1 INTRODUCTION

1.1 *Our history*

The Wisløff family have lived at Sorrisniva since 1885 originally farming and salmon fishing. The name Sorrisniva comes from the early Finnish immigration to the Alta River and describes the burbling of the water as it flows over the riverbed. The third-generation brothers of Hans Ulrik and Tor Kjetil have progressively developed their tourism offering starting with riverboat safaris through the spectacular Alta River Canyon in 1970. Sorrisniva offered the first Norwegian snowmobile safaris in 1989 and added the iconic Lavvu Restaurant, whose design reflects the Sami tent, in 1992.

In 2000 the Igloo Hotel, Norway's first ice hotel, was built for the first time. Since then, the ice hotel is built each year in early winter and offers overnight accommodation through until April. The ice hotel is built by local craftsman and features amazing ice sculptures, an ice bar and an ice chapel which is popular for weddings and christenings. Sorrisniva Igloo Hotel is the world's northernmost ice hotel.

From Autumn 2021 Sorrisniva will offer year-round premium accommodation in the new Arctic Wilderness Lodge. The lodge is designed to offer guests a premium quality experience in its rooms, lounge, and restaurant. The lodge is built on the banks of the river and incorporates extensive glass facades to closely integrate nature into the rooms.

Sorrisniva is also famous for its à la carte cuisine which is based upon local foods and products including salmon, cod, locally smoked or cured fish, reindeer, moose, and wild berries.

With the new Arctic Wilderness Lodge Sorrisniva will create a unique Arctic lodge experience for discerning guests wishing to experience the traditional Sorrisniva seasonal offerings including the Ice Hotel, Northern Lights, Midnight Sun, snowmobile safaris and riverboat excursions whilst staying in a premium quality lodge enjoying the world famous Sorrisniva cuisine and hospitality.

7.2.2 3 hours Midnight sun UTV experience - Through the Alta valley and up onto the Finnmark plateau

From 16 May to 26 July the sun never sets at Sorrisniva (Alta) and this UTV experience provides you with the opportunity to witness it from up on the inland plateau. This vast inland plateau is the homeland of the Sami people and reindeers and other Arctic animals are therefore often seen on this experience. The Finnmark Plateau is flatter than the rest of Norway and therefore offers a great view of the horizon in our search for the midnight sun. Just before midnight, when the sun nears the horizon, the sky often fills with colours of gold and orange creating a special Arctic light approach. These magic moments only occur in the summer times in regions above the Arctic Circle and is a lifetime experience for many.

8 AUTUMN SEASON – 1st of Sept to 30th of November

The autumn period is often considered being the best season in the Arctic region. It is a period of fantastic light and tranquillity. The combination of autumn colours and white snowy mountain tops are not easy to forget. There are many reasons why the autumn is considered being the best season in the Arctic. First, you have the night returning to the Arctic region providing great sunrises and sunsets. Then you have all the autumn colours providing great contrasts in nature. The first snow falls in the mountains as the temperature is dropping and finally the Aurora Borealis makes its return. The best period to experience the Northern Lights is from early September to end March. In the beginning of the Northern Lights period there is a good possibility to experience the Northern Lights before the snow returns. By the end of the autumn the colours that came with the entry of the autumn seasons are disappearing. The days become shorter and the first cold nights with sub-zero temperatures have arrived. The Arctic is starting to prepare itself for the Arctic winter. Our Autumn experiences include enjoying the special tranquillity whilst wandering through nature picking fresh berries, riverboat- or all-terrain vehicle safaris and Northern Lights experiences.

8.1 Riverboat experiences on the Alta River

In the initial days of Autumn, normally until 10 September, the water level in the river is high enough to enjoy a riverboat experience.

The riverboat experiences are the same as offered during the summer season and as are presented above.

8.2 UTV Experiences – Utility Terrain Vehicles

Autumn is an ideal season to enjoy a UTV experience from Sorrisniva up to the inland plateau. The UTV experiences can normally be enjoyed through to the end of November subject to early snow falls.

The UTV experiences are as presented above in the summer season with their duration and attractions adjusted for the Autumn season.

8.2.1 2,5 hours UTV experience - Through the Alta valley and up onto the Finnmark plateau

Experience the unique and scenic Arctic nature and cultural history in a fun and exciting self-drive UTV adventure. Your experience will be led by an experienced guide who will lead you through the Alta Valley and up to, Beskades, the rugged Finnmark plateau. The drive takes you past many spectacular photo locations where you can stop to capture your memories.

9 WINTER SEASON – 1st of Dec to 31st of March

At 70° North and approx. 400 km's above the Arctic Circle Sorrisniva provides our guests with the wonders of the high Arctic winter. The sun slowly disappears and between 26th November and 15th January it is Polar Night season. The sun does not rise above the horizon at all before reemerging the around 20th January and gradually increasing the daylight periods heading towards the endless sunlight summer months. However, the Polar Night is a special period with a snow lit wilderness and several hours of bright twilight in the middle of the day. It is never truly dark, and the light conditions are unique to the Arctic regions. With a clear sky, moonshine, or the Northern Lights you would not realise that it was night.

