Hull College is at the forefront of vocational education for school leavers in the area.

Everyone within College prides themselves on ensuring that learners leave us with the skills and knowledge they need to begin a career in the industry of their choice.

We ensure that our specialist facilities are industry standard to prepare learners for the world of work. In this prospectus, you'll find a range of information about our Study Programmes, as well as details about how to apply for them.

There's also a section to read about our learners experiences at the College with our learner success stories.
WHY CHOOSE HULL COLLEGE?

We may be the biggest college in Hull, but we are more than just a tower block. Hull College is a community full of friendly and approachable people. When you enrol with us, we take the time to understand you, support your needs and help you to achieve your dreams.

When you walk through the doors of our city centre campus, you will be met by our specialist facilities. Whether it’s the hair and beauty learners perfecting the latest looks in Salon QG or the catering learners cooking up a feast at our on campus restaurant, HU1 Riverside, there is a whole host of vocational areas to explore and develop your skills.

With programmes available from entry right through to master’s level qualifications, we offer a wide range of technical and professional qualifications. We pride ourselves on our commitment to preparing our learners for the world of work, which is why we place so much emphasis on developing employability skills alongside your main qualification.

The College’s main campus is located in the heart of the city’s historic old town, with satellite sites at Cannon Street, the Steve Prescott Centre and Portobello Street, housing dedicated facilities for motor vehicle, fabrication, sport, public services and construction. Alongside these, we also have the Hull School of Art and Design which is a dedicated space for the Faculty of Arts and Creative Industries and the Faculty of Management, Health and Technology.
EXCLUSIVE LEARNER ZONES
Escape from it all, relax and socialise with friends in our with games rooms and study areas.

SPECIALIST EMPLOYER LINKS
We work alongside a variety of local employers who provide learners with outstanding opportunities of work experience.

CLEAR PROGRESSION ROUTES
Whether you’re studying art or welding, you can progress onto a higher-level course, degree or apprenticeship, all with Hull College.

ON-SITE CHILD CARE CENTRE
Have peace of mind for your little ones while you study with our childcare centre.

SECOND TO NONE LEARNER SUPPORT
Hull College aims to provide learners of all ages and backgrounds with advice and support. This could be anything from careers or childcare places to free transport and meals.

INDUSTRY-STANDARD FACILITIES
To make sure you’re prepared for work in the industry of your choice, we have endeavoured to provide learners with the best facilities around.
Do you learn better by working with your hands? Do you retain information better by ‘doing’ rather than ‘listening’? If so, then you may be suited to training on a practical, hands-on, vocational study programme. There are three main components of a study programme:
This is the main body of your programme, where you will gain the skills you need to progress into your chosen career. There are a wide variety of vocational options to choose from.

All learners require maths and English grade 4 (C) as a minimum to progress to Level 3 studies. For learners with grades below these, we will support you to achieve a grade 4 or above.

All learners will develop their employability skills through a variety of real work experiences and have the opportunity to complete our Employability Skills Passport.
You may have heard the words ‘vocational’ ‘BTECs’, ‘NVQs’ or ‘Diplomas’ – these are all terms used to refer to technical qualifications, where you train full time to gain the specific industry skills you need to enter the career path of your choice. There’s a wealth of vocations to choose from, Catering to Business, Hairdressing to Fashion Design...and many more.

REAL WORK ENVIRONMENTS

Hull College delivers training in our industry standard training environments, such as Salon QG, The HU1 Riverside Restaurant, the Construction and Motor Vehicle workshops or our new Cabin Crew air cabin simulator. These purpose built facilities give you the opportunity to gain real work experience and skills whilst still enjoying the advantages of studying in a College-based surrounding with your peers.

PRACTICAL LEARNING ASSESSMENT

Technical qualifications are focused on developing practical, hands-on skills and you’re measured through ongoing assessment. You are required to regularly demonstrate the skills you have gained, until they meet the standards set. Over time, you will create a portfolio of evidence that records your achievements and demonstrates competence in all modules.

ENTRY REQUIREMENTS

Courses start at foundation level and progress through Levels 1, 2 and 3. The higher the level of qualification you hold, the more technically skilled you will be and more likely to enter the workforce at a higher level. Some vocational areas require you to start your training at Level 1 or 2 and work your way up. This is because you will need to master the basics first before you can develop advanced skills. You can see the specific entry requirements for each qualification in this course guide. Remember, the level of study programme you enrol on will depend on you meeting the criteria for maths and English - if you don’t then you may need to re-sit these GCSEs first.
Your Maths and English GCSE grades are critical to your future, whatever your career ambitions, and are central to work and life; success in these subjects is linked to better life chances and greater achievement.

As part of your Study Programme, you will be required to complete or resit your maths and English GCSEs if you haven’t gained a 4 (C) or above at school, and your grades will affect which level of course you are offered at Hull College, and the length of time it will take for you to reach Level 3. Using sophisticated computer assessment software, we will identify your strengths and areas for development and enrol you on the appropriate Functional Skills or GCSE course. Functional Skills are designed to help you master the basics as you build your confidence. Once you’ve achieved Functional Skills at Level 1, you will then progress onto the GCSE course in the following academic years, as we gradually support you to reach grade 4 or above.

WHAT IS EMPLOYABILITY?

Alongside the technical knowledge you will gain as part of your vocational study programme, there’s also a range of generic Employability Skills that employers require you to have in order for you to be an effective member of their business.
Employability Skills can also be referred to as transferable or soft skills. This means that they are necessary and usable in any role, any business or any industry and you can continually improve them. The more developed your employability skills, the better progress you will make in your chosen career.

**HOW WILL I BECOME EMPLOYABLE?**

Your vocational study programme will be bursting with opportunities to improve your technical and transferable skills. To increase your future career prospects you could be:

- Gaining work experience & placements
- Undertaking commissioned projects
- Working on community projects
- Training in industry standard learning environments

**WHICH EMPLOYABILITY SKILLS DO YOU HAVE?**

At Hull College we are passionate about employability and our role in developing the workforce of the future. Vocational study programmes at the College are designed with a focus on developing your employability skills, that’s why 93% of Hull College learners progress onto employment or further study within six months of completion.

“OUR BUSINESS HAS BENEFITED IMMENSELY FROM SOURCING TALENTED AND ENTHUSIASTIC LEARNERS DIRECTLY OUT OF COLLEGE.”

Tom Morrison - Rollits
WHO ARE OUR EMPLOYERS?

“Studying hard and gaining good qualifications are important, but that is only one part of what we look for in our future workforce. A can-do attitude, positive outlook, strong work effort and commitment to putting clients first are key attributes we look for in all our employees and new recruits. Tutors have the opportunity to get to know their Learners over a much longer period than an employer might have during a typical recruitment process...Our business has benefited immensely from sourcing talented and enthusiastic Learners directly out of college.”

Tom Morrison - Rollits

“Spectrum Noir sponsored a design competition for Graphic Design Learners at Hull School of Creative Arts. Learners were allowed to fully flex their imagination and technical skill as they explored the theme of ‘Creative Expression’ using a variety of hand-drawn and digital techniques. We were impressed not just by the diversity and originality of the entries we received, but also by the thought each Learner had clearly put into their individual interpretations of the brief. Choosing a winner was a difficult but rewarding job.”

Simon Hodges - Spectrum Noir

“NEW IDEAS, BRINGING FRESH PERSPECTIVES AND ENERGY INTO THE BUSINESS...WHAT’S NOT TO LOVE ABOUT THAT?”

“It was a real pleasure to see such creativity and enthusiasm from our industry’s upcoming talent.”
“Our decision to convert our initial four containers into store, office, shop and cafe was a rather ‘tall order’ however the staff and Learners, did not hesitate in taking on the challenge. This included joinery, electrical, plumbing, design, which in reality is a major operation as no blueprint or master plan existed. If this project helps to build the work ethic and awareness of these learners we will be delighted.”

Adrian Fisher - Rooted in Hull

Smile has worked on a number of projects with Learners from different departments across Hull College and we have been consistently impressed with the enthusiasm and dedication they demonstrate. Smile has proposed a number of real life community challenges faced by local charities to Hull College Learners and they have worked hard to produce solutions.

An outstanding example is the recent Hull Street Angels Trinity Dry Bar. This local charity works hard to keep people safe in Hull city centre on Friday and Saturday nights by offering refreshments and a safe place to hydrate. They were in need of a new, eye-catching design for their pop-up dry bar and Smile went to Hull College graphic design Learners for help! Smile provided the context, public safety/fundraising considerations and linked them with local design agency, Umber Creative, to receive practical support and printing services.

“The end result is brilliant – the dry bar fits in with the local nightscape and feels like it’s part of a night out, whilst simultaneously promoting responsible drinking. The work the Learners produced was well thought out and inspired.”

Nick Middleton - Smile Foundation

“I have met some incredible young people over the past five years; I strive to view the Young Health Champions as unique human beings all of whom come to the hospital with personnel history, cultural perceptions and traditions, goals and aspirations as well as fears and insecurities. By developing the principles of personalization, I am able to connect with the Young Volunteers in a genuine way in order to build trust, confidence, self-belief, communication and above all respect and a fabulous opportunity in the world of health.”

Rachael Hardcastle-Pearce - NHS

“BELIEVE IN THE YOUNG PEOPLE AND THE MAGIC WILL HAPPEN”
OUR FACILITIES

Hull College is proud of its industry-leading facilities, including construction and carpentry workshops, dance studios, media suites, training kitchens and professional salons.

RIVERSIDE THEATRE & MEDIA STUDIOS

The 200-seat theatre hosts a wide range of plays, productions and musicals performed, produced and even created by learners throughout the academic year. Alongside the theatre are state-of-the art production suites and studios with the latest industry technologies.
HU1 RIVERSIDE BISTRO

Open to learners, staff and visitors, the HU1 Riverside Bistro is the College’s top training restaurant serving delicious and seasonal meals created and served by our learners. Located in the iconic Horncastle building, HU1 Riverside provides a thoroughly modern dining experience.

CONSTRUCTION & ENGINEERING WORKSHOPS

Gaining practical skills during your studies is an important factor in many of our specialist programmes including Construction, Motor Vehicle, Engineering, Plumbing, Electrical and Painting and Decorating. Learn and gain the practical skills and experience needed within the safety of our purpose-built workshops.

SALON QG

Salon QG is the College’s premier training Hair and Beauty salon, offering treatments and hairdressing to learners and the public. The modern, fully equipped training salon offers hairdressing, nail treatments and beauty therapy at excellent value for money. The salon is open during term time from Monday to Friday, with late opening three nights a week. Call (01482) 598770 to book your appointment today.

HU1 VISUAL ARTS STUDIO

The HU1 Visual Arts Studios houses a variety of dedicated workrooms and studios for our range of Art and Design Programmes, each with specialised equipment to support your imagination and creativity.

STEVE PRESCOTT CENTRE

The centre offers a large sports hall, gym, changing rooms, classrooms, 3G pitch as well as several grass pitches. Here, learners develop their own abilities as coaches or instructors, analyse data and experience what it’s like to integrate theory into practice. Running alongside their studies, learners are also offered the opportunity to join different teams such as basketball, football and the Hull Kingston Rovers Development Academy.

TV STUDIO

At the Horncastle building we have a purpose built professional TV Studio, where we can broadcast live on social media platforms as well as YouTube. It has three cameras all with autocue, wireless microphones and a full lighting rig, it can also have virtual studios with our full green screen wall. Future learners will have the ability to learn how a TV studio works and gain skills to help them progress to higher education or industry.
LEARNER SUPPORT

At Hull College, our aim is to support you on the journey to your dream job, and we have a team of fully qualified impartial careers advisors ready to meet your needs.

Our Learner Support Service includes:

- Connexions Advisors for 14-18 year olds
- National Careers Service advisors for Learners aged 19+
- Drop in sessions or appointments
- CV writing support
- Job searches
- Interview skills training
- An annual careers exhibition
- A team of Learner Advisors for 16-18 year olds

Not sure what your dream job is yet? Take a look at our online Career Coach to investigate careers that interest you, look at local job prospects and even average salaries. Simply scroll down the home page to see the career search box and away you go. If you find a role that grabs your attention, scroll to see the courses we have on offer that will set you on the path to job success...

FREE MEALS

Learners aged 16 to 18 who received free meals at school will be able to apply for a meal deal voucher to use on campus. If you are aged 19 to 25 and are subject to a Learning Difficulty Assessment (LDA) or Education Health and Care Plan (EHC Plan) and European Social Fund (ESF), you may also be entitled to a free meal depending on whether you meet the proposed criteria.

