

## DIN rail AC surge protector

This device provides AC surge protection for traffic cabinet components as part of your power supply. It mounts quickly and easily onto a DIN rail and provides up to to 10 kA (8/20 $\mu$ S) of surge protection per AC input line.

- Protection achieved through the use of tightly coordinated hybrid circuits
- Three-stage surge protection:
  - Fast-responding surge-arresting diodes
  - High-powered current-handling gas discharge tubes
  - Series decoupling elements
- Features fault signaling
- Remote indication contact
- Mounts on DIN rail for quick and easy installation
- Approvals: UL 497B, UL 1604
- Pluggable suppression can be hot-swapped for verification testing
- Quick-mount grounding foot provides easy connection and high-performance ground
- Comes in two models:
  - 120 VAC
  - 230 VAC
