1. NATURE AND CONTINUANCE OF OPERATIONS

On August 30, 2021, Austpro Energy Corporation ("Austpro") and Defi Ventures Inc. ("Defi") completed a plan of arrangement which resulted in a reverse takeover ("Transaction") of Austpro by the shareholders of Defi. In the closing of this Transaction, Austpro also completed an 8.727:1 consolidation of its common shares and changed its name to WonderFi Technologies Inc. The Company's wholly owned subsidiary Defi also changed its name to WonderFi Digital Inc. ("WonderFi Digital") as part of this Transaction.

WonderFi commenced operations on January 30, 2021, and is actively engaged in the development of a technology platform to facilitate investments in the emerging industry of decentralized finance. The Company's common shares trade on the Toronto Stock Exchange ("TSX") under the symbol "WNDR" effective June 22, 2022. The Company was listed on the NEO Exchange prior to the TSX listing. The Company's registered office is located at Suite 250, 780 Beatty Street, Vancouver, British Columbia V6B 2M1.

On March 25th, 2022, the Company incorporated a new subsidiary entity Bitbuy Holdings Inc. ("Bitbuy"). Through Bitbuy, the Company completed the acquisition ("Bitbuy Business Combination") of First Ledger Corp., ("FLC"), the parent company of Bitbuy Technologies Inc. FLC was then immediately amalgamated into Bitbuy. Bitbuy is a leading cryptocurrency platform and the first approved crypto marketplace in Canada. The acquisition of FLC provides the Company with Canada's largest approved crypto marketplace, and one of the fastest growing crypto platforms in Canada.

On July 4, 2022, the Company, through its wholly-owned subsidiary, 13963071 Canada Inc., which was incorporated on April 18, 2022, completed the acquisition ("Coinberry Business Combination") of Coinberry Limited ("Coinberry"). In connection with the Coinberry Business Combination, Coinberry amalgamated with 13963071 Canada Inc. and kept the name of Coinberry Limited. Coinberry is the second licensed crypto asset trading platform in Canada wholly-owned by WonderFi, along with Bitbuy. The Company now operates through two reportable segments: Bitbuy and Coinberry with Centralized Finance and WonderFi with Decentralized Finance.

These interim condensed consolidated financial statements have been prepared on the assumption that the Company will continue as a going concern. The Company has incurred losses and has had negative cash flows from operations since inception that have primarily been funded through financing activities. The interim condensed consolidated financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities and the reported expenses that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material. Management believes its working capital will be sufficient to support the activities for the next twelve months and expects to raise additional amounts.

The Company has changed its financial year end from September 30 to December 31. Accordingly, the current interim condensed consolidated financial statements and comparatives are prepared for the three and twelve months ending September 30, 2022.

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

Statement of compliance

These interim condensed consolidated financial statements (“interim financial statements”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, being International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*. The disclosures contained in these interim financial statements do not contain all requirements for annual consolidated financial statements and should be read in conjunction with the Company’s annual audited consolidated financial statements for the year ended September 30, 2021. Significant accounting policies have been described in Note 3 of the interim financial statements.

These interim financial statements were authorized for issue by the Board of Directors on November 10, 2022.

Basis of presentation and measurement

These interim financial statements have been prepared on a historical cost basis except for the digital assets inventory, digital assets, client assets, investments, client liabilities and warrant liabilities which are measured at fair value. These interim financial statements are presented in Canadian Dollars, which is also the Company’s functional currency.

Basis of consolidation

These interim financial statements include accounts of the Company and its wholly-owned subsidiaries, from the date of control, as at September 30, 2022. All intercompany balances and transactions have been eliminated upon consolidation.

Subsidiaries	Ownership
Bitbuy Gaming Inc.	100%
Bitbuy Holdings Inc.	100%
Bitbuy Technologies Inc.	100%
Blockchain Markets Inc.	100%
Coinberry Limited	100%
Twenty One Digital Inc.	100%
WonderFi Digital Inc.	100%
WonderFi Interactive Inc.	100%

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Critical accounting judgements, estimates and assumption

The preparation of financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected.

