

BOESCH 710 ASCONA DE LUXE

A different runabout

OVERVIEW

Sport and Summer feeling, all together in one boat

The Boesch 710 Ascona De Luxe is the largest single-engine runabout of the Boesch fleet. Thus, it is an extremely sportive boat with an ideal wake for water skiing. Due to its size, its well-designed accessories, the flexible cockpit and the integrated retractable sunshade, the Boesch 710 Ascona De Luxe offers the perfect summer atmosphere. There is sufficient stowage for your water skis and your bathing suit under the sunlounge in the cockpit. The adjustable pilot seat provides a better visibility to the pilot. The V-8 engine, bursting with power but running smoothly, guarantees the unique Horizon Gliding experience.

Sunshade as Bimini-Top

The integrated, feather-light but extremely solid sunshade is very easy to unfold and offers sufficient mobility with its 1.75 m of headroom. The sturdy Bimini-Top is capable to deal with faster and more sportive cruising. Furthermore, an extension covering the sunlounge as well can be put up in no time.

Boesch 710 Ascona De Luxe Electric Power

Even with the electric-power engine, the Boesch 710 Ascona De Luxe has sufficient power to tow a water skier. Thanks to the unique Boesch Horizon Gliding technique, the boat achieves the optimal gliding position even with the electric power engine at low speeds and with less power output.

MEASUREMENTS AND WEIGHTS

Length (hull)	7.10 m
Length (over all)	7.50 m
Beam (hull)	2.36 m
Beam (over all)	2.40 m (rubbing strake)
Draft	0.62 m
Weight	1650 kg
Load capacity	7 persons
Fuel tank	175 l
CE design category	C

ENGINE PERFORMANCE

Maximum speed: 70 km/h (38 kn)

ENGINES

Standard	Gasoline engine V-8 5.7l MPI with 239 kW (320 HP) power output, certified for CH + EU directive 2013/53
Gearbox	ZF63A gear reduction ratio 1,22:1

Horizon Gliding

dark brown

red

brown

light brown

COLOR OPTIONS

Since mahogany is a natural product, the colors may differ slightly from the example shown.

ELECTRIC POWER ENGINES

Standard	Piktronik synchronous motor with 80kW power output, 360V operating voltage, lithium polymer accumulators with 360V and 174 Ah capacity. New: energy content 62.6 kWh
Option	Piktronik synchronous motor with 100kW power output, 360V operating voltage, lithium polymer accumulators with 360V and 209 Ah capacity. New: energy content 75.2 kWh

BATTERY OPTIONS

Standard	62.6 kWh (80 kW) / 75.2 kWh (100 kW)
Option	75.2 or 83.5 kWh (80 kW) / 83.5 kWh (100 kW)

ELECTRIC POWER PERFORMANCE

Maximum speed 80 kW: 48 km/h (26 kn)
Maximum speed 100 kW: 53 km/h (28 kn)

RANGE WITH FULL PLANNING VELOCITY OF 40 KM/H

80 kW propulsion/83.5 kWh batteries: approx. 80 minutes (full planning)
100 kW propulsion/83.5 kWh batteries: approx. 80 minutes (full planning)

The integrated Bimini-Top offers refreshing shade and can be used as well with sportive cruising.

The steering position offers ample space. The clearly structured instrument panel is handcrafted in high-standard Boesch quality.

Your guests will enjoy the spacious comfort of the cockpit.
