

## Appendix [CPO Fees and Payment]

### A. Setup fee

In consideration for the creation of a user account for the Partner on the Platform, the provision of access to the Hubject test system and IT implementation of the connection established by the Partner (collectively referred to as "Setup Services") Hubject will charge the Partner a one-off fee in the amount of €5,000.00 plus VAT (where and as applicable) per user account.

Payment of the fee must be made within 14 calendar days following execution of the Agreement; Hubject will provide the Setup Services within three months after payment has been received, provided the Partner, on its part, enables Hubject to do so as required in accordance with the documentation provided to the Partner on execution of the Agreement. If Hubject cannot fully carry out the Setup Services within six months following execution of the Agreement due to a failure on the part of the Partner to enable it to do so and the Setup Services are therefore carried out at a later point, the setup fee will be charged again. The fee payable pursuant to sentence 1 above includes implementation support by Hubject for subsequent OICP releases. If the Partner's connection to the Platform needs to be re-established or an additional connection is to be established, the Partner shall pay a fee of €3,500.00 plus VAT (where and as applicable) for IT implementation of such connection.

### B. Annual fee

In consideration for its use of the Platform and the Platform services the Partner shall pay an annual fee of €1,188.00 plus VAT (where and as applicable). ### C. Monthly fee
