

AcadiaPlus

The next generation risk mitigation platform

AcadiaPlus delivers the entire risk mitigation lifecycle, from agreement negotiation and set up using golden-source data through the margin process and onto settlement, leveraging best of breed solution providers via our flexible, interoperable platform.

AcadiaPlus has been developed to meet current market requirements and easily adjust to future changes. Our solution is deployed in a manner that meets the needs of our diverse client base.

Reduce & Remove: Complexity, delays & costs

Traditionally, firms have been siloed and proprietary in their operational approach to the post-trade OTC collateral management space. Each firm has one system that calculates their own exposure, another that calculates a margin requirement, another that optimizes exposure or collateral – and the list goes on. This approach is inflexible and layers in costs and head count. But with AcadiaPlus our flexible, integrated, standards-based model delivers substantial benefits including:

- **Regulatory compliance**
- **Speed, automation and scalability**
- **Cost and risk reduction**
- **Dispute prevention**

Moreover, only AcadiaPlus provides end-to-end transparency across the trade lifecycle through data analytics. Firm-wide reporting as well as industry and peer comparison analysis is available to help identify efficiency gaps.

- **Connect to a global community dedicated to margin, collateral and risk management**
- **With access to best in class apps/services across the trade lifecycle**
- **Scalable, interoperable infrastructure with world class technology delivery and integration**

A full suite of services accessed via AcadiaPlus

Agreements Suite: Focuses on the automation of CSA agreements, enabling digitization of legacy agreements, connectivity to online negotiation providers as well as an intelligent and standardized workflow for the consolidation and affirmation of operational and legal data via one single interface.

Risk Suite: Our range of Risk services and access to partner applications provide firms in scope for uncleared margin rules with all the necessary functionality to meet the new calculation requirements of the global regulatory framework.

Workflow Suite: Providing integrated services that monitor, test, calculate, reconcile and report on all aspects of margin and collateral management and messaging amongst a community of over 1,600 firms

Data Suite: Providing analytics across the trade lifecycle.

One Connection, One Solution: Puts you in control

AcadiaPlus is a core element of today's market infrastructure; built collaboratively with our community of clients, infrastructure providers and vendor partners to provide a range of regulatory solutions that enables compliance with the Uncleared Margin Rules as well as a suite of integrated workflow solutions designed to reduce cost and increase flexibility.

Our transparent charging model puts you in control. An AcadiaPlus base charge provides access to our community and includes a range of core services, partner applications, data sharing and messaging workflow. With the option to subscribe to additional specialist services across the suite of services – as and when you need them. Key features include:

- **Golden Data Source:** Single connection and integration platform to a golden source of client and industry data: Trade, Risk, Pricing, Collateral and Agreement
- **Open & Shared:** Connectivity to applications for Agreement, Risk & Collateral, underpinned with Messaging & Data Services, with access to third-party solutions – supported by industry standard workflow and interoperability within a highly secure environment
- **Transactions & Reporting:** Enables client-controlled distribution, and market connectivity for Sell-Side, Buy-side and Fund Administrator participants and through to Settlement Venues, Regulators and third-party Reporting