ADDITIONAL SUPPORT

The College has a specialist team of support workers available to provide dedicated support to learners who require it. It is essential that learners who require additional support notify the College of any learning difficulty or disability before starting any programme. Support is also available for any learner who requires assistance with English, maths or language skills.
CHILDCARE

Hull College provides a wide variety of play and learning opportunities for children under five years of age at the childcare centre on the Queen’s Gardens campus.

For more information, please call our Childcare Centre Manager on 01482 598931.

SAFEGUARDING

Hull College Group recognises its legal duties and responsibilities to safeguard and promote the welfare of everyone who attends the College. The College works with the local Safeguarding Children and Vulnerable Adults Boards and other agencies ensuring staff are well trained to support anyone who may have concerns about their safety or concerns regarding abuse or neglect. We also have dedicated staff to support you with any welfare or guidance concerns you may have.

COUNSELLING

The Hull College Group Counselling Service provides free, confidential and professional counselling as part of the College’s commitment to the mental well-being of learners. Anyone can refer themselves, or be referred by a member of staff, and can attend counselling around any issue that may be affecting them, whether it is personal or related to the College. Information can be found via the Hull College website or Canvas.

TRANSPORT

If you are aged 16 to 19 and studying a full or part-time course you may be eligible to apply for a bursary. You will also be eligible for free transport to and from the College.
CAMPUS MAPS
WHAT IS AN APPRENTICESHIP

If you’re eager to get out of the classroom and straight into work. Then you may want to consider an apprenticeship route to employment with our industry specialist provider, HCUK Training.

Apprenticeships prepare you for the world of work by combining on-the-job training with some classroom study and lead to nationally recognised qualifications. You’ll be in real, paid employment, learning your trade by working closely with a qualified, experienced team around and with your assigned apprenticeship assessor, who you will meet with regularly.

HOW CAN I PROGRESS?

Like vocational studies, apprenticeships are available across a range of levels so we can match you to a programme that suits your ability and career goals. Your qualification will prepare you for employment or you can progress onto the next level of the programme if it suits your job role.

WHAT’S IN IT FOR ME?

- Be paid to learn
- A minimum wage of £3.50 an hour
- Paid holiday time
- Learn at your own pace
- A higher future salary

WHAT DO I NEED?

You’ll need a willingness to improve your maths and English to grade 4 (C), a desire to work in the industry you’ve chosen and a positive ‘can do’ attitude to get started on your journey.

An Access Course at Hull College can offer you a fast-paced, life-changing experience which allows you to develop valuable writing and research skills, as well as gaining a qualification that is nationally recognised and valued by Higher Education institutions.

There are five diplomas that you can choose from:

- Access to HE: Business with Law
- Access to HE: Humanities & Social Sciences
- Access to HE: Health Science Professions
- Access to HE: Criminal Justice and Policing
- Access to HE: Art & Design (Art Pathway)

Assessment of learners work is varied and includes exams, essays, debates and presentations, all of which will prepare you for the experience you can expect once you progress to a degree at Hull College. There’s a strong community of access learners who study with us, who all support each other to ensure everyone succeeds on their course.

If you’re looking for a change of career or if you feel that you’re stuck in a rut and are looking for a way out, education can hand you the keys to new opportunities. Now is the time to change, kick-start the new life that you’ve been looking for and sign up for an Access Course today.

All Access Courses require learners to hold GCSE English at 4 (C) or above. The Health & Science Diploma also requires learners to hold GCSE maths at 4 (C) or above.
LEARNER CASE STUDY

NAME?
Declan Swanson

WHAT COURSE DID YOU STUDY PREVIOUSLY?
Access To HE: Business With Law

WHY DID YOU CHOOSE HULL COLLEGE?
Primarily because it gives a lot of opportunities for older Learners to gain qualifications. I’d also heard lots of good things about the College itself and one of my friends told me that it was really supportive to its learners.

“I’M LOOKING FORWARD TO THE OPPORTUNITIES MY COURSE WILL BRING. I WANT TO DO AS MUCH AS I CAN AND WORK AS HARD AS I POSSIBLY CAN TO DEVELOP AND LEARN NEW SKILLS. I’M FOCUSED ON BEING THE BEST I CAN POSSIBLY BE. EVERYONE HAS BEEN SO HELPFUL AND SUPPORTIVE AND HAS MADE ME FEEL SO WELCOME FROM DAY ONE.”
JUMP IN TO YOUR CAREER

ACCESS TO HE: HEALTH SCIENCE PROFESSIONS
STUDY LEVEL 3

Access courses are for adult learners, aged over 19 years to enable them to gain entry into university. The course is structured to enable learners to build up their academic skills, alongside studying subject specific modules, and is assessed through course work. The course comprises of taught sessions with online support materials available through the college online portal Canvas.

For entry onto all Diplomas a minimum of GCSE grade C/4 in English, Level 2 equivalencies will be considered on a case by case basis. There are currently three Diplomas on offer. Health sciences in which you will study two modules in Biology, including the human body and either psychology or chemistry. These will enable you to gain entry into any health care degree such as nursing or midwifery and any science degree such as biology, biomedical science and chemistry.

ENTRY REQUIREMENTS
Maths and English at 4(C) or above

ACCESS TO HE: HUMANITIES & SOCIAL SCIENCES

ENTRY REQUIREMENT
Maths and English at 4(C) or above

*Programmes are subject to change
Studying Science at Hull College is your first step towards a career in an industry at the forefront of discovery. You will be given a comprehensive look at a range of key principles including physics, chemistry, genetics, microbiology, physiology, electrical and medical physics.

You’ll develop a range of scientific skills, and learn how science is applied in the professional world but also to everyday life. There’s also the opportunity to boost your employability skills with exciting work placements.

**APPLIED SCIENCE PROGRAMMES**

Working in a scientific role can encompass many things; from working in a lab discovering new medicines to working on new technological advances and much more!

**HIGHER EDUCATION PROGRESSION**

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Criminology
APPLIED SCIENCE

STUDY LEVEL 2

The OCR Extended Certificate is a different type of science course that prepares you for further study by improving your study skills, practical work and research skills. Rather than repeating theoretical concepts in science that you may have studied before, this qualification will provide you with practical experience in science labs, teach you how to correctly record, process and present scientific data from experiments and carry out research into human health. All this is assessed through written reports and analysis of your work, without the need for final exams.

This course is the equivalent to two GCSE's and can provide direct access to studying Level 3 (A-level equivalent) science at Hull College, while also giving you the opportunity to improve your English and maths grades. The course is designed to open up different areas of scientific development and build a wider understanding of the important role science plays in society. The government estimate that young people with five GCSEs can earn up to £2000 more in starting salary when they enter the job market. Completing the OCR Technical Extended Certificate in Science, along with GCSE maths and English, can help open the door to a wide range of possible career paths or progression to higher level courses.

Four unit assignments, 100% internally assessed coursework:

Unit 1: Science of the Earth
Unit 2: Collecting and Presenting Data
Unit 5: Communicating Science
Unit 8: Science of Health

ENTRY REQUIREMENTS

4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification
LEARNER CASE STUDY

NAME?
Cara Chadwick

WHAT COURSE ARE YOU STUDYING?
GCSE Biology

WHAT COURSE ARE YOU STUDYING?
Access To HE: Business With Law

WHY DID YOU CHOOSE HULL COLLEGE?
I looked at a few different places to study but found that Hull College were the most informative with regards to the GCSE Biology course. I met with Jenny prior to signing up to the course and she made sure it was the right course for me and from there I enrolled.

HOW DID YOU FIND RETURNING TO EDUCATION?
I loved it, it takes a while to get back into it but once you pass that barrier and start learning again the feeling is amazing and it helps give you the drive to carry on to achieve your goals and ambitions. I found that getting into the routine and the later evenings had the biggest impact on me, but before you know it you are back in the habit and getting excited about the school holidays!

WOULD YOU RECOMMEND HULL COLLEGE TO YOUR FAMILY / FRIENDS?
Yes. Jenny my tutor was very supportive and approachable, she had the time to settle my nerves and help me through the year which is something I have found other schools and colleges have failed at in the past. I couldn’t recommend the college enough. Thank you for the help you have given me on my way to achieving a better future for me and my family.
APPLIED SCIENCE
STUDY LEVEL 3

Delivered over two years it will provide you with the equivalent of three A-levels in science, opening up the door to a vast array of university courses, along with the skills and experience needed to enter the employment market directly as a science technician or laboratory scientist.

During this two-year course you will study a range of specific science units in biology, chemistry and physics through a range of theoretical, research and practical assessments. The variety of topics covered will allow you to gain a broad spectrum of knowledge and practical skills, with work structured to allow you to discover and explore your chosen speciality. Vocational science courses also require you to explore the application of these topics in industry, giving you a head start at the end of your studies when you enter the job market.

On joining the course, highly trained and experienced staff will work with you to develop the academic and vocational skills you need to help you on a challenging and rewarding career path in science.

Unlike A-level studies, the BTEC Level 3 Diploma in Applied Science is assessed entirely through coursework, which means you are continually assessed as you progress through the course and do not face any high pressure final assessments. The continual assessments are designed to introduce the theoretical concepts you would meet during A-level studies, but to allow you to develop through the more complex tasks in your own way, analysing the quality of your practical work and carrying out independent research to evidence your understanding in each separate topic area.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including maths, English and Science
ART & DESIGN
PROGRAMMES

In 2017, Hull lit up the art world by hosting the UK City of Culture. Hull College Art & Design Learners played a leading role in that magical year and the legacy continues to inspire anyone who studies in our HU1 Visual Arts Studios.

Specialising in Fashion, Textiles, Printmaking, Ceramics and Glass, 3D Design, Art & Design, Fine Art, Graphic Design and Photography, you’ll learn in the hub of creative activity that our HU1 Visual Arts Studios provides.

Offering programmes from Levels 1 – 4, there’s something for everyone to fulfil their artistic ambitions and begin an exciting career in the creative industry.

Our HU1 Visual Arts Studios have been designed to provide learners with modern workrooms and studios, filled with specialist equipment so you can develop visual and hands-on skills in the perfect environment.

Learners are given the opportunity to work on live briefs submitted by local clients, providing much sought after and valuable work experience that helps build a professional portfolio, as well as developing skills to enter into a career in this exciting field.

With outstanding links to the local creative industry, our learners also have the opportunity to showcase their work and projects in many local exhibitions, galleries and competitions, and contribute to local festivals such as Freedom, Pride and Humber Street Sesh.
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Graphic Design and Illustration
FD Fine Art
FD Photography
BA (Hons) Architecture MA Creative Practice
FD Fashion and Textiles
ART, DESIGN & MEDIA
STUDY LEVEL 1

Studying the Level 1 Diploma in Art, Design and Media allows learners to explore a wide range of art and design media and techniques including: drawing, painting, printmaking, photography, CAD, time-based media and 3D.

Successful completion of this course will prepare learners for progression on to the Level 2 Diploma in Art and Design and the Level 2 Creative Media Study Programmes.

ENTRY REQUIREMENTS
No formal qualifications are required

ART & DESIGN
STUDY LEVEL 2

This course allows for a broad based Art and Design study in core disciplines including drawing, painting, printmaking, contextual studies, computer aided design, time based media and various 3D techniques. Visits to galleries and trips are an essential part of this study programme. The study programme is a combination of a vocational art and design qualification and maths and English depending on entry.

This course enables you to specialise in either: Photography, Graphics, Fine Art, Textiles, 3D Design, Interactive Media, Fashion & Illustration.

Successful completion of the Level 2 will enable you to progress on to Level 3 Diploma in Art and Design.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification
The course has been designed to allow you to explore a range of specialisms through quick taster sessions, before you decide which pathway to focus your studies. The first six weeks of the course will introduce the main principles of art and design through theoretical studies and experimental workshops. After this swift introductory period, you will continue your studies in your chosen area with specialist tutors to support and nurture your development.

The Creative Arts department offers outstanding specialist facilities for use by learners studying all disciplines. These include print studios, dye labs, photography suite with industry standard photographic and lighting equipment, fashion workshop with specialist machinery and mannequins as well as an extensive 3D workshop and CAD facilities. Studios are equipped with Apple Mac computers and PCs, in addition to this Learners have full access to the latest Adobe Creative Cloud (including Photoshop & Illustrator) to develop their studies using digital software.

Art and Design theory is an integral part of the qualification and will support individual studio work. Research and contextual studies is embedded in the study programme to gain a deeper understanding of how artists and designers work, this informs creative thinking and practical work.

Learners will develop important employability and communication skills, and be guided by specialist art and design staff as to the career opportunities within the creative industries. They will also benefit from an enrichment programme of educational visits, competitions, live/simulated briefs and the opportunity to participate in exhibitions.

Upon successful completion of all units at the end of the course, a final grade will be awarded. Learners will have produced a professional portfolio of work to aid progression to higher education, employment or training.

