

Top 10 news stories of 2019

UK manufacturing continues to face significant change in automation and digitalisation, attitudes towards its emissions output and preparing its workforce for the future, while being beset by ever-shifting political challenges as the UK prepares to the the European Union.

That atmosphere has been reflected in much of the news The Manufacturer Editorial team has reported in the past 12 months. Here are the 10 news stories, announcements, analysis and insights our audience of manufacturing business owners and decision-makers engaged with the most.

How to change your processes, culture, and build confidence in your organisation's data

Smartia are exhibiting at the Make UK National Manufacturing Conference, 25th Feb 2020, QEII London

Join us on 25 February 2020 for our National Manufacturing Conference at the QEII Centre, London.

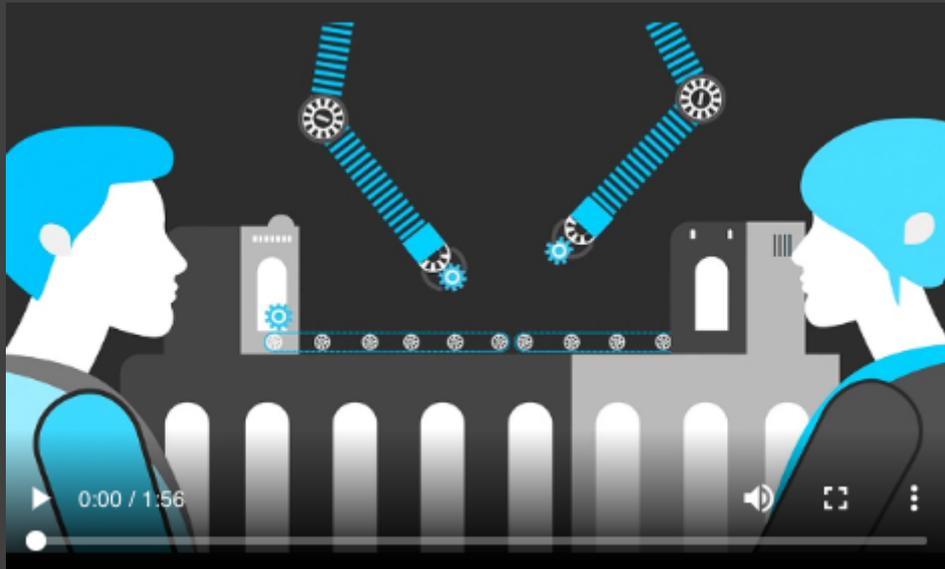

The manufacturing industry is operating within a highly changeable and evolutionary environment. Our conference provides the perfect opportunity to learn new processes and practices that businesses can implement now to help navigate these uncertainties.

We're bringing together industry and thought leaders along with key policy makers for a day of analysis, debate and inspiration so make sure you're clued up and business ready. Whether it's identifying new trading opportunities, optimising your workforce or unlocking new ways to make money.
