New York, January 13, 2021 – Talkspace, the leading digital and virtual behavioral healthcare company, and Hudson Executive Investment Corp. (“HEIC”) (NASDAQ: HECCU, HEC, HECCW), a special purpose acquisition company sponsored by Hudson Executive Capital LP, announced today that they have entered into a definitive merger agreement. The combined company will operate as Talkspace and intends to be listed on NASDAQ under the symbol “TALK”. The transaction values Talkspace at an initial enterprise value of \$1.4 billion and will provide the company with \$250 million of cash, to be used as growth capital.

Oren Frank, Co-founder and CEO of Talkspace, said, “Roni and I started Talkspace nine years ago to establish a next-generation technology company, exclusively focused on behavioral health, with the mission of opening up access to mental healthcare, improving clinical outcomes, and helping those in need live happier and healthier lives. Today, this mission is more important than ever before. We are proud of the positive impact Talkspace has made and are excited for the next phase in the company’s journey. Hudson Executive’s experience and relationships in healthcare, expertise in capital markets, and alignment with our mission will be invaluable as we continue to grow, innovate and improve mental health outcomes.”

Talkspace Overview

Co-founded by Roni and Oren Frank in 2012, Talkspace is the leading digital and virtual behavioral healthcare company. Talkspace promotes behavioral health as a lifestyle, not as a one-time event. The company provides access to an extensive network of certified, credentialed, and professional clinicians through two channels – direct-to-consumer and enterprise – and has leading brand awareness in digital behavioral health.

Talkspace has seen robust user growth, with approximately 46,000 active members, and more than 39 million lives covered by employer or healthcare insurance agreements. The company is differentiated in the market due to its focused offerings as well as its highly-rated app and purpose-built technology designed to enhance access and improve outcomes.

In the United States alone, it is estimated that more than 70 million people suffer from some form of mental illness and that less than half of people with a behavioral illness receive care because of cost, lack of access, or stigma. The COVID pandemic has further highlighted this growing and unmet medical need.

For 2021, Talkspace’s estimated net revenue is \$125 million, up approximately 69% from 2020 estimated net revenue.

Summary of the Transaction

The transaction will be funded with HEIC’s \$414 million of cash in trust (assuming no redemptions), a \$25 million forward purchase from Hudson Executive Capital and an additional \$25 million committed by Hudson Executive Capital to backstop redemptions. The transaction is further supported by an oversubscribed \$300 million fully committed PIPE at \$10.00 per share anchored by leading investors including the Federated Hermes Kaufmann Funds, Jennison Associates LLC, Woodline Partners LP and Deerfield.

Upon closing, it is expected that the company will have an enterprise value of \$1.4 billion, or approximately 11x 2021 estimated net revenue, and \$250 million of cash on the balance sheet available to fund growth initiatives.

The transaction, which has been unanimously approved by the Boards of Directors of Talkspace and HEIC, is expected to close late in the first quarter or early in the second quarter of 2021, subject to receipt of HEIC stockholder approval, and the satisfaction of other customary closing conditions.

Additional information about the proposed transaction, including a copy of the merger agreement and investor presentation, will be provided in a Current Report on Form 8-K to be filed by HEIC today with the Securities and Exchange Commission (“SEC”) and available at www.sec.gov.