**ENTRY REQUIREMENTS**
4 x GCSEs at grade 4 (C) or above, including at least 3 (D) in English
**FOUNDATION DIPLOMA IN ART & DESIGN**

**STUDY LEVEL 3**

Foundation Art and Design (FAD) will offer you the opportunity to develop your skills in a range of specialisms and is aimed at learners who have an A-Level in an art based subject but need to expand their studies in order to progress to an Art or Design degree.

FAD will support you in developing an open-minded working practice that will give you a variety of approaches to creative problem solving and prepare you for the creative world with a full range of exploratory modules covering many disciplines to give you a broad understanding of the arts.

FAD is split into three stages:

In the first stage you will explore creative practice through a range of rotational projects in Fine Art, Three-dimensional Design, Fashion and Textiles, Photography, Ceramics and Graphic Visual Communication.

In the second stage you will specialise in your chosen pathway and undertake practical development of key skills needed for your chosen industry. These will also build upon the techniques and skills introduced in stage one and integrate these through further exploration and problem solving activities.

In the third stage you will undergo a final project that culminates in a final year exhibition. This final project is the only piece of work to be graded and this grade will reflect your entire year’s work.

You can go on to study a range of degree courses at Hull College including 3D design, fine art, illustration, curation, professional practice, film and TV, or teaching art and design yourself.

**ENTRY REQUIREMENTS**

4 x GCSEs at grade 4 (C) or above, including maths and English

---

**FASHION SPECIALIST IN ART & DESIGN**

**STUDY LEVEL 4**

With many opportunities out there for a fashion and clothing graduate, learners from this Programme progress to prestigious universities nationwide, including London College of Fashion, UCA and Northumbria, as well as into exciting roles as textiles designers, buyers and more.

We have an ambitious and excellent progression rate into some of the very best higher education institutions, whatever you find yourself doing. Explore the arts and take the next step in your career with Hull College.

Whilst on the course you will cover research skills, design development, trend prediction, portfolio building, fashion illustration, pattern cutting, garment construction as well as being support with UCAS applications and interview techniques.

Fashion is one of the largest and most exciting industries in the UK. Over 700,000 people are employed in the fashion and retail sector, making it the second biggest employer after the NHS. The industry has a wide offering of career pathways including design, textiles, social media, communications, marketing, brand management, retail management, photography and styling.

**ENTRY REQUIREMENTS**

Completion of Level 3 Subject Specialist Qualification
Hull College Learner has aspirations of being a fashion designer and is starting her final year of a two-year course at Hull College.

Esther fled from Syria in September 2014 and moved to Lebanon with her family, hoping for a better future. But that wasn’t the case. Due to harsh experiences of racism she faced as a refugee, a year later Esther made the long journey to Hull with her mother, father and two sisters.

Speaking of her experience moving to Hull, Esther said “Hull is a beautiful place. I’m very happy here but of course it was a little bit challenging. Making friends was hard at the beginning because you can’t communicate with the Learners.”

Esther has aspirations of being a fashion designer and is starting her final year of a two-year course at Hull College.

She added “Now I’m enjoying life. I always make an effort to fit in.”

The UK government announced in 2015 that it would take up to 20,000 refugees, like Esther and her family, fleeing the Syrian war, by the end of 2020.
The beauty industry has seen an explosive growth, especially amongst the younger generation. With the use of social media and the internet, you’re never many clicks away from the latest flawless face tutorial.

The industry is built on products and services that help us look our best – whatever that best may be!

Beauty is changing, providing never-ending opportunities for innovation and discovery.

Hull College has a great choice of Beauty study programmes, from theatrical make-up to nail technology.

Learners train in our very own beauty salon, Salon QG, where professional treatments are offered to the paying public.
LEARNER SUCCESS STORY

From helping out at local fashion shows to getting involved with hospital training exercises, one Make-up Artistry learner is using her skills in imaginative ways. Aleah Hartley is currently in her final year of studying Level 3 Advanced Theatrical Special Effects and Media Make-up Artistry with Hull College.

To progress into the industry, Aleah has started her own business with friend Kaileigh Ellison, with the aim of gaining hands-on experience across a range of make-up disciplines.

Recently, Aleah has been commissioned to lead a special effects make-up workshop for theatre companies in Hull, Beverley and York, which will involve a 90-minute session focusing on special effects then a 90-minute session on Halloween make-up. Aleah has also worked with York Fashion week as a Make-up Artist, getting the models ready for the catwalk.

One part of her work that Aleah enjoys the most is working with hospitals, whether that be for family fun days or producing the special effects make-up for training exercises. Aleah said “My Dad spent a lot of time in hospital, so it's nice to give back where I can and make a difference.”

Aleah first became interested in make-up artistry while studying GCSE art at school. “We were given a brief to create something 'fantastic and strange'. Everyone focused on pretty things like unicorns, but I experimented with the gorier side of special effects.”

Now in the final year of her course, Aleah is marketing her business through Instagram, MakeUpByAleahMua and has big plans for the future. When asked why she chose Hull College, Aleah said “They had the best Level 3 course in the area, along with the best kit and facilities.”

Make-up is a great medium for expressing your imagination and can lead to an exciting career working in the photography, film or theatre industry as a make-up artist.
INTRODUCTION TO BEAUTY SECTOR
STUDY LEVEL 1

This qualification is designed to prepare learners who are not quite ready for Level 2 studies, providing additional study time to progress onto Level 2 Beauty Therapy. Maths and English are a crucial part of this course, to support with completion of record cards and working out ratios of products, plus developing money handling skills.

The core units you will cover are: Manicure and nail care, Facial and skin care, make-up application, Nail art.

There is an opportunity for learners who progress well to work towards a Level 2 Certificate in Beauty Therapy within the same academic year.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above

STUDY LEVEL 3

Creativity isn’t just limited to working with paint or clay. Make-up is a great medium for expressing your imagination and can lead to an exciting career working with performers.

Progressing from one of our Level 2 courses, you will study both the practical and theory based aspects of the various make-up related industries.

Learning how to do creative hair and make-up for performers, as well as applying prosthetics and bald caps, special effects make-up, body art for productions, you also cover wider issues in the industry such as health and safety and customer service; building up your employability, maths and English skills.

Following this course, you can start your career working in the photography, film or theatre industry as a make-up artist or beauty therapist. You could also progress onto a related Foundation Degree.

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification
BUSINESS PROGRAMMES

If you’re looking for a career that opens up a world of exciting possibilities around the globe, then our range of Business programmes are the perfect start.

Business courses are a popular option for further education. We work with a number of key employers in the local area, where learners have the chance to gain vital work experience in an office environment alongside your studies, making you an attractive candidate for employment.

As a graduate from our Business study programmes, you can go on to work in a huge range of sectors depending on what you enjoy most, including marketing, advertising, PR, human resources, sales and retail.
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

- FD Business and Management
- BA (Hons) Business and Management (Top Up)
ANALYSE YOUR FUTURE

BUSINESS AND ADMINISTRATION

STUDY LEVEL 1

You’ll study a number of practical topics to help you to identify what you may want to do for your career.

Taking part in a wide range of modules and developing key employability skills to help you transition into work, you’ll learn about maintaining customer relations in a business environment, creating business documents and use office equipment.

We also include valuable work experience as part of your studies to ensure that you have practical experience in industry.

Following the Study Programme, you can progress onto the Level 2 Business Administration study programme or you could start out in the professional world in an entry level position in administration, retail or as a customer service assistant.

ENTRY REQUIREMENTS

4 x GCSEs at grade 4(C) or above, including Maths, English and Science
BUSINESS AND DIGITAL STUDIES
STUDY LEVEL 2

Whilst studying on the Level 2 Business and Digital Studies you can expect to learn the practical skills and the theory that you’ll need to work within a modern digital workflow office environment.

You’ll also develop employability skills to support the transition into your future employment. We work with a range of key employers in the area to give you hands-on work experience in a digital business environment.

On completion of this study programme, you can progress to the Level 3 Business and Digital Enterprise or pursue your business career.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including Maths, English and Science

BUSINESS ADMINISTRATION
STUDY LEVEL 3

If you have keen interest in business administration and are looking to develop all the core skills needed to make your career a success then the Level 3 Business Administration study programme will support you to get there. You’ll gain experience and understanding of creating complex business documents, recruitment and selection, organising business events and meetings and working in an administrative team.

You’ll even learn how to start up your own small business. Supported by tutors and employers in the local area, you’ll do relevant work experience in your field of interest.

With an entrepreneurial spirit, you can expect to find employment within a business environment or progress onto an Access course within our College for those wishing to progress into higher education.

ENTRY REQUIREMENT
4 x GCSEs at grade 4(C) or above, including Maths, English and Science
Behind every visit to a restaurant or hotel, there's a dedicated team who make the experience the best it can be. From the Chefs to the Hotel Porters, the catering and hospitality industry has a diverse range of career options in food preparation, customer care and service.

Our Catering and Hospitality programmes allow learners to train and gain valuable hands-on skills in Hull College's premier training restaurant, HU1 Riverside. You can work a lunch or dinner service, in a real working kitchen, catering for real paying customers. To ensure that you can work safely within the catering environment, you will also study food hygiene and health and safety.

Problem solving and communication skills are delivered across all of our Level 2-3 Catering and Hospitality programmes, which will help you whether you end up working in a top end luxury hotel or running a local café.
CULINARY ARTS
STUDY LEVEL 2

The course content focuses on the needs required to train and extend your knowledge to give you a sound foundation in the principles of culinary practices. You will learn how to prepare and cook meat, offal, fish sauces and pastry and much more.

The Culinary Arts course will contain two qualifications, one in Culinary skills, showcasing practical skills in the kitchen, the other will be a Food service qualification in our Training Restaurant HU1 Riverside.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification
There have been a number of investments in Hull’s Creative Quarter over the past five years. A great example is the new C4DI building (Centre for Digital Innovation) which is home to a host of creative digital businesses with huge international reach.

With a robust, local community of respected digital companies who provide established services to many of the country’s biggest names, now is the perfect time to start a career in this exciting industry.

Our study programmes will lead to well-paid employment in a number of potential careers, such as Software Developer, Web Developer, Systems Analyst, Network Administrator or IT Support Technician to name a few.

Graduates from our Computing courses go on to find work quickly in a number of industries, from healthcare to science.

Job satisfaction is also key, with people working in computing careers reporting twice as high job satisfaction than the average for other sectors.

Recent government statistics show that Yorkshire and the Humber are the UK’s leaders for innovation, and with the Humber’s digital economy having an estimated worth of £7bn, it’s not hard to see why!
LEARNER CASE STUDY

NAME?
Harrison Raw

WHAT SCHOOL HAVE YOU COME FROM?
14-16 Hull College

WHAT COURSE YOU ARE STUDYING?
Level 2 Computing

WHY DID YOU CHOOSE HULL COLLEGE?
Primarily because I was used to the environment and what things were like on campus having been at the 14-16 College. Having achieved positive grades, it made sense to continue my education at a place that I was comfortable in.

WHAT ARE YOU MOST LOOKING FORWARD TO?
After everything with lockdown, the biggest thing I’m looking forward to is simply getting back into a routine. I enjoy being here because it’s a grown-up environment to learn in, which really helps.

WHAT HAS SURPRISED YOU THE MOST?
Just how grown-up it actually is here. On top of that, the staff and teachers are ever so friendly and helpful. Everyone treats the Learners very well and with respect, which helps to create a better learning environment for Learners.

STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Games Development
BA (Hons) Business and Management (Top Up)
**COMPUTING WITH GAMES DESIGN**  
**STUDY LEVEL 1**

The Level 1 Computing with Games Design study programme gives you a basic yet comprehensive skill level that will support progression into the more technical aspects of computing. You’ll develop your knowledge of the digital sector and learn about the skills that you need to start your career.

You’ll be introduced to coding and developing basic games to support your understanding. You’ll learn about creative digital technologies and boost your software productivity skills. You’ll have work experience in the digital industry and improve your employability skills as well as your maths and English.

This study programme gives you the skills to progress onto the Level 2 Computing with Games Design study programme, preparing you to become a software developer, digital entrepreneur or IT technician.

**ENTRY REQUIREMENTS**  
4 x GCSEs at grade 4(C) or above, including Maths and English

---

**BRITISH COMPUTER SOCIETY END USER SKILLS (ECDL) (MICROSOFT OFFICE)**  
**STUDY LEVEL 2**

This qualification is designed for those who are looking to gain knowledge and skills of IT software applications to progress their careers in IT, or any work where basic IT skills are required. This qualification covers core IT applications commonly used in many organisations.

Completing this qualification will improve your understanding of IT applications and teach you how to use the software efficiently. It will also teach you how to use a computer confidently and effectively, and encourages problem-solving, creativity and communication.

