### \*\*\*\*\* IMPORTANT SAFETY INSTRUCTIONS \*\*\*\*\*

READ THESE INSTRUCTIONS BEFORE OPERATING THIS AIR CLEANER.  
ALWAYS FOLLOW BASIC PRECAUTIONS TO REDUCE THE RISK OF ELECTRIC SHOCK,  
FIRE AND INJURY TO PERSONS INCLUDING THE FOLLOWING:

1. Read all instructions before operating the air cleaner. Do not block air outlets when in use.
2. Place the air cleaner upright with the front fan opening and the opposite end air intake opening unblocked.
3. Always turn the air cleaner off before unplugging it from the wall outlet. Never grip the power cord to remove the plug from the wall outlet. Always grip only the plug. Unplug the machine when it is not in use.
4. Do not use the air cleaner if it appears to be malfunctioning or if the cord or plug are damaged. Keep the cord away from heated surfaces. **Do not use the unit if it has been dropped.**
5. Do not use it in areas in which combustible vapors are present. **NEVER USE THE MACHINE NEAR CHLORINE PRODUCTS OR CHLORINATED POOLS.**
6. Keep the air cleaner in a dry area. Do not operate the air cleaner without the pre-filter in place.
7. The air cleaner has a polarized plug. To reduce the risk of shock, this plug must be inserted only one way in a polarized outlet. If the plug does not fit into the outlet, please contact a qualified electrician. Check the plug to make sure that it is not fitting loosely in the outlet which can cause the plug to overheat.
8. Turn the air cleaner off prior to any service.