Valuation of business combinations

Judgment is used in determining whether an acquisition is a business combination or an asset acquisition. Judgment is also made on identifying assets acquired. For a business combination, significant estimates and assumptions are required to determine the purchase price allocation, including the valuation of intangible assets acquired.

Derivative Liabilities

The Company values derivative liabilities associated with certain of its warrants from certain financing arrangements by reference to their fair value at the date at which the instrument is granted and each reporting period. Estimating fair value requires judgment in determining the most appropriate valuation model, which is determined based on the characteristics of the related instrument being issued. Further, this estimate also requires determining the most appropriate inputs to include in the valuation model, including the expected life and volatility as well as other subjective variables, and making assumptions about them. The Company values its derivative liabilities using a lattice-binomial option-pricing model ("Binomial Model"), which in management's opinion, best provides a fair measure of the fair value of these warrants. Changes in the input assumptions can materially affect the fair value estimate.

Other significant judgments made by management in applying the Company's accounting policies and key sources of estimation uncertainty were the same as those applied to the annual audited consolidated financial statements for the year ended September 30, 2021.

Business Combinations

The Company follows the acquisition method to account for business combinations in accordance with IFRS 3, *Business Combinations*. The consideration for the acquisition of a business is measured as the fair value of assets transferred, equity instruments issued, and liabilities incurred as at the date of acquisition. Identifiable assets acquired and liabilities assumed in a business combination are measured at their estimated fair values on the date of a business acquisition.

The excess of the consideration transferred over the estimated fair value of the net assets acquired is recorded as goodwill. If the consideration transferred is less than the net assets acquired, the difference is recognized directly in the consolidated statement of loss and comprehensive loss as a gain on acquisition.

Results of operations of a business acquired are included in the Company's consolidated financial statements from the date of the business acquisition. Acquisition costs including those tied to continuing employment of pre-existing shareholders for future services are recognized in the consolidated statement of loss and comprehensive loss.

New information obtained during the measurement period, which is up to 12 months following the acquisition date, about facts and circumstances existing at the acquisition date may affect the purchase price allocation.

Revenue recognition

Revenue arises mainly from the fees taken on transactions and withdrawals. The Company also realizes a profit on over-the-counter transactions (OTC) based on the net amount between the purchase price and selling price. The Company acts as an agent on behalf of over-the-counter customers for digital assets trading as the Company does not control the digital assets before they are transferred to over-the-counter customers.

To determine whether to recognize revenue, the Company follows a five-step approach:

- Identifying the contract with a customer;
- Identifying the performance obligations;
- Determining the transaction price;
- Allocating the transaction price to the performance obligations;
- Recognizing revenue when/as performance obligations are satisfied.

Revenue is recognized at the point in time when the Company satisfies performance obligations by performing the services to its customers.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duty. The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably. The Company recognized revenue from the following major sources:

- Transaction revenue
The Company operates fiat and cryptocurrency exchanges through Bitbuy and Coinberry's websites. The Company earns revenue by charging a fee to execute such trades and recognizes revenue at a point in time when the trade is complete.
- Market making revenue
The Company, through Bitbuy operations, acts as a liquidity provider to fulfill some of its trades by quoting both counterparties looking the buy or sell cryptocurrencies. The Company uses its digital assets held as inventory to fulfill the trade. The Company earns revenue on the bid–ask spread at a point in time when the trade is complete.

Digital assets inventory

In accordance with IAS 2, *Inventories*, the Company notes that one of its subsidiaries, Twenty-one Digital (“21 Digital”), acts as a commodity broker-trader for its digital asset holdings. If assets held by commodity broker-traders are principally acquired for the purpose of selling in the near future and generating a profit from fluctuations in price or broker-traders’ margin, such digital assets are accounted for as inventory. Therefore, the digital assets held by 21 Digital are accounted for as inventory and changes in fair value less costs to sell are recognized in profit or loss. Fair value is determined by reference to quoted prices published by Cryptocompare, a pricing aggregator.