Candidates will be expected to sit one module test every three weeks commencing from week three.

**ENTRY REQUIREMENTS**  
No formal qualifications are required

---

**ICT SUPPORT TECHNICIAN**  
**STUDY LEVEL 2**

The Level 2 ICT Support Technician study programme is for those learners who have an interest in computing with a focus on the technical aspects of software and hardware and an interest in providing technical support.

It is a vocational programme that provides you with the opportunity to develop your knowledge and skills in a real professional environment. You’ll attend a work placement throughout the course and will also work providing technical support to the public through the College’s on-site technical support shop, PC Planet.

You’ll be working with ICT hardware, equipment, software installation and upgrades. You’ll test systems and diagnose technical faults as well as managing software and services. This course leads onto the Level 3 ICT Support Technician study programme or you could start your career in junior role as an IT support technician, run desktop support, or become a network support technician.

**ENTRY REQUIREMENTS**  
4 x GCSEs at grade 3(D) or above, including Maths and English
ICT SUPPORT TECHNICIAN
STUDY LEVEL 3

The Level 3 ICT Support Technician study programme is for those learners who have an interest in computing with a focus on the technical aspects of software and hardware and an interest in providing technical support.

It is a vocational programme that provides you with the opportunity to develop your knowledge and skills in a real professional environment. You’ll attend a work placement throughout the course and will also work providing technical support to the public through the College’s on-site technical support shop, PC Planet.

You’ll be working with ICT hardware, equipment, software installation and upgrades. You’ll test systems and diagnose technical faults as well as managing software and services. This course leads into a Higher Apprenticeship in IT or into degree level studies. You can become an IT support technician, run desktop support, or become a network support technician.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including maths and English

ICT SYSTEMS AND PRINCIPLES
STUDY LEVEL 3

The Level 3 Diploma in ICT Systems and Principles study programme is for those learners who have a keen interest in networking theory and practical and is ideal for those looking to progress in their career or gain new ICT skills.

You’ll be working with ICT networking hardware and equipment, network operating systems, software installation and upgrades. You will also be working with network security, cabling and connection concepts, OSI, network topologies and protocols.

You will be required to install, test and diagnose network equipment and software also test, diagnose and rectify faults as well as managing network software and services.

This course leads to employment or into a Higher Apprenticeship or into degree level studies.

The careers this qualification can lead to, but not limited to, a supervisory role in ICT environments such as:
Network Administration
Network Support and Installation Engineer
IT Product Support
System Support Desk Administration

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including Maths and English

COMPUTING AND DIGITAL TECHNOLOGY
STUDY LEVEL 3

The Level 3 Computing and Digital Technologies study programme provides you with a route into the sector with a broad range of technical skills around software and digital product development, including procedural, event driven, programming, creative digital, web development, database systems design and systems analysis.

You’ll build games to improve your coding skills across platforms, develop your computational thinking and do valuable work experience in the digital industry, as well as improving wider employability skills.

The course covers a range of units such as Games Design, Project Management, and SQL and Relational Database Design, along with a number of programming languages including Python and C#.

At the end of this study programme you can go on to study at University or enter the work place as a software developer, web developer, systems analysis, network administrator, or IT support technician.

Please note that this course requires you to have grade 5 GCSEs in maths and English.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including maths and English

*Programmes are subject to change
If you’re the type of person who likes working with your hands and enjoys seeing the results of a hard day’s work, then a career in the construction industry could be for you.

The construction industry in the UK is worth around £1bn a year and the sector is always on the lookout for qualified people. There are a range of jobs available too, whether you’re interested in becoming a plasterer, a builder, a painter and decorator, or a plumber.

Our purpose built facilities offer ‘real work’ college workshops, giving learners the opportunity to gain tangible work experience, whilst still enjoying the advantages of studying in a college, surrounded by award winning tutors and peers.

Hull College learners are some of the best in the country, and one of our apprentices was recently recognised for his hard work in the WorldSkills finals, where he was awarded the title of ‘UK’s Best Bricklayer’.
LEARNER SUCCESS STORY

A bricklaying apprentice from Hull has made it to the final of Screwfix Trade Apprentice 2020.

Beth Skinner, 21, is studying towards a bricklaying qualification at Hull College.

She has been selected for her sheer passion for the trade, determination to succeed and demonstrating how she is already going above and beyond the call of duty for her college, employer and customers.

Beth, who is thrilled to have reached the final stage, said: “If I were to win Screwfix Trade Apprentice 2020, I would do everything I can to promote the bricklaying trade and the construction industry to young people. I love walking away each day knowing that I have achieved something, that I’ve laughed a lot and that I get to do it all over again tomorrow.”

The two-day event will begin with the finalists participating in a digital academy day with innovative and educational workshops from specialist media school, Global Academy.

STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Construction Management
BA (Hons) Construction Management (Top Up)
C&G DIPLOMA IN CARPENTRY AND JOINERY

STUDY LEVEL 1

The Level 1 Diploma in Carpentry and Joinery introduces you to the woodworking trade before you start work onsite, allowing you to explore the comprehensive range of skills that you’ll be using, including basic theory and practical skills, learning about hand tools, power tools, timber technology, different joints, as well as health and safety.

As part of the programme, you’ll also discover different skills that you’ll need to know to work onsite, such as team working and communication alongside improvements to your maths and English – essential for any role.

From this course, you can move into a Level 2 programme or begin an Apprenticeship in Construction trades to start working in the construction industry.

The course is based over two evenings, one evening will be practical work, in the workshop and the other classroom based.

ENTRY REQUIREMENTS
No formal qualifications are required

BENCH JOINERY

STUDY LEVEL 2

The Carpentry & Joinery Diploma offers learners the chance to learn about the construction trade in our outstanding dedicated joinery workshops, all fully equipped with the latest industry requirements and classrooms with interactive technology and supporting software.

The course covers a variety of units such as: Move and Handle Construction Resources, Setting Out, Marking Out, Construction of Components, Machine Woodwork You will also have to work towards a GCSE or a Functional Skill in maths and English.

All materials and equipment necessary to complete the course are supplied. Learners may progress onto the Level 3 professional programme, or advanced apprenticeship.

This course progresses the skills already learnt and aims to improve your chance of employability within this growing and exciting trade.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
BENCH JOINERY
STUDY LEVEL 3

Bench Joiners work primarily in the workshop and specialise in working from plans and manufacturing items from scratch with a variety of hand and power tools.

These will include items such as staircases and timber window & door frames. At Level 3, you will acquire skills that build on your experience at Level 2 and will enable you to produce much more complex work, such as building stairs with turns, as well as developing your use of heavy duty machinery.

All learners are guaranteed some on-the-job work experience, regardless of level or ability. Learners who are successful at Level 3 will be suited to either employment or Higher Apprenticeships. Those wishing to progress further may complete the Level 3 Professional Construction diploma, which can lead to an HNC or HND in Construction and the Built Environment or our BA (Hons) in Construction Management.

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification

SITE CARPENTRY
STUDY LEVEL 3

Carpenters work primarily on site fitting items built by the joiner as part of a bigger ongoing project, such as a house-build. This would include fitting floors, roofs or installing kitchens and timber stud partition walls.

At Level 3, you will acquire skills that will enable you to produce much more complex work, such as building dormer roofs and traditional roofing, you will also develop theoretical knowledge of construction management which would prepare you for jobs in site control or project management.

All learners are guaranteed some on-the-job work experience, regardless of level or ability. Learners who are successful at Level 3 will be suited to either employment or Higher Apprenticeships. Those wishing to progress further may complete the Level 3 Professional Construction diploma, which can lead to an HNC or HND in Construction and the Built Environment or our BA (Hons) in Construction Management.

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification

SITE CARPENTRY & JOINERY
STUDY LEVEL 2

The Level 2 Carpentry and Joinery Study Programme is an intermediate course for those looking at becoming woodworkers and can be completed successfully in the College environment without the need for work-based evidence.

You'll learn the theory and hands-on practical skills in roofing, stairs, doors, frames, windows, health and safety. With our Employability Skills Passport, you'll also cover skills that employers demand; learning to work safely and as a team.

The programme is validated by NOCN and the CITB, and follows national standards. You can continue onto an advanced apprenticeship or find employment within the construction sector as a junior, or onto a professional construction course.

ENTRY REQUIREMENTS
Maths and English at 1 (G) or above
CONSTRUCTION OPERATION (GROUNDWORKS) LEVEL 2

The Carpentry & Joinery Diploma offers students the chance to learn about the construction trade in our outstanding dedicated joinery workshops, all fully equipped with the latest industry requirements and classrooms with interactive technology and supporting software. The course covers a variety of units such as: Move and Handle Construction Resources, Setting Out, Marking Out, Construction of Components, Machine Woodwork. You will also have to work towards a GCSE or a Functional Skill in Maths and English.

All materials and equipment necessary to complete the course are supplied. Students may progress onto the level 3 professional programme, or advanced apprenticeship. This course progresses the skills already learnt and aims to improve your chance of employability within this growing and exciting trade.

ENTRY REQUIREMENT
Maths and English at 1 (G) or above
In addition: personal protective equipment (boots and overalls) stationary
BRICKWORK
STUDY LEVEL 1

With the government’s initiatives for house building, there is a lot of work available for qualified bricklayers.

The Level 1 Brickwork study programme teaches you the basic skills that you need to become a fully qualified bricklayer, giving you experience and developing your skills in cavity wall construction, solid wall construction and working platforms.

In addition, you can gain real hands-on work experience as part of local innovative community projects to restore derelict homes. The course supports you in your learning with additional employability skills and extra help with your maths and English. You can progress from this course into a role as an entry level bricklayer or construction site work. You can also progress onto the next level of study. There are also Apprenticeships available and Level 2 programmes for those that want to further develop their skills.

ENTRY REQUIREMENTS
No formal qualifications are required

BRICKWORK
STUDY LEVEL 2

You’ll learn how to construct chimneys, fireplaces and arches, as well as what you need to know to repair and maintain brickwork.

With additional learning including the Employability Skills Passport, developed in conjunction with local employers, you’ll be well prepared to enter the construction industry on completion of this course.

With work experience and the chance to take part in community building projects, you can make sure that your CV stands out with Hull College’s Brickwork study programme. Progression from this course can include working on site as a bricklayer or site worker. There is also the opportunity to advance onto the Level 3 professional programme or advanced apprenticeship.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
PLASTERING
STUDY LEVEL 1

Construction is an ever-growing industry, both for new builds and for people who want to do up their homes. Hull College’s Level 1 Plastering study programme is a key entry point for those with a strong interest in practical skills for the construction industry.

You’ll learn the art of applying plaster materials, producing fibrous plaster and how to form sand and cement screeds. With work experience part of the course, you can expect to build up your CV with the Employability Skills Passport, developed in partnership with local employers to ensure that the course is built around industry expectations.

This course can lead to a career in the construction industry as a site worker. You can also continue your studies onto the Level 2 Plastering study programme or an Apprenticeship in construction trades.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above

PLASTERING
STUDY LEVEL 2

Plastering is a key trade in the construction industry with work always available for skilled and qualified workers.

The Level 2 Plastering study programme builds on your skills from the Level 1 Programme, covering how to apply plaster materials to internal surfaces, how to apply render materials to external surfaces and how to fix dry lining and plasterboard.

Working in the construction industry as part of the course, you can take part in an exciting project working directly in the community rebuilding derelict houses, as well as building your employability skills with our Employability Skills Passport.

From this course, you can expect to progress into a paid Apprenticeship or Level 3 advanced course, or start your career in the construction industry as a site worker.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above

DRY LINING (PLASTERING)
STUDY LEVEL 2

Plastering is a key trade in the construction industry with work always available for skilled and qualified workers. The Level 2 Plastering Study Programme builds on your skills from the Level 1 Programme, covering how to apply plaster materials to internal surfaces, how to apply render materials to external surfaces and how to fix dry lining and plasterboard. Working in the construction industry as part of the course, you can take part in an exciting project working directly in the community rebuilding derelict houses, as well as building your employability skills with our Employability Skills Passport.

From this course, you can expect to progress into a paid Apprenticeship or Level 3 advanced course, or start your career in the construction industry as a site worker.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above

PLUMBING
STUDY LEVEL 1

If you have an interest in the construction industry and are thinking about becoming a plumber, the Level 1 Introduction to Building Service Engineering in the Plumbing Sector study programme is a great taster course, teaching you basic skills including plumbing science and electrical installation, as well as health and safety, environmental protection, sustainable technologies and a broad introduction to building services engineering.

You’ll also be able to develop your maths and English, alongside working on your Employability Skills Passport developed with local employers, ensuring that you are prepared to move into work.

This Programme teaches you the basic skills you need to become an entry level plumber working with water systems or a construction site work. You can also progress onto the Level 2 Plumbing study programme or an Apprenticeship.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
PLUMBING
STUDY LEVEL 2

Working as a plumber for a firm or starting up your own plumbing business is a great way to earn money, with good plumbers in high demand across the UK.

The Level 2 Plumbing study programme teaches you the plumbing skills used in the industry, including installing copper, low carbon steel and plastic plumbing pipework systems, health and safety, environmental technologies, cold and hot water, central heating, sanitation systems, rainwater systems and plumbing science.

Work experience in the plumbing industry ensures that you get the hands-on skills that you need to know when becoming a professional plumber.

The construction industry is thriving with growing opportunities to work in a variety of settings. On completion of this course you can expect to gain an Apprenticeship or start work as an entry level plumber for a firm.

ENTRY REQUIREMENTS
Maths and English at 4(C) or above

PLUMBING
STUDY LEVEL 3

This study programme is designed for learners aiming to develop advanced skills in plumbing and heating techniques.

The programme covers installation of plumbing and heating systems in simulated environments as well as the electrical circuits required to make them work.

You will also develop knowledge of fault finding - a key skill required in the industry.

The Employability Skills Passport will also help you develop the work-ready skills you need to succeed, as well as developing your maths and English.

You will need to have completed a Level 2 in plumbing to progress onto this course. Where successful completion could allow you to progress onto an apprenticeship and if gained through a Gas Safe employer, allows you to fast track to the second year of a Level 3 framework.

ENTRY REQUIREMENTS
Maths and English at 4(C) or above

INSTALLING, SERVICE & MAINTAINING ENVIRONMENTAL TECHNOLOGY SYSTEMS (PLUMBING)
STUDY LEVEL 3

This Study Programme is designed for students aiming to develop advanced skills in plumbing and heating techniques.

The programme covers installation of plumbing and heating systems in simulated environments as well as the electrical circuits required to make them work.

You will also develop knowledge of fault finding - a key skill required in the industry.

You will need to have completed a level 2 in plumbing to progress onto this course. Where successful completion could allow you to progress onto an apprenticeship and if gained through a Gas Safe employer, allows you to fast track to the second year of a Level 3 framework.

ENTRY REQUIREMENT
Maths and English at 4(C) or above
PAINTING & DECORATING
STUDY LEVEL 1

The Level 1 Painting and Decorating study programme teaches you about paint application techniques, both by brush and roller to get a perfect finish, as well as understanding working platforms and working at height.

With work experience gained on the course, you can learn how to paint and decorate in a professional environment as part of our involvement with local community projects restoring derelict homes. You’ll also get the chance to improve your maths and English and build up your employability skills.

Following on from the study programme, you can progress to improve your painting skills onto the Level 2 programme or start work on site as an entry level painter.

ENTRY REQUIREMENTS
No formal qualifications are required

PAINTING & DECORATING
STUDY LEVEL 2

Progressing from the Level 1 Painting and Decorating study programme, this Level 2 course teaches you further painting skills including how to apply water-borne paint, wallpapering basics for both walls and ceilings and how to apply paint systems by roller.

You’ll gain valuable experience both in the classroom and as part of our work experience programme including working to restore derelict homes in the community. You’ll also get to take part in developing employability skills in partnership with local businesses – ensuring that you have the relevant skills you need to enter the world of work.

Following on from this course, you can begin an Apprenticeship in the construction industry. You can also progress straight into work as a painter or construction site worker. Progression into a Level 3 professional course is also available.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
LEARNER CASE STUDY

NAME?
Sean Boodie

WHAT SCHOOL HAVE YOU COME FROM?
St Mary’s College but I was at Hull College last year.

WHAT COURSE ARE YOU STUDYING?
Level 1 Painting and Decorating

WHY DID YOU CHOOSE HULL COLLEGE?
I came to the College back in 2008 to study Music and really enjoyed the experience of studying here. On top of that, it’s local to my area.

"THE SPIRIT WE HAVE AMONGST OUR GROUP IS GREAT. EVERYONE BOUNCES OFF EACH OTHER AND IT’S LIKE WE’VE ALL KNOWN EACH OTHER FOR AGES, WHICH REALLY ENHANCES THE OVERALL EXPERIENCE. EVERYONE HAS GOT STUCK IN FROM THE OFF AND EVERYONE IS ALSO PREPARED TO HELP EACH OTHER OUT AS WELL, WHICH MAKES THINGS SO MUCH EASIER. WE’RE VERY MUCH WORKING TOGETHER AS A TEAM.

WE’VE GOT STUCK IN QUITE QUICKLY. I THOUGHT THERE WOULD BE MUCH MORE THEORY STUFF TO START WITH TO BE HONEST BUT IT’S BEEN HANDS-ON FROM THE OFF, WHICH IS GREAT. IT’S GREAT TO BE LEARNING NEW SKILLS ON DAILY BASIS. THE FACILITIES AND EVERYTHING WE HAVE AVAILABLE TO US ARE FANTASTIC. WE HAVE EVERYTHING WE NEED TO LEARN THE SKILLS WE ACTUALLY CAME HERE TO GET. I WOULD LOVE TO GO ON AND GET MY LEVEL 2 AFTER COMPLETING THIS COURSE. THEN, LONG-TERM, THE AIM IS TO GET AN APPRENTICESHIP SOMEWHERE OR MAYBE WORK FOR MYSELF."

www.hull-college.ac.uk
Programmes are subject to change
**ELECTROTECHNICAL STUDY LEVEL 1**

The Level 1 Diploma in Electrical Installation gives each learner an exciting starting point for a career in the Electrical industry.

Working with us you will develop your knowledge and skills of Electrical installation, working to precise industry standards whilst stretching and challenging you to meet the highest of standards as required by the industry and awarding body.

You will be assessed by a variety of practical and theoretical examinations.

This qualification will challenge you and prepare you for a career as an Electrician whilst improving your essential skills of maths and English.

**ENTRY REQUIREMENTS**
Maths and English at 1(G) or above

**ELECTROTECHNICAL STUDY LEVEL 2**

Work as an electrician is a highly-sought after role for people in the construction industry. The Level 2 Electrical Installation study programme gives you the tools and skills that you need to undertake practical installation tasks to BS 7671, including learning about domestic circuit installation and working to British standards.

Studying the scientific principles to understand the impact of installations, you’ll be well prepared to work on site following this comprehensive programme.

Working both in the College environment and learning with work experience in our hands-on practical module, you can also build up your maths and English skills as well as employability skills.

This programme more than prepares you for an advanced Electrical Apprenticeship.

**ENTRY REQUIREMENTS**
Maths and English at 4(C) or above

**ELECTROTECHNICAL STUDY LEVEL 3**

The course is designed for learners aiming to become electricians who are not currently employed in the electrical installation industry.

You will study and be assessed on a range of theoretical and practical subjects to gain a recognised industry qualification. Learners also benefit from employment opportunities and work experience arising from close links maintained with local employers.

Must have already completed a Level 2 Electrical qualification. Once employed, learners must complete the City and Guilds Level 3 NVQ Diploma (2357) to become fully recognised tradesmen within the electrical installation industry.

**ENTRY REQUIREMENTS**
Completion of Level 2 Subject Specialist Qualification
LEARNER CASE STUDY

NAME?
Chelsea Lloyd

WHAT COURSE YOU ARE STUDYING?
Level 1 Electrotechnical

WHY DID YOU CHOOSE HULL COLLEGE?
It was the closest option to me, so it made sense from that point of view. Also, both of my sisters also studied here and had a really good experience, which was a key factor in my decision to continue my education at Hull College.

"I was so surprised that I wasn’t the only girl on the course! It’s an exciting course though and the college has a good learning culture. Also, the tutors and staff are so helpful and friendly. I’ve been made to feel at ease straightaway. It’s such a relaxed and comfortable environment to learn in."
“BOTH OF MY SISTERS STUDIED HERE AND HAD A REALLY GOOD LEARNING EXPERIENCE, WHICH WAS A KEY FACTOR IN MY DECISION TO CONTINUE MY EDUCATION AT HULL COLLEGE.”

Chelsea - Level 1 Electrotechnical
Working in creative and digital media is an exciting and vibrant career choice, with a range of roles in everything from web design through to content writing.

In the digital age, our entire lives are online. There’s a growing need for people who have the relevant skills to produce content to inform and entertain the public in the digital marketplace.

Your journey into a digital media career will start in Hull College’s Horncastle Building. Here you will find a fully equipped newsroom, along with TV and radio studios, making it the perfect environment for our learners to immerse themselves in everything this creative industry has to offer.

Our study programmes are designed to prepare you for your future digital role with all the relevant hands-on experience.

Whether you’re an aspiring TV Producer, Games Designer or Animator, the full range of Level 1-3 Creative and Digital media courses we offer means there’s something for everyone.
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Live Events Production
FD Creative Music Production
FD Games Design
FD Film Making
DIGITAL MEDIA PRODUCTION
STUDY LEVEL 2

Throughout the eight units of the academic year there are four projects in which learners will be gaining many different media production skills through to their final major project. Unit eight is more self-initiated than the preceding units and it is pitched to the high end of level two, in order for learners to be able to grow through the year and achieve their target grades and above.

This unit combines much of the skills that they have learned, enabling learners to showcase these developing skillsets through a creative media production that they have individually proposed, then designed and delivered as a cohesive team.

In conjunction with the weekly VLE online learning and tutorials, the pre-production, production and post production practices, team building, work experience settings, input from higher education guest lecturers, NCOP, apprenticeship and industry practitioners; this course is designed to equip learners with a well-rounded knowledge and a wide variety of multimedia skills.

The course starts with the basics, gradually disseminating learners with an array of knowledge, practical and technical accomplishment.

In conclusion, the Level 2 Digital Media Production course intends to equip participants with the skills of a media producer and an industry and professional awareness coupled with a development of their academic, personal proficiency and confidence.

Successful learners will possess the potential to progress on to entry-level employment, an apprenticeship or Level 3 study, hopefully with the intent of progression to the Level 3 Digital Media Production course.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification

DIGITAL MEDIA PRODUCTION
STUDY LEVEL 3

Throughout the two years of study you will be working on a series of creative projects where you will be able to fully explore and experiment with your creative ideas and aspirations. At the same time, you will be developing your personal and professional skills, preparing you for employment within the media industry and/or progression onto university for further study and training.

This course will boost your creativity to the next level and it will enable you to be the best you can be, tapping into your strengths. This course will also give you the opportunity to build on your own personal skills and on your confidence in terms of belief in yourself, in your abilities and in the work you do.

You will be learning new things whilst working within an active social environment, where you meet and work with new people. There is an excellent support system based on a true spirit of collaboration and support of each other.

You will be based at The Horncastle Building, at the city centre campus of Hull College. The building has custom made, state of the art digital media studios and facilities, such as:

- Radio and Sound Recording Studio, TV Studio, Video and Audio editing post-production suites, Streaming facilities, Foley Studio, Location equipment for digital video production and capturing, Location equipment for digital audio production and capturing, Tapping into a range of apps, software and smart mobile technologies.

You will have access to highly trained, inspirational and experienced staff who will be with you along the way, making sure that you are supported and guided throughout your development and learning. Your tutors will be encouraging you to do your best, shine and be successful. You will also have access to highly experienced staff, specialising in Special Educational Needs support if you require it. There is a good balance between production and theory within a variety of projects and creative
activities. There are a variety of creative digital production skills and explorations, whilst learning professional practices, personal development and industry standards.

You will be working in a creative driven learning environment, with hands-on approach to all equipment and technologies available. You will always be working on projects and live briefs, where you will be encouraged and supported to experiment with your creative skills, learning from your own mistakes and experiences.

This two-year course is structured in such a way that it introduces you to, knowledge, principles and applications of a wide range of digital production techniques, technologies and concepts. Then you gradually develop your understanding and skills further with experimentation in video, audio and interactive digital productions.

At the end, you have the opportunity to work on your Final Creative Media Project. This is where you have complete control and choice of what project you wish to work on, tapping into your strengths and focusing on areas that you wish to develop even further.

**ENTRY REQUIREMENTS**
4 x GCSEs at grade 4(C) or above, including maths and English
Engineering is one of the most in-demand growing sectors of industry. Choosing a career in Engineering will provide you with excellent pay, variety in your work and high levels of job satisfaction.

The Engineering world is vast and there are a number of different specialisms you can branch out into, from electrical and mechanical through to civil and environmental.

Whichever branch you choose, building a strong foundation of knowledge with an Engineering study programme at Hull College can set you on your journey to success. You will be taught essential skills and knowledge as well as the practical hands-on experience that is at the heart of all our courses.

Studying Engineering is the first step on your road to becoming a fully Chartered Engineer, and what better place to do it than in our state-of-the-art workshops, purpose built for fabrication, welding, electrical and mechanical engineering.

