

HEMPSANA INC.

For Immediate Release

HEMPSANA RECEIVES SECOND HEALTH CANADA LICENSE

TORONTO, ONTARIO | GODERICH ONTARIO – May 19, 2020– Hempsana (“**Hempsana**” or the “**Company**”) is pleased to announce that its Goderich Facility received the Standard Processing License from Health Canada, issued under the Cannabis Regulations.

Hempsana provides an update on the progress of the Goderich Facility, which was issued the Standard Processing License on May 15 2020 by Health Canada in accordance with the Cannabis Act and Cannabis Regulations, providing the Company the ability to possess, produce and sell cannabis in the facilities’ indoor production areas.

This License receipt supplements the Company’s current approval to extract Cannabidiol (“**CBD**”) in an agricultural country in the EU, as well as Company’s Industrial Hemp Cultivation License issued by Health Canada in August 2019.

The Company’s Goderich Facility, which completed development in Q4 2019, is a 10,000 square foot ISO-8 clean room and EU-GMP compliant controlled facility, that will be the Company’s primary site for extraction of cannabis derivatives and end-product manufacturing.

“We are very excited about being granted the License, and we are appreciative of Health Canada, as they were undoubtedly stretched on resources with the COVID-19 situation. Through the challenges of the on-going pandemic, the team was able to successfully execute on the Company’s plan. The dedicated hard work by the team has provided the path to drive forward on its focussed revenue generating activities,” says Sohil Mana, CEO and Chairman of the Company.

“I’m very proud of our team in achieving this major milestone, and excited that we will continue to see accelerating momentum as we execute on our growth strategy,” says Randy Ko, President and COO of Hempsana.

About Hempsana Inc.

Hempsana Inc. is a Canadian cannabis company specializing in cannabis derivatives with focus on Extraction & Purification, End-Product Manufacturing and Testing. The Company has approval for CBD oil extraction in the EU and Health Canada’s Standard Processing and Industrial Hemp Licenses in Canada.

The Company’s EU GMP compliant facility provides the Company access to wholesale and retail channels internationally, including the EU, Asia, South America, US and Canada. The Company’s

focus is on producing consistent high-quality cannabis extracts for use in end-product development, specifically for topical creams and infused edibles.

Hempsana has carved out a competitive edge through disruptive technology which enables the Company to be a highly efficient manufacturer of cannabis extracts, with sights on being the lowest cost producer of cannabis derivatives in Canada.