Digital assets

Digital assets consist of cryptocurrencies and are classified as current assets. In accordance with IAS 38, *Intangible Assets*, digital assets are initially recognized at cost and the revaluation method is used to measure the digital assets subsequently.

Digital assets are measured at fair value using the quoted price on Cryptocompare, as the principal market or most advantageous market is not always known. The Company believes any price difference amongst the principal market and an aggregated price to be immaterial. Management considers this fair value to be a Level 2 input under IFRS 13, *Fair Value Measurement*, fair value hierarchy as the price on this source represents an average of quoted prices on multiple digital currency exchanges.

Digital assets are classified as current assets as they are regularly traded on exchange platforms globally between willing buyers and sellers which provide a high degree of liquidity. Digital assets are considered to have indefinite lives and, therefore, are not amortized but subject to review for impairment. The increase in carrying value at the end of the measurement period is recognized in equity through other comprehensive income and presented as revaluation surplus in equity, unless and to the extent it reverses a revaluation decrease previously recognized in the profit or loss, a decrease in carrying value at the end of the measurement period is recognized in the profit and loss, unless and to the extent of any credit balance existing in the revaluation surplus associated with the underlying asset, in which case the decreases will be recognized through other comprehensive income to reduce the revaluation surplus.

When digital assets are exchanged or sold, the digital assets are derecognized when the Company has transferred substantially all the risks and rewards of ownership. Gains and losses in such exchange are included in profit or loss.

Client assets and liabilities

The client assets and related liabilities consist of funds deposited with the Company in either fiat or digital assets format for the purpose of executing trades. The client assets are either held with a financial institution or a digital assets custodian to which the Company has control over and bears any associated risk. Client cash and digital assets are represented as both a client asset and client liability on the consolidated statements of financial position.

Property and equipment

Property and equipment are recorded at cost less accumulated depreciation and accumulated impairment losses. Property and equipment are depreciated on a straight-line basis based on the useful life of each component as follows:

- Computer equipment	36 months
- Furniture and fixtures	36 months

The carrying amount of a replaced asset is derecognized.

Intangible assets

Intangible assets acquired separately are initially measured at cost plus direct acquisition costs. Intangible assets acquired in the Business Combinations are measured at their fair value as at the acquisition date.

Intangible assets with a finite useful life are amortized over their useful lives and the amortization period and method are reviewed at least annually at the year end.

The Company's intangible assets consist of technology, customer relationships and brand names acquired in Business Combinations are amortized on a straight-line basis over their useful lives as follows:

- Customer relationships	7 years
- Technology	10 years
- Brand	10 years

Goodwill

Goodwill represents the excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired at the date of acquisition. Cost comprises the fair value of assets given, liabilities assumed, and equity instruments issued, plus the amount of any non-controlling

interests in the acquiree plus, if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree. Contingent consideration is included in cost at its acquisition date fair value and, in the case of contingent consideration classified as a financial liability, remeasured subsequently through profit or loss. Direct costs of acquisitions are recognized immediately as an expense. Goodwill is carried at cost less any accumulated impairment losses. Goodwill is allocated to each cash generating unit ("CGU") or group of CGUs. A CGU represents the lowest level within the entity at which the goodwill is monitored for internal management purposes, which is not higher than an operating segment. Goodwill is not amortized, but rather reviewed for impairment annually or more frequently if events or circumstances indicates that the asset might be impaired.

Impairment of non-financial assets

The carrying amount of the Company's property and equipment and intangible assets with definite lives, which includes technology, customers lists, and the brand acquired in the Business Combination, are reviewed whenever an indicator of impairment exists. If such indication exists, the asset's recoverable amount is estimated.

For the purpose of assessing an asset's recoverable amount, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset. Assets that cannot be tested individually are grouped at the lowest levels for which there are separately identifiable cash inflows, typically at the CGU level. An impairment loss is recognized whenever the carrying amount of an asset or its CGU exceeds its recoverable amount. Impairment losses are recognized in the consolidated statement of loss and comprehensive loss.

