THE CHALLENGE

We helped APNIC develop a 4 year strategic plan, and communicate it so it delivered results for their 7,000 members.

THE STORY

The governing board of APNIC, the Executive Council (EC), is responsible for strategic planning, and in 2019 needed to develop their next 4-year plan, for the period 2020-2023.

The key was not just to provide facilitation of a strategic plan but to also drive accountability down through the organisation through creating operational plans and team engagement through their bi-annual staff conference.
