HUBJECT

For Charging Station Producers
Software

intercharge
SOFT
CHECK

Fast lane to success.

An intercharge CHECK certificate accelerates your software solution on the road to success: showing that your system is compatible with the world's biggest eRoaming platform gives it key competitive advantages in the eMobility market.

Connect to Success

intercharge CHECK includes the testing and certification of your system solution by connecting it to the testing environment of the world's biggest eRoaming platform.

Enter the Stage

Use the Hubject partner site as an advertising platform for your solutions.
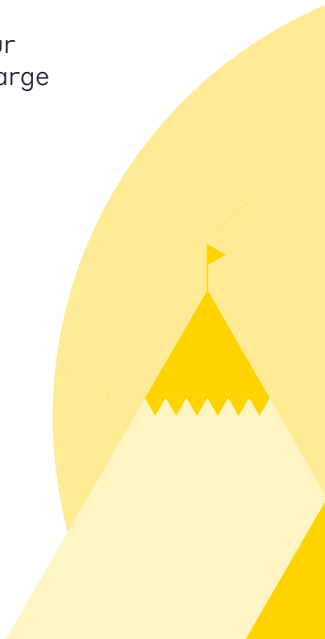

Enhance your Image

Show other market participants that your systems are compatible with the intercharge network and meet the requirements for cross-provider eRoaming.

Grow your Portfolio

Extend your systems to include eRoaming functionality.

The quality label

With intercharge CHECK you gain the attention on the market - plus extended reach and higher visibility in the world's biggest charging network.

WHAT WE OFFER

Hubject Workshop

Everything you need to know about linking your system up to the Hubject platform:

— Introduction to the Hubject interface protocol (Open Intercharge Protocol OICP)

— Explanation of the Hubject eRoaming platform: architecture and functionality

— Live demonstration of user interface (Hubject Brokering System)

Seamless Support

Support and assistance during every stage of the connection process right up to the final end-to-end acceptance of your IT system

intercharge Certificate

Issuing the 'Certified eRoaming System' seal
