

INSURANCE GUIDELINES TO OBTAIN AUTHORIZATION

All insurance companies are not the same. Some require that you call, while others you are able to obtain online. The requirements that are the same across the board are below.

REQUIRED documents you will need when obtaining an authorization:

1. Patient Demographics
2. CPTs of all tests you are requesting
3. ICD-10 codes along with description
4. Current patient’s history and documentation of prolonged diagnosis

After submitting an authorization, the case may go **peer-to-peer**. This means you will need to have a nurse, PA, MA, or the referring Doctor contact the insurance company.

If a case is denied, the referring office must call to overturn, payors will not allow SDMI to do this on behalf of the referring office.

Below is a list of the insurance companies that will not allow SDMI to obtain authorization due to contractual agreements. In these cases the request must come from the referring office:
