

Hey (Name)-

I want to join Experts Exchange ([experts-exchange.com](https://www.experts-exchange.com)) and was hoping you'd let me expense it.

It's \$239.88 for the year, or \$29.99 a month.

Experts Exchange is an interactive community of 4.8 million IT professionals. They host a library of exclusive content, including over 3.9 tech solutions, that they've been building for more than two decades. Experts Exchange is also home to over 3000 subject-matter Experts who are ready and willing to solve challenging problems.

An Experts Exchange subscription is basically like paying \$240/year for access to the best consultants on the planet. It would be like augmenting our IT staff without hiring anyone and could save us hundreds of hours each year.

It's a resource that would help level up our IT department, and for \$240 I figured it would be a no-brainer, but I wanted to get your OK first.