The winter period provides our guests with the opportunity to have a range of experiences including hunting the Northern Lights, a snowmobile safari onto the inland plateau, a reindeer or husky sled experience, or interaction with the Sami reindeer herders understanding their culture and cuisine and many more.

11.4 Three unique nights and five activities – 4 days package

Experience our three unique accommodations under the Arctic Light in Alta. The first night you stay at Bjørnfjell Lodge, the second night at Holmen Husky Lodge and the third night at Sorrisniva Igloo Hotel. These locations are excellent to experience the Northern lights and the Arctic winter and nature.

DAY ONE

Transfer to Bjørnfjell Mountain Lodge from either Alta Centre or the Alta airport. Check in at the main Bjørnfjell Mountain Lodge. The host will bring you to your room or cabin. Breakfast is served in the restaurant which is found in the main building both for the guests staying in the cabins as well as the lodge rooms. In total Bjørnfjell Mountain Lodge has 5 mountain cabins as well as 15 rooms inside the main building. All the 5 separate cabins have a different name given after the farmers mountain cabins in the area around Alta. All cabins are unique and special designed. The cabins have possibility to sleep 2-4 guests and some 2-6 guests. There is also one site SPA-house with sauna and outdoor Jacuzzi to rent privately.

The ski lift is opened on request for overnight guests. The first experience is the *Polar night bonfire experience* at 8 pm including 2-course dinner. You will be collected from main lodge and brought to the top of the nearby mountain. Let the silence embrace us, and if the sky is clear above there is a good chance to see the mythical Northern Lights. We light up a bonfire outside this cosy cabin we call “Bjørnehiet” and make our own gourmet food from pure ingredients in the most natural way we know, on the bonfire. Sitting around the bonfire on reindeer skins, the guide will tell you mythical stories about the Northern lights and take pictures for you to bring back home. At the end of the experience, we sled down the mountain on well prepared slopes. Probably the funniest way to play in the snow.

DAY TWO

The breakfast is served in the restaurant inside the main building between 8-10 pm. You have the possibility to spend the time as you like up to departure at 12 pm. It is an option to just relax at the cabin, the lounge in the main lodge or your room reading a book in the window or just head for winter walk. You will have the possibility to buy lunch from the restaurant where you also can rent different equipment such as bikes with fat tires, snowshoes or book a zipline experience.

At 12 pm it is time to transfer to Holmen Husky Lodge. After checking in at Holmen Lodge, the second experience is a *husky sledding* along 15 km with 2 persons share one sled at 13 pm. For those who would like to use the Sauna and Jacuzzi (additional charge), we advise to bring their swimming clothes. In the evening, a 2-course dinner is served in the service building at 18 pm. The husky kennels are between the service building and the designed Lavvo bungalows. In these bungalows you will find one king size bed with

a nice view through the roof/wall window. There is heating blankets to keep you warm during the night and a wood-burning stove in each bungalow. Toilets are in the service building next by.

So, you really get in touch with the huskies. It is a very nice area to make an evening walk while searching for the Northern lights when you are following the husky sledding tracks.

DAY THREE

Breakfast is served at 8 am in the service building before you are picked up to transfer to Sorrisniva at 09:45 am. This day it is time for the third experience at 10:30 am, *snowmobiling* up onto the Finnmark plateau. Two persons share one snowmobile while you drive up to the Finnmark plateau and the open landscape. Here you will see the beautiful Arctic light around noon. You will drive approx. 30 km. Before you start there will be safety instructions on how to drive a snowmobile. When returning to Sorrisniva you will be served warm lunch at 13:30 pm in our restaurant. You may choose between Bidos (a Sami dish) or creamed fish soup with fresh bread from our kitchen.

After lunch, you will be checked in at the Igloo Hotel and have a guided tour in the wooden building with one of the staff who will tell how it is to stay and sleep in a hotel made entirely of snow and ice. The Igloo Hotel at Sorrisniva is the Northern most ice hotel in the world and has been built every year since 2000. We are proud that everyone who builds and decorates the Igloo Hotel are residents.

After lunch and check in you have free time to walk around in the area or just relax. It is important for us that our guests feel calm and take time to relax. We have maps in the reception showing different hiking routes. Snowshoes in the hall are free to use and when it gets dark you can borrow a head torch in the reception.

For the third evening the fourth experience is *hunting the Northern lights* with our guide. The Northern lights experience starts at 8 pm from Sorrisniva. Our guide meets you in the reception. Depending on the weather and Northern lights forecast the guide will choose the best direction to go. Sometimes we only go up to the mountain next to Sorrisniva 3-4 km driving, other times the tour could be 5-60 km out from Sorrisniva. When returning to the Igloo Hotel around 11 pm, your room in the ice hotel is ready. Each person can take two extreme sleeping bags and one pillow each when you go to sleep.

DAY FOUR

The morning starts with a morning sauna from 7-10 am and the breakfast is open from 8-10 am. At 11:30 am it is time for the fifth activity, *Sami experience and a reindeer sledding* experience. This Sami experience last for 1,5 hours and the sledding experience is 3 km, with a break in a Sami tent after 1,5 km. At 1:30 pm there is lunch at Sorrisniva and then at 16:00 pm transfer to Alta Centre.
