

Business for Voting Rights  
**Statement on Senate Filing Cloture on S.4,  
the John R. Lewis Voting Rights Advancement Act of 2021**  
November 2, 2021

Yesterday, Majority Leader Schumer (D-NY) filed cloture on the John Lewis Voting Rights Advancement Act (VRAA), moving us closer to a vote affirming that voting rights are protected for all eligible Americans. Business for Voting Rights is proud to support this commonsense legislation, which is not only crucial for America's democracy but also for a healthy economy. Every reauthorization of the Voting Rights Act has received bipartisan support, including the most recent vote in 2006, which passed the Senate unanimously. In this important moment for democracy, we urge all Senators regardless of party to stand on the right side of history and work together to protect voting rights.