We work with a close group of local, regional and national employers, including Siemens, to ensure our learners are gaining as many employability skills as possible, making you job ready after graduation.

Hull College’s focus for equipping learners with employability skills was recognised by Hull Daily Mail, where we won the ‘Excellence in Renewable Skills and Training’ award.

Our Faculty of Business and Science also offers HNC/D and Degree Programmes in Engineering and progression is encouraged throughout learners’ time with us.
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

HND Diploma in General Engineering
FD Engineering
HND Diploma in Construction and the Built Environment
ENGINEERING
STUDY LEVEL 1

This BTEC Diploma is for those who are just starting out in Engineering and want to learn a broad range of knowledge and skills to prepare them for an exciting career in the Engineering sector.

This qualification is an excellent starting point for learners who want to progress in Engineering but need to develop their maths and English skills first before progressing onto a higher level of Engineering.

You will cover:
- Working safely in an engineering environment,
- Communication in the Engineering world,
- Pipe fitting, Hand fitting and turning techniques,
- Using and communicating technical information,
- Carrying out engineering activities.

This qualification will stretch and challenge you to work to industry standards whilst learning in a safe and friendly learning environment.

ENTRY REQUIREMENTS
Maths and English at 1 (G) or above

DIPLOMA IN ENGINEERING
STUDY LEVEL 2

If you want a career change or you have a genuine interest in Engineering and can’t attend during the day this part time level 2 Diploma in Engineering could be for you.

It will stretch and challenge your mathematical abilities in a series of practical and theory based assessments to produce industry related products to national industry tolerances and benchmarks.

You will develop your knowledge and skills throughout your course and receive the full support of our vastly experienced team of lecturers who all share the same passion for Engineering.

ENTRY REQUIREMENTS
No formal qualifications are required
If you are looking for a career in engineering the Level 3 Engineering Study Programme gives you a solid foundation on which to start your journey.

Covering practical and theoretical concepts to begin a career as an engineer. This programme is a general engineering programme with a focus on mechanical, electrical and electronic engineering to give you a clear understanding of the engineering industry.

You will study machining techniques, design and draughting, engineering science and maths.

Alongside the programme you will gain valuable work experience in the engineering industry and boost your employability skills for the sector.

On completion of the course you will gain the equivalent of three A-levels and the UCAS points to move into higher education.

From here you can go on to study HNC/D Engineering, FdSc Engineering Technology, or a BEng (Hons) Engineering Technology, to become an engineering technician, maintenance technician, design draughtsperson, or project engineer.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4 (C) or above, including maths, English and science
Do you want a career in an exciting and ever changing industry? Then join us at Salon QG, in partnership with Lee Stafford Education, and learn from the best to be the best.

Offering a great choice of Hairdressing Study Programmes for a range of different learners, ensures everyone can take their first steps to a creative career.

Hull College's partnership with Lee Stafford Education has created an academy of learning to ensure our hairdressing learners become the most employable in the region, benefiting from the mentorship and shared passion of a highly successful stylist.

Not only does the academy offer excellent training, our learners are supported with both a full suite of teaching (recipe) books and videos covering the Level 2 and Level 3 curriculum as well as continuous support from a dedicated team of staff throughout the year.

Level 2 Diploma in Hairdressing

WHY DID YOU CHOOSE HULL COLLEGE?
I originally studied at Wilberforce but I didn’t like the way they did that course, so I enrolled at Hull College last year. Everything was great and I liked the course, which made we want to stay and progress through the different levels. I felt at home straight away here and still do!

"It’s a great course and I’ve learnt so many new skills. My experience has been fantastic and I really do feel at home here. The tutors are so supportive and helpful. The facilities and equipment available on the course are first class as well, although that doesn’t come as a surprise whatsoever. Everything has been as expected and I couldn’t be happier!"
INTRODUCTION TO HAIR
STUDY LEVEL 1

During this course you will achieve a level one certificate in hairdressing, but you will be practicing the skills and learning the knowledge to enable you to progress onto one of the Level 2 hairdressing qualifications that we offer at Salon QG.

The skills you will cover are personal and employability skills, as well as the technical skills to enable you to offer services within one of our fantastic salons at the college.

ENTRY REQUIREMENTS
Maths and English at 1 (G) or above

CERTIFICATE IN HAIRDRESSING
STUDY LEVEL 2

If you’re looking to start your career as a hairdresser, this course teaches you the hands-on practical skills alongside the theory that you need to know to do just that.

You will be learning your craft from Lee Stafford trained educators in this fast moving and exciting industry. By following the Lee Stafford recipes, you will develop a varied range of technical hairdressing skills, such as styling, cutting and colouring techniques that will make you stand out from the crowd.

In addition to this, you will have master classes delivered by Lee himself and a variety of local employers. Compete within in-house competitions to showcase the recipes you learn, and the best of the best will be entered nationally to compete at the L’Oréal Academy London.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3 (D) or above, or Level 1 Subject Qualification

DIPLOMA IN HAIRDRESSING @ QG - (19+)
STUDY LEVEL 2

The course duration is one academic year with weekly attendance following a specified timetable.

Working in partnership with Lee Stafford Education, candidates will be able to experience and develop a wide range of technical skills. This practically based qualification is ideal preparation for training on the job or specialist further study.

The Core Qualification includes 11 units and is delivered through continual assessment of practical competence and Evolve Online testing of underpinning knowledge.

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification

DIPLOMA IN HAIRDRESSING @ FREEDOMCENTRE (19+ ONLY)
STUDY LEVEL 2

This qualification covers a very wide range of areas related to the skills and knowledge required for preparing to work in the hairdressing or barbering industry.

The course duration is one academic year with weekly attendance following a 13-hour timetable.

Working in partnership with Lee Stafford Education, candidates will be able to experience and develop a wide range of technical skills. This practically based qualification is ideal preparation for training on the job or specialist further study.

The qualification includes ten units and is delivered through continual assessment of practical competence and Evolve Online testing of underpinning knowledge.

ENTRY REQUIREMENTS
No formal qualifications are required
HAIR & MEDIA - CREATIVE HAIR AND BEAUTY STUDIES

STUDY LEVEL 2

This Level 2 Certificate in Creative Hair and Beauty Studies aims to provide you with a range of essential technical and practical skills and knowledge, which will equip you to seek employment or further training within the hair and beauty industry.

These skills include carrying out services such as applying make-up and hairdressing techniques.

Following successful completion of this qualification you will be qualified to work in a number of employment destinations such as; photographic studios, department stores, make-up stores or salons.

You will be equipped to work as a freelance make up artist or progress onto the Level 3 Theatrical, Special Effects & Media Make-Up Artistry.

ENTRY REQUIREMENTS

4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification

CERTIFICATE IN BARBERING

STUDY LEVEL 2

This course will provide you with the all of the skills that you need for a successful barbering career, ‘from the door to the chair, to the cash register, to the door’. End to end customer service. The course will include the following units:
- Skin and hair structure
- Tools, products and equipment used
- Consultation process
- Shampooing and conditioning
- Cutting men’s hair
- Cutting men’s facial hair
- Drying and finishing men’s hair

If you are interested in the barbering profession, then this is the course for you. ESOL students will require level 1 speaking and writing prior to starting the course

ENTRY REQUIREMENT

No formal qualifications are required
In addition: Esol Level 1 speaking and writing prior to application

CERTIFICATE IN BARBERING

STUDY LEVEL 3

This course will provide you with the all of the skills that you need for a successful barbering career, ‘from the door to the chair, to the cash register, to the door’. End to end customer service. The course will include the following units:
- Skin and hair structure
- Tools, products and equipment used

STUDY LEVEL 3

You will be fine tuning your craft with the guidance and support from Lee Stafford trained educators in this fast moving and exciting industry. By following the Lee Stafford recipes you will develop an advanced range of technical hairdressing skills, such as advanced styling, cutting and colouring techniques that will make you stand out from the crowd.

In addition to this you will have master classes delivered by Lee himself and a variety of local employers.

Compete in in-house competitions to showcase the recipes you learn and the best of the best will compete nationally at the Loreal Academy London.

ENTRY REQUIREMENTS

Completion of Level 2 Subject Specialist Qualification

ENTRY REQUIREMENTS

Completion of Level 2 Subject Specialist Qualification
LEARNERS’ SUCCESS STORY

Two hair and beauty learners’ have been putting their skills to good use, dedicating their time on a voluntary basis with the Hull Homeless Outreach team.

Rebecca and Lisa cut the hair of those who have found themselves homeless. Every other Wednesday evening, they attend St Mary’s church on Lowgate to help spruce up the hair of those less fortunate, giving them a well-deserved confidence boost and improving their job prospects.

The pair have been volunteering at the church for over a year. It first started when Rebecca messaged the Outreach team through Facebook, asking if she could offer haircutting services in return for developing her skills and confidence.

Rebecca said “Gaining industry experience can sometimes be difficult. Being involved with the Outreach team is a completely different working environment.”

As months passed, Rebecca got increasingly busy and decided it was time to get her good friend Lisa involved in the project.

In the two hours they spend at the church every other Wednesday, they can do around 7 haircuts each, which is well above the industry average!

They have created a salon area in the church and use industry standard equipment on the clients, so they are getting an experience as close as possible to that of a real salon.

Since there is no running water supply or hair basins, Rebecca and Lisa use creative and resourceful ways to produce professional results. This can include using dry shampoo or straightening hair before cutting it.

When asked why they are still involved in the project a year later, Lisa said “I genuinely love it! It's so rewarding, and the clients appreciate what you do for them.”

Rebecca added “This is our chance to give back to the community. It can be challenging at times, but it’s very rewarding.”
Lee Stafford is well known for his appearances on shows such as This Morning, and for his successful product range. But his presence is also now a permanent feature in Hull College.

Having presented at colleges over many years, Lee had a personal vision to create the best training opportunities in the world for would-be hairdressers, and Hull College are proud to work alongside Lee with the creation of the Lee Stafford Academy.

This partnership ensures our Hairdressing Learners become the most employable in the region by benefiting from the mentorship and shared passion of a highly successful stylist.

The Academy offers excellent training, and Learners are supported with recipe books and videos covering the Level 2 and Level 3 curriculums, as well as continuous support from a dedicated team of staff throughout the year.

You can learn 24 different cutting, styling and colouring recipes that have been developed by Lee Stafford himself.
If helping people is something that you’re passionate about, a career in Health and Social Care could be the right path for you.

There are a number of roles available in this sector, from Early Year’s Childcare right through to Counselling. You may even choose to explore caring for people with physical and mental health problems, which can be a highly engaging and rewarding job.

Our Health and Social Care Study Programmes help you to build up relationships with those you are caring for, learning the practical skills that you’ll need to provide the best possible service to those in your care.

Hull College’s links with local organisations provides learners with work placements and experience, and many local employers are always looking for qualified team members.

Key employers in the local area include Hull City Council, Spire Healthcare and St Clare House.
LEARNER CASE STUDY

NAME?
Amie Wilson

WHAT COURSE YOU ARE STUDYING?
Level 3 Early Years (Year 2)

WHY DID YOU CHOOSE HULL COLLEGE?
I went to look at all the local colleges and Hull College was the one that stood out the most to me.

“IT’S BEEN GREAT GETTING BACK INTO LIFE AS A LEARNER AGAIN AND CONTINUING MY LEARNING. I’M SURE EVERYONE SAYS THE SAME THING, BUT I CAN’T PRAISE THE TEACHERS AND SUPPORT STAFF AT THE COLLEGE ENOUGH. THEY TREAT YOU WITH SO MUCH RESPECT AND SPEAK TO YOU LIKE YOU’RE AN ADULT RATHER THAN A CHILD, WHICH IS SOMETIMES WHAT IT WAS LIKE BACK AT SCHOOL.”

STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FD Health and Social Care
BA (Hons) Health and Social Care (Top Up)
FD Young Children’s Learning and Development
FD Health and Social Care
HEALTH AND SOCIAL CARE
STUDY LEVEL 1

The Health and Social Care, Childrens and Young People’s Settings industries are vast, with a range of positions and roles to suit everyone. The Level 1 Health & Social Care, Children and Young People’s Settings study programme offers you the chance to develop your knowledge and awareness of the types of provision in the various sectors. You will study a mix of units relating to caring for people of all ages.

You’ll learn about protection and safeguarding and the principles and values of the sector, with vital hands-on work experience to put your knowledge and employability skills to good use.

This study programme supports you onto further progression into studying at Level 2 in Health and Social Care or Early Years Education and Childcare.

