

Direct-burial rated sensor cable

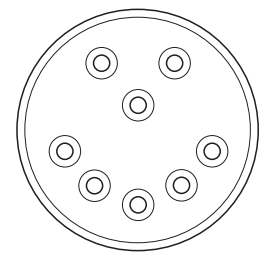

The Matrix Rail homerun cable provides power and communication between the Matrix Rail sensor and the bungalow. Heavy-duty and weather-resistant, this direct-burial rated cable connects to the mast cable at the mast-base junction box.

- Provides power and RS-485 communications between sensor and bungalow
- Color-coded for quick and easy wiring to terminal blocks
- UV-resistant outer jacket makes cable suitable for outdoor applications
- Cable assembly is shielded with aluminum/mylar shield and a tinned copper drain wire
- RS-485 and power conductors are twisted pairs
- Rated for direct-burial installation
- RoHS compliant
