

How To Determine What Size Pedestal To Order

1. If your seat is adjustable, adjust it to the most comfortable height and measure
2. Measure from the bottom of the seat to the floor (Picture Below)
3. Boat seats come stock with a spider or spider & slide assembly (Picture Below)
4. AirWave™ Pedestal requires the 2-7/8" size spider assembly to adapt to the top tube

Note: Attwood Products will not adapt to AWP

5. Use the chart below to determine which size pedestal to order

The chart tells you the fixed height you will be at with AirWave™ Pedestal installed

Note: We now offer custom anodized risers to get you to taller heights as needed!

With the 2-7/8" Spider Assembly

Installed Measurement	Size
10-1/4"	9" AirWave™ Pedestal
11-1/4"	10" AirWave™ Pedestal
12-1/4"	11" AirWave™ Pedestal

With the 2-7/8" Spider & Slide Assembly

Installed Measurement	Size
10-7/8"	9" AirWave™ Pedestal
11-7/8"	10" AirWave™ Pedestal
12-7/8"	11" AirWave™ Pedestal

2. Measure from bottom of the seat to the floor

3 & 4. Where to measure the spider assembly