ENTRY REQUIREMENTS
4 x GCSEs at grade 2(E) or above, including English

HEALTH AND SOCIAL CARE
STUDY LEVEL 2

The Level 2 Health and Social Care study programme is a vocational qualification, developing knowledge and understanding by applying learning and skills in practical and workplace settings. The course will develop your knowledge of the theories behind the care practice such as human growth and development, safeguarding and protection, mental health and well-being. There is a substantial work placement within a health and social care setting to support learning.

You’ll also study a range of employability skills alongside your Study Programme to ensure that you’re ready for the world of work.

This qualification provides progression to the Level 3 Diploma in Health and Social Care.

Alternatively, Learners may wish to enter the workforce in a wide range of roles available within the sector including as an adult residential support worker or a healthcare assistant in community, primary care or acute health environments.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification
HEALTH AND SOCIAL CARE
STUDY LEVEL 3

The Level 3 programme gives you the opportunity to experience many aspects of the industry through a mixture of theory and practice, equipping yourself with the essential knowledge and skills required to progress to higher education in a related field of study.

You’ll do a substantial work placement, in a range of settings and will develop specialist skills and knowledge, covering infection prevention and anatomy, as well as physiological, sociological and psychological health care perspectives and working practices.

The Level 3 programme in Health and Social Care has been designed to enable learners to access Higher Education or assist with progression into the workplace, to various support roles in areas such as residential care homes, nursing homes, day centres, children’s centres, health centres, supported or sheltered accommodation, domiciliary or community care and respite care.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4 (C) or above, including Maths and English

EARLY YEARS
STUDY LEVELS FOUNDATION 1 | 2 | 3

Working with children can be a rewarding and engaging career path and our Entry Level to Level 3 Study Programmes get to the heart of developing your understanding of how to care for young children.

The Entry Level Programme is an ideal place for anyone with no formal qualifications to start. Learners will learn skills like caring for a child and developing fun activities, as well as developing their own personal, social and emotional skills.

Moving onto Levels 1 and 2, you’ll look in depth at examining child development, communication and creativity, learning about growth and progression, communication skills and what it’s like to work in a real nursery setting.

Our Level 3 Childcare and Education Study Programme gives you UCAS points for progression to Higher Education in Young Children’s Learning and Development. You can also work as a professional Early Years Educator at Level 3 once you’ve finished this Study Programme.

ENTRY REQUIREMENTS

Foundation: No formal qualifications are required

Level 1: 4 x GCSEs at grade 2 (E) or above, including maths and English. In addition: Satisfactory Enhanced Disclosure Barring Service (DBS) check.

Level 2: 4 x GCSEs at grade 3 (D) or above, including maths and English. In addition: Satisfactory Enhanced Disclosure Barring Service (DBS) check.

Level 3: 4 x GCSEs at grade 4 (C) or above, including maths and English. In addition: Satisfactory Enhanced Disclosure Barring Service (DBS) check.
COUNSELLING
STUDY LEVEL 1

This is an ideal qualification for those who wish to develop skills and knowledge in the practice of Counselling and embark on a career in the field.

The course is designed to provide learners with initial skills in counselling and communication and will enable learners to evaluate and develop their own work and practice.

ENTRY REQUIREMENTS
No formal qualifications are required
With over 31 million cars on the road in the UK, the motor trade is always on the lookout for talented, qualified workers who can service, fault-find and repair vehicles.

Whether you’re interested in working on motorbikes, scooters, small cars or vans or if you want to work with larger vehicles such as trucks, coaches or military vehicles, Hull College is sure to have a Study Programme for you.

Our comprehensive range of courses will teach you all the practical skills and knowledge that you’ll need to progress into a fulfilling career as a mechanic, service technician and beyond!

Learners study in our specialist facilities at the Cannon Street site, which includes vehicle body repair shop, spray shop, fabrication and welding workshops.
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further.
DRIVE YOUR CAREER
**ABC AWARD IN MOT TESTING (CLASSES 4 AND 7)**

**STUDY LEVEL 0**

You will be taught the required elements to become a Class 4/7 MOT tester.

**ENTRY REQUIREMENTS**

Learners require a Level 3 Technician or equivalent industrial experience.

---

**MOT TESTER CPD**

**STUDY LEVEL 0**

This is a required activity to maintain the MOT Testers certificate.

**ENTRY REQUIREMENTS**

Learners require to be an MOT tester.

---

**AUTOMOTIVE MAINTENANCE OPERATIONS**

**STUDY LEVEL 1**

You will learn about engine systems, brake, steering, electrical and suspension systems, component fitting and inspecting cars. This course will prepare you for Level 2 having completed over 20 practical tasks demonstrating your competence to repair cars.

You will learn a variety of new skills to industry standards including drilling, tapping, rethreading, cutting and filing. You will visit the industry to see how your new skills will be utilized within a functional garage.

This qualification will stretch and challenge you to produce a high standard of work to industry standards whilst learning in a safe and friendly learning environment.

**ENTRY REQUIREMENTS**

Maths and English at 1(G) or above

---

**MOTORCYCLE**

**STUDY LEVEL 1**

If you are interested in Motorcycles and want to know how they work and how to maintain them then this qualification is for you.

You will learn the necessary skills to repair and maintain motorcycles whilst learning the basic principles of automotive engineering. Delivered as a mix of Theory and Practical sessions this will pique your interest and stretch your knowledge and skills within a safe and friendly learning environment.

**ENTRY REQUIREMENTS**

Maths and English at 1(G) or above

---

**MOTORCYCLE MAINTENANCE**

**STUDY LEVEL 2**

To become a motorcycle mechanic, you need to have a thorough understanding of all of the components of motorcycle repairs.

You also need to know about the motor industry, the roles that people have there, and the rules that govern it.

The Level 2 Diploma in Motorcycle Maintenance and Repair Study Programme covers routine motorcycle repairs, engine systems and components, how to remove electrical units, chassis and more.

With additional innovative projects teaching you wider skills to succeed in the world of work as well as maths and English, you'll be ready to progress with a broad practical knowledge of the motor trade. This study programme gives you the knowledge that you need to become a motorcycle service technician.

You will visit industry as part of the course to see how your skills can be used.

**ENTRY REQUIREMENTS**

4 x GCSEs at grade 3(D) or above, including maths and English

---

*Programmes are subject to change*
VEHICLE MAINTENANCE FOUNDATION
STUDY LEVEL 0
You will learn about engine components, brake systems, component fitting and general body repair. This course will allow you to experience 3 different areas of the motor trade and choose the right path for you at the next level. You will go out and visit industry during the course to help you make that important decision.

ENTRY REQUIREMENT
No formal qualifications are required

VEHICLE ACCIDENT REPAIR
STUDY LEVEL 1
Within this Level 1 qualification you will learn how to prepare and paint a variety of surfaces to industry standards.

You will learn how to prepare and apply fillers to carry out repairs to a variety of surfaces. You will be assessed by a mix of practical tasks and online theory examinations.

This qualification will stretch and challenge you to produce a high standard of work and reach your potential.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
**DIPLOMA LIGHT VEHICLE MAINTENANCE AND REPAIR**  
**STUDY LEVEL 2**

This qualification is for learners wanting to develop some of the key skills and understanding of motor vehicle systems.

This significant and robust qualification will give learners the basic skills needed to apply for an automotive apprenticeship or similar engineering pathway. It permits learners to learn, develop and practise the skills required for employment and/or career progression in the automotive industry.

These qualifications were developed in collaboration with the Institute of the Motor Industry (IMI), the sector skills council for the automotive retail industry and other awarding organisations and therefore are fully supported by the industry.

**ENTRY REQUIREMENTS**

4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification

*Programmes are subject to change

---

**VEHICLE ACCIDENT REPAIR PAINT PRINCIPLES**  
**STUDY LEVEL 2**

This practically based qualification allows learners to demonstrate their newly acquired knowledge and skills in a series of challenging assessments, which will develop your creativity and challenge your preparation skills, ensuring the work you produce meets the rigorous national standards of the automotive industry.

As part of your diploma you will cover preparation and painting a variety of vehicle body parts with a variety of surfaces to industry standards. You will apply fillers to vehicle body repairs and apply a suitable paint system to each repair.

**ENTRY REQUIREMENTS**

4 x GCSEs at grade 3(D) or above, including maths and English
LIGHT VEHICLE MAINTENANCE
STUDY LEVEL 3

The Level 3 Light Vehicle Study Programme is approved by major car manufacturers, including BMW, Honda and Vauxhall. This programme gives you high level specialist knowledge that you need to be able to complete any task when it comes to the repair and maintenance of light vehicles across a range of systems and components. You’ll have practical assessments and assignments and also build and develop key employability skills for the motor trade as well as improving your maths and English. You’ll have the opportunity to take part in competitions to showcase your skills.

Following on from this programme, you can expect to gain a high level Apprenticeship in the motor industry as a mechanic for a garage or for a car manufacturer.

ENTRY REQUIREMENTS
Completion of Level 2 Subject Specialist Qualification

WELDING
STUDY LEVEL 2

You will learn about safety requirements, the manual metal arc welding, MIG/MAG welding processes and thermal cutting processes Oxy-Fuel & plasma cutting. You will visit industry as part of the course to see how your skills will be used.

ENTRY REQUIREMENTS
Maths and English at 1(G) or above
WELDING AND FABRICATION FOR RENEWABLE INDUSTRIES
STUDY LEVEL 2

Whether you’re interested in the engineering industry or want to work as a welder in the motor trade, the Level 2 Diploma is a more technical route to welding and teaches you a range of theory and practical welding skills that you’ll be using, whatever sector you choose to work in.

You will cover MAG manual metal arc welding, alongside oxyfuel gas cutting and plasma cutting. You’ll also learn wider skills to boost your employability, such as communication of technical information and working as part of a team, preparing you for some of the situations you may face when joining the engineering industry.

In addition, through work experience, a high number of learners from this programme are gaining full time work from our close contacts with industry, earning wages while still studying on the programme.

From here, you can move onto a related Level 3 Programme to grow your skills or into an Apprenticeship or employment.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3 (D) or above, including maths and English
MUSIC AND PERFORMANCE ARTS PROGRAMMES

Do you want to study your passion in the best facilities in town? Our fully equipped TV studio, 200 seat theatre, media rooms, recording and dance studios are the optimum spaces for Learners to enhance and develop their creativity in Music and Performing Arts.

Perhaps you’d prefer to work behind the scenes, backstage as part of a production team at the very heart of any show. Gaining these core skills can be your ticket into the world of performance.

Studying Music or Performing Arts at Hull College will help you to hone your abilities as well as helping to develop other areas such as teamwork, self-discipline and communication. When you leave us to start your career, you’ll be prepared to work with those around you.

Whether you choose to work on or off the stage, the world of Music and Performing Arts offers some of the most exciting and vibrant careers. Our progression routes speak for themselves, with College alumni including actors, presenters and a BAFTA award winning composer!
STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

- FD Creative Music Production
- FD Live Events Production
- BA (Hons) Acting (Top Up)
- FD Popular Music Performance
- BA Creative Performance (Musical Theatre & Dance)
DANCE
STUDY LEVEL 3

Dance at Hull College helps you to develop your technical and performance skills. You will have the opportunity to study Ballet, Tap, Jazz and contemporary technique classes in order to help develop your physical skills to a high standard.

There will also be opportunities for you to take part in workshops with guest lecturers, helping you to develop your technical and creative skills further. There will be opportunities to extend your creative and compositional dance skills through devising, creating and performing a collection of dance pieces, these will be performed in the College’s own 200-seat ‘Riverside Theatre’. You will also develop your knowledge and create work for video and social media platforms.

The Level 3 Dance course is part of Hull College’s Performing Arts Studio, this presents you with the possibility of choosing to develop skills within acting and singing as part of the elective section of the study programme.

The dance department at Hull College have strong links with Hull City Arts, Hull Dance and Absolutely Cultured, this presents learners with the opportunity to take part in external and internal workshops as well as work experience opportunities.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including maths and English
PERFORMING ARTS

STUDY LEVELS 1 | 2 | 3

Becoming a performer takes dedication and hard work. Our Study Programmes hand you the skills to develop your repertoire, with the opportunity to take part in big scale productions at our 200-seater Riverside Theatre.

The Level 1 - 3 Performing Arts Study Programmes are designed to help you explore and develop skills in singing, dancing and acting. You will also develop your musical theatre knowledge through weekly classes and by taking part in musical productions.

Learners build a strong portfolio of audition material in preparation for the next stage of their career, through taking part in live theatre performances, community events and work experience.

This Programme can set you up for a career in the bright lights of stage performance, as many former learners have gone on to do. You can also progress to Higher Education, such as BA Honours Acting and Theatre Practice.

ENTRY REQUIREMENTS

Level 1: No formal qualifications are required. In addition: Audition and interview.

Level 2: 4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification. In addition: Audition and interview.

