

Disputes due to poor data costs your firm time & money

Agreement Manager from Acadia revolutionizes your legal agreement workflow, accessibility and data quality

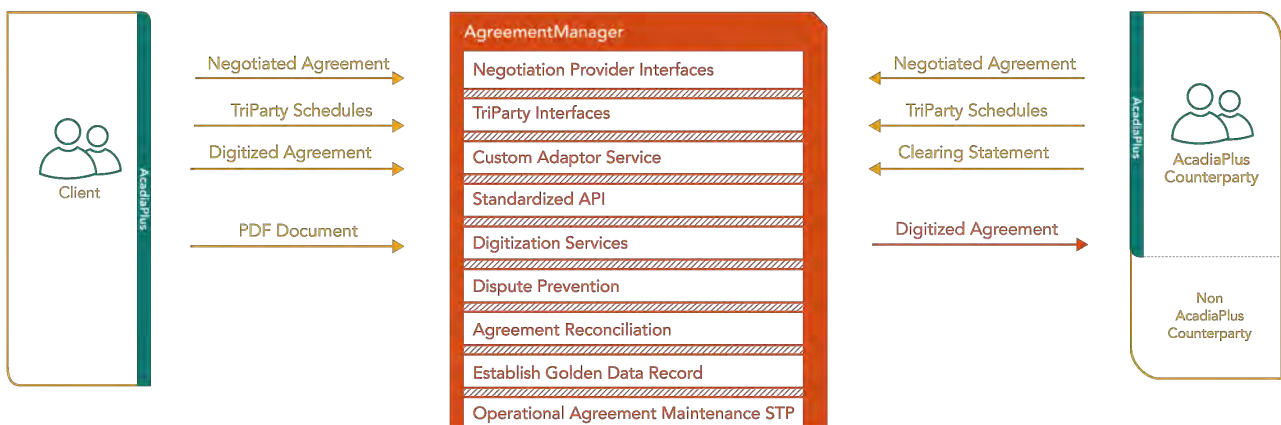

We are frequently faced with operational challenges in our workday. If you have any reliance on accurate CSA agreements to ensure that your workday runs smoothly, then keep reading.....or better still, get in touch.

Agreement Manager, part of the AcadiaPlus platform, has been cited as the most significant innovation in the bi-lateral Derivatives industry in recent years. This standardized and centralized platform allows you to stay in control of your data.

How?

- Single representation of data between you and your counterparties to help reduce disputes
- Ability to digitize legacy and future agreements, providing an efficient mechanism to reconcile internal records and provide accessibility across the organization
- Leverage Contract Analysis technology to extract specific data attributes that may require remediation e.g. IBOR transition, negative interest, Brexit or Collateral downgrades
- Quickly create Term Sheets to document your initial margin monitor arrangements
- Open access API's connect agreement data between your in house or third party vendor platforms, as well as online negotiation platforms like ISDA Create. Custom adaptors allow Agreement Manager to capture data from a wide array of data sources ensuring ease of connectivity.
- Web-based user interface provides a central, real-time view across all your collateral and umbrella agreements including GMRA's, ISDA's, MSFTA's as well as eligible collateral schedules and tri-party agreements

Workflow

Key Benefits of Agreement Manager

ONE

Reduce financial exposure by expediting agreement capture, amendment and creation

TWO

Unlocks legal and operational data to enhance front to back processes

THREE

Reduces agreement driven disputes by resolving data representation differences and establishing golden records

FOUR

Sophisticated models that monitor Agreements to ensure they remain regulatory compliant

FIVE

Common source of data to feed all interested parties/systems

SIX

Reduces operational risk by leveraging a standard and consolidated workflow

SEVEN

Increased transparency and control

EIGHT

Significantly reduces long-term operational costs

NINE

Source agnostic consolidation of legal agreement data

TEN

Basic Service available as part of your AcadiaPlus Subscription
