

# New Learner Prep Checklist

Congratulations on your acceptance to Lambda! This will be a fast-pace, intensive ride, so it's important you're prepared on Day 1. Please go through each task below and reach out to **admissions@lambdaschool.com** if you have any questions along the way.

## Register for Lambda Launch

Lambda Launch is our mandatory student **orientation program** where you'll learn about our academic expectations, how to use the technologies necessary for your course, and how to get help when you need it. Go to <https://newlearners.lambdaschool.com/> to register.

## Finish your pre-course work

You've already passed your Admissions assessments, but the pace of the curriculum means you'll be expected to build on those skills very quickly. Set yourself up for success by reviewing the pre-course resources at <https://newlearners.lambdaschool.com/>.

## Set your schedule

Now is the time to clear your schedule so you can be online and ready to code. Confirm your schedule on the website, taking note of your timezone.

## Set up your computer

Check <https://newlearners.lambdaschool.com/> to make sure your computer meets the minimum requirements. Also get yourself set up with Slack, Zoom and other programs you'll need daily.

## Create your remote workspace

Having a dedicated workspace will be crucial for you to focus in class and collaborate with other students. Make sure you have a quiet space, a comfortable chair, a professional background and consider getting a second monitor.

## Meet your Success Advisor

Learner Success Advisors are here to ensure your experience at Lambda is a positive one and to help you find the resources you need to be successful. There will be an advisor assigned to you for each unit who will work with you 1:1 on any challenge you may have.