Level 3: 4 x GCSEs at grade 4(C) or above, including maths and English. In addition: Audition and interview.

“YOU ARE CONSTANTLY DOING A VOCAL PRACTICE WHICH I THOUGHT WAS ESSENTIAL TO SUCCEEDING. I CAN SAFELY SAY THAT IF I DIDN’T COME TO HULL COLLEGE I WOULD NOT HAVE BEEN ABLE TO FOLLOW MY DREAMS.”

Oliver - Musical Theatre

*Programmes are subject to change
MUSIC
STUDY LEVEL 2

You will develop music performance skills through rehearsal sessions and explore music composition using industry standard software to produce audio content for a variety of purposes.

Whilst on the course you will learn about areas of the wider music industry such as listening skills and music research and the music industry as well as the multitude of other roles and careers that are available to them in this vibrant sector.

The course prepares you for progression to Level 3 based on your portfolio & commitment to music and other related subject areas.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above

MUSIC PERFORMANCE AND PRODUCTION
STUDY LEVEL 3

Whilst studying on this Programme, you will develop music performance skills through rehearsal sessions and exploring music composition using industry-standard software to produce audio content for a variety of purposes.

Music theory knowledge is developed alongside critical listening skills through production analysis. There are opportunities to explore the use of modern digital equipment as well as traditional analogue hardware. You will learn about areas of the wider music and entertainment industry such as events management and music marketing as well as the multitude of other roles and careers that are available in this vibrant sector.

The course fully prepares you for Higher Education and has a strong record of progression onto degree level programmes in music and other related subject areas.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including Maths and English
LIVE EVENTS PRODUCTION
STUDY LEVEL 3

Whether you want to be a lighting or sound operator, a stage or set designer, tour the world with a huge band or manage the main stage at Glastonbury, this course can help you develop the skills to follow your dream.

The two-year Level 3 Live Events Production Study Programme teaches you a range of technical skills including live sound and lighting operation, stage management, stage and set building, live sound and lighting operation. You will have the opportunity to really test your skills and demonstrate your knowledge on the course. From music festivals, theatre shows, artistic festivals, television and film and many more, this course teaches you the skills to develop your potential within the live events industry.

Within the first year you will work as a live production operative working on live shows as part of the creative team to bring these shows to life.

In the second year you will study design and event management skills on live performances. You will gain valuable experience on educational trips to industry conventions and see professional shows. Within the two years, you will also gain hands-on experience during live shows and working with external live events and companies such as The BBC, Freedom Festival, Humber Street Sesh Festival, Hull Truck Theatre, Hull New Theatre plus many more as a professional technician. This course gives you live working experience as well as developing industry contacts and giving you opportunity to gain paid employment whilst you study.

ENTRY REQUIREMENTS
4 x GCSEs at grade 4(C) or above, including maths and English
If you need support with day-to-day independence skills or with your progression into studying or work due to a disability or learning difficulty, Hull College’s range of Foundation Studies courses can improve your knowledge, grow your skill set and help you to develop your self-confidence to prepare you for the next stage in your life, whatever that may be.

With our excellent Special educational needs and disability (SEND), English as a Second Language (ESOL) and Foundation Study Programmes, you’ll learn how to work with other people, how to improve your communication skills and other key aspects that will set you on the course to a fulfilling and exciting life! Our dedicated team of tutors allow you to learn in a supportive, friendly environment.
YOUR FIRST STEP
“REALLY HELPED ME TO BUILD UP MY CONFIDENCE FOR GETTING INTO AN APPRENTICESHIP OR EMPLOYMENT. IT ALSO HELPED ME TO GET SOME EXTRA TIPS WHEN ATTENDING JOB INTERVIEWS WHICH I USED TO STRUGGLE WITH.”

David - Supported Intern
INDEPENDENT LIVING SKILLS
ENTRY LEVEL

If you need some support with your learning, for example, if you have learning difficulties or a disability, this study programme helps you with the skills that you need to learn to be able to live independently in your local community. Seeing past your disability and helping you with your abilities, the programme helps you gain valuable work experience and increases your independence, with essential living skills and independent travel skills. Maths and English are embedded through the course to develop your abilities and you’ll also learn employability skills, taking part in internal and external work experience placements.

Following from this course you can expect to find paid or voluntary employment. You are also ready to begin City and Guilds Entry 2 Independent Living Skills.

ENTRY REQUIREMENTS
No formal qualifications are required

CORE FOUNDATION
ENTRY LEVEL

Core Foundation is a programme that is fundamentally a ‘stepping stone’. You will attend three days week, depending on your vocational choice. You will have the opportunity to choose from a variety of taster sessions including Engineering, Hairdressing and Beauty, Health & Social Care, Hospitality and Catering, Art and Design, designed to help you make choices about what you would like to study. This will allow you to find out where your interests lie and what will suit you best for progression to the next level. You will also complete Employability qualifications that will help you in the job market.

ENTRY REQUIREMENT
No formal qualifications are required
SUPPORTED INTERNSHIP  
STUDY LEVEL 1

The Supported Internship programme ensures that you have the right support that you need as you begin life as a professional in your field of choosing. This is an excellent Exit course for those with an Educational Health and Care Plan giving you the opportunity to gain vital work experience whether you want to work in ICT, care, in hair and beauty and a whole range of vocational positions, with excellent future prospects. You’ll receive incredible job coach support whilst at work, with a personalised programme of learning which is tailored to suit your individual learning needs and career aspirations.

The internship helps you improve your skills and confidence so that you can go out and find regular paid or voluntary work.

ENTRY REQUIREMENTS
No formal qualifications are required

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES (ESOL)  
STUDY LEVEL 2

Learning English helps you to become part of the community in the UK; helping you to get on at work, if you want to go onto further education, and when you’re out and about. The English for Speakers of Other Languages (ESOL) study programme is a one year course where you can improve your reading, writing, speaking and listening skills through fun and interesting class activities, learn more about citizenship and life in the UK for government tests, and gain qualifications in ESOL and maths.

This course can be the first step in your journey to higher education in the UK or at an English speaking university. You can progress onto the next level of ESOL or gain entry to a vocational course at Level 1 or Level 2.

ENTRY REQUIREMENTS
No formal qualifications are required
Help to make a positive impact in your community and a real difference in people’s lives with a career in Sport or Protective Services. With a variety of job roles, choosing to work in this sector is a rewarding and valuable choice.

Whether you want to work as a Fitness Instructor helping people lead healthier lives or if you want to work in uniformed public services such as the Armed Forces or Emergency Services, studying with Hull College can put you on the right track to success.

Our sport courses allow learners to learn and train in our specialist facilities at the Steve Prescott Centre. With the College’s strong partnerships with Hull FC and Hull KR, Learners are also given the opportunity to study full-time vocational Sport courses at Level 1, 2 or 3, as well as improving their English and maths at GCSE level.

STEP UP TO HIGHER EDUCATION

Your journey with Hull College doesn’t have to end once you’ve completed a Level 3 Programme. Our amazing range of Higher Education courses, from Foundation to Honours Degrees, give you the opportunity to progress further, including:

FdA Criminology
BSc (Hons) Sport and Health Sciences (Top Up)
SPORT AND PUBLIC SERVICE
STUDY LEVELS 1 | 2 | 3

This is a vocational course that will give you a practical introduction to the skills needed to progress towards a career in sport or public services.

You will cover team work and fitness, develop your confidence and career progression goals alongside some specialist units for either sport or public services.

The programme will also start to prepare you to meet the physical requirements for entry into the Uniformed Public Services or improve the skills needed to work in the sports industry.

This programme is for you if you want to go on to work in the leisure industry, as a fitness instructor or a coach or enter one of the uniformed services.

ENTRY REQUIREMENTS

KICK OFF YOUR CAREER
UNIFORMED PUBLIC SERVICES
STUDY LEVELS 2 | 3

The Protective Services course aims to provide you with the skills, experience and knowledge that will enable you to develop a career in a uniformed service such as the fire service, police, prison service or armed forces. The Protective Service Study Programme allows you study and apply for the public service of your choice or relevant university course, with a good grounding in the theory and practical skills that you need to know and the fitness and discipline that you are required to have. You can take part in interactive uniformed protective service activities and meet members from a range of services and take part in relevant workshops. The Programme also helps you develop relevant employability skills.

ENTRY REQUIREMENTS

Level 2: 4 x GCSEs at grade 3(D) or above or Level 1 Subject Qualification. In addition: A satisfactory level of physical fitness relating to entry into a uniformed service.

Level 3: 4 x GCSEs at grade 4(C) or above, including Maths and English. In addition: A satisfactory level of physical fitness relevant to entry into a uniformed service.

CRIMINOLOGY & LAW
STUDY LEVEL 3

Understanding the mind of a criminal can lead to an exciting career in the criminal justice system. The Level 3 Criminology study programme will teach you all you need to know to begin your career in Criminology and Law.

Learners gain an insight to what drives people to commit a crime and experience the real life criminal justice system by visiting a court.

This programme delivers a unique view into Criminology, and with relevant links to the industry it’s the only course of its kind in the area. Leading to a Foundation Degree or University course, Level 3 Criminology is a fantastic stepping stone to a career working with victims and offenders.

ENTRY REQUIREMENTS

4 x GCSEs at grade 4(C) or above, including maths and English.
CABIN CREW ACADEMY  
STUDY LEVEL 2

The aviation industry offers challenging and rewarding career opportunities both in the air and on the ground. You will have the use of our ‘crew room’ which includes a mock aircraft cabin with seats, overhead lockers, a trolley for drinks/meals, duty free service and health & safety equipment.

There will be an essential day visit to a cabin crew training centre to participate in fire and emergency training.

In preparation for work in this exciting industry, Learners on the course will be required to purchase and wear a uniform. On completion, you’re ready to begin in the world of aviation as air cabin crew, airport ground operations staff, or working in airline reservations. You could also progress onto the Level 3 Travel and Tourism programme.

ENTRY REQUIREMENTS
4 x GCSEs at grade 3(D) or above, or Level 1 Subject Qualification

INTRODUCTION TO TRAVEL AND AVIATION  
STUDY LEVEL 2

The Level 2 Travel and Tourism Study Programme gives you an insight into a wide variety of areas in this exciting industry both in this country and overseas including retail travel, cruises, promotion, Worldwide and UK travel destinations.

You’ll learn about travel planning and planning an event, as well as gaining valuable work experience. There will be a programme of UK and overseas visits for the course for which you will be required to contribute towards the cost.

Progression can be onto further study with the Level 3 Travel and Tourism Programme or the Level 2 Cabin Crew Academy Programme. You can also gain work in this exciting sector in retail travel, as a resort representative or tourist attraction assistant.

Once you see a course you like and want to apply, head on over to our website to apply.

www.hull-college.ac.uk

Simply go to our home page and select the ‘Apply’ button and follow the on screen instructions. If you have any questions along the way, our friendly admissions team are on hand to guide you from application right the way through to enrolment.

If you are unsure of what course is best for you, why not visit one of our Open Events? Here you get the chance to talk to our tutors and see for yourself how Hull College can support you on your journey to your dream job.

Good luck with your application!

*All programmes subject to change. Please visit our website for the most up-to-date programmes and entry requirements.

If you are currently in school, you should apply through the >log on | move on> website*.

>log on | move on> is an online prospectus which contains information about a wide range of local post-16 courses and opportunities for young people.

You can search for something specific, compare courses and providers, then begin to plan your career. It’s easier for you to apply online for any courses using the Common Application Process (CAP). Anyone can access the prospectus at any time, but you will need a username and password to be able to make an online application.

For further information and/or to obtain your password, please contact your school in the first instance, or email:

ypse@hullcc.gov.uk (Hull)
esp.team@eastriding.gov.uk (East Riding)

*If your school does not subscribe to >log on | move on> then please complete an application via the Hull College website.
Hull College and Hull Kingston Rovers were delighted to announce a bespoke educational partnership in August 2019.

The agreement, which also saw Rovers’ home ground renamed Hull College Craven Park, ensured an unrivalled academic pathway was created for the city of Hull - with the college playing an integral role by offering players of all ages optional career pathways in education or Apprenticeships.

A Development Academy was also formed to focus on both educational and personal development, with the additional aim of attracting the best local talent to wear the famous red and white shirt at the top level of Rugby League.

Run in conjunction with Archbishop Sentamu Academy sixth-form, it means that learners at Hull College aged between 16-18 are eligible to join the Robins’ Development Academy, which in turn could provide the opportunity to progress into the Club’s Under-18s Academy side - and even lead to a part-time professional contract!

Along with providing unique opportunities for learners at the college, the partnership also benefits the local community - with the opportunity to learn new skills on free short courses at Hull College Craven Park supporting our vision to inspire and educate the entire city.
