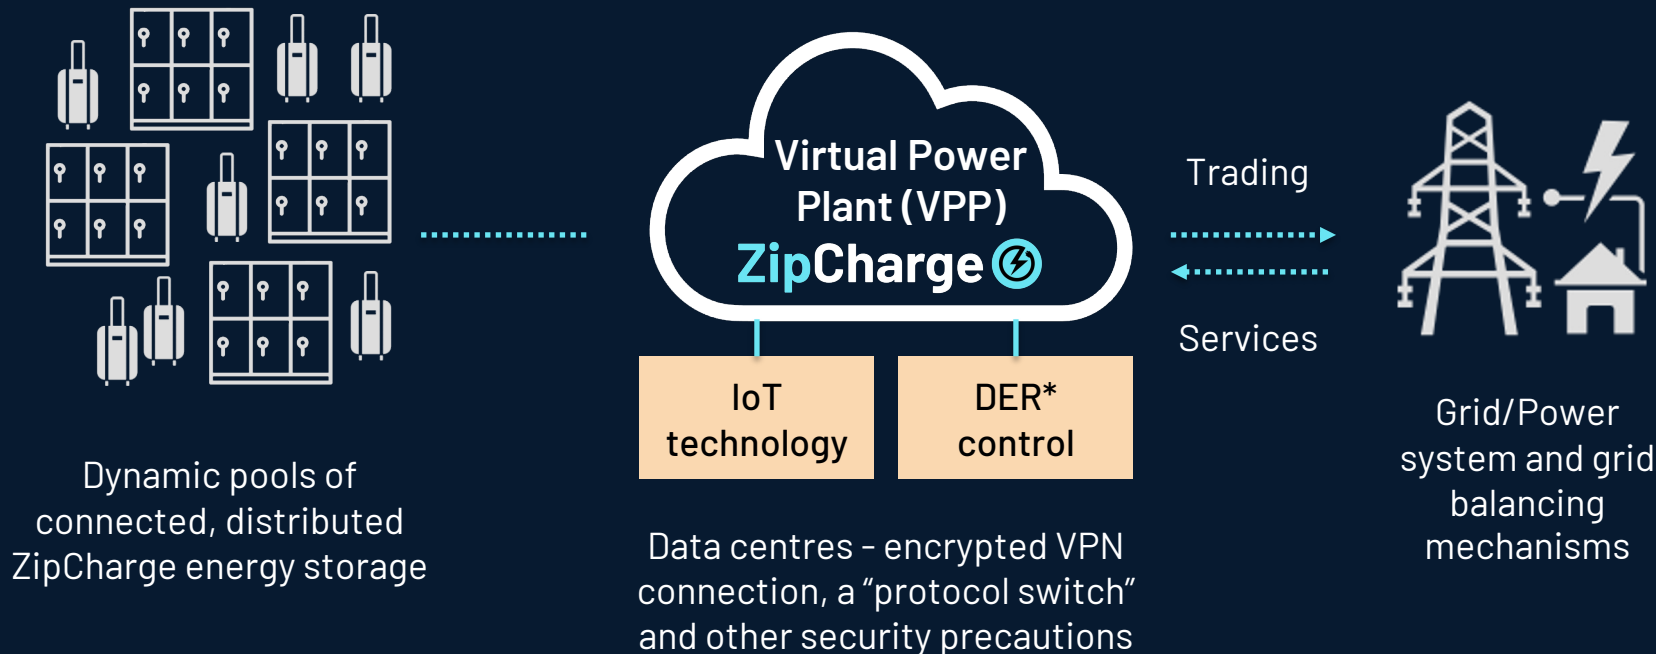

Battery to
Grid (B2G)

Battery to
vehicle (B2V)

Demand side services for the grid

INCREASE ASSET UTILISATION WHEN NOT CHARGING TO LOWER THE COST TO CHARGE
