Springpod®

Getting Started as a Student

1 Make sure that you have your **access code** handy. This should have been emailed to you - search your inbox and check your spam.

2 Create your student account here. Add your school or college email address and then verify your account. If you already have a Springpod account, then login as normal here.

3 Tell us about yourself so that we can personalise your experience. It's important that you select the correct institution name, so that your teachers can recognise your hard work!

4 Once your done, go to your settings using this icon.

5 That's it - **you're ready to explore!** Bookmark this student login page so you can come back in the future.

Please contact hello@springpod.com if you have any comments or issues accessing or using the Hub.