Goodwill and indefinite life intangible assets are reviewed based on its group of CGUs for impairment annually or at any time if an indicator of impairment exists.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses are assessed at each reporting date for an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount. Any reversal of impairment losses cannot increase the carrying value of the asset to an amount higher than the carrying amount that would have been determined had no impairment loss been recognized in previous years.

Leases

Leases are recognized as a right-of-use asset with a corresponding liability at the date at which the leased asset is available for use in accordance with IFRS 16, *Leases*. Each lease payment is allocated between the liability and the finance cost. The finance cost is charged to profit or loss over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis.

Lease liabilities include the net present value of the following lease payments:

- Fixed payments, less any lease incentives receivable.
- Variable lease payments that are based on an index or rate.
- Amounts expected to be payable by the lessee under residual value guarantees.
- The exercise price of a purchase option if the Company is reasonably certain to exercise that option.
- Payments for penalties for terminating the lease.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the Company's incremental borrowing rate is used, being the rate that the Company would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- The amount of the initial measurement of lease liability.
- Any lease payments made at or before the commencement date less any lease incentives received.
- Any initial direct costs.
- Restoration costs.

Payments associated with short-term leases and leases of low-value assets less than \$5,000 are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a term of 12 months or less. Low value assets comprise office equipment.

As a practical expedient, IFRS 16 permits a lessee to not separate non-lease components, but instead account for any lease and associated non-lease components as a single arrangement. The Company has applied this practical expedient.

Provisions

Under IAS 37, *Provisions, Contingent Liabilities and Contingent assets*, provisions represent liabilities to the Company for which the amount or timing is uncertain. A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When the Company expects that part or all of the expense will be refunded, the refund will be recognized as a separate asset only on the date when there is certainty of receiving the asset. The expense will be recognized in the statement of profit or loss net of the expected refund.

Share-based payments

Share-based payments are recorded in accordance with IFRS 2, *Share-based Payment*.

Restricted share units

The Company measures the cost of equity-settled share-based transactions by reference to the fair value of the equity instruments at the date at which they are granted. For restricted share units ("RSUs"), the fair value at the grant date is determined by multiplying the Company's share price at the grant date by the number of RSUs granted. The resulting fair value of the RSUs is then adjusted for an estimated forfeiture rate which is determined based on historical data and is recognized over the vesting period. Actual number of RSUs that will eventually vest is likely to be different from estimation.

Shares

The Company grants shares vesting immediately in exchange of certain services. In the absence of evidence to the contrary, the Company presumes the services have been received at the grant date and recognizes the services expense in full with a corresponding increase to share capital.

The fair value of shares vesting immediately is based on the closing stock price at the grant date.

Options and Warrants

The Company operates a stock option plan to certain employees. Employee options are measured at the fair value of the options granted and recognized, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant party becomes fully entitled to the award ("Vesting Date").

The Company also grants options and warrants in exchange of certain services from non-employees. Options and warrants to non-employees are measured at the fair value of services received or the fair value of the equity instruments issued if it is determined the fair value of the services cannot be reliably measured. The service expenses are recorded at the date the services are received.

The fair value of options and warrants is measured at the grant date and each tranche is recognized on a graded-vesting basis over the vesting period based on the number of options and warrants expected to ultimately vest. The number of options and warrants expected to vest is reviewed for adjustment at least annually. The terms and conditions of the options and warrants granted are accounted for in measuring the fair value using the Black-Scholes option pricing model.

Where options and warrants are exercised, the cash proceeds along with the amount previously recorded as share-based payment reserves under contributed surplus is reclassified to share capital. Where options and warrants expire unexercised, amounts previously recorded as contributed surplus remain as such.

Derivative Liabilities

Units issued as part of private placements consisting of one common share of the Company and one-half of one common share purchase warrants are compound financial instruments which are accounted for based on the nature of the individual components. As the conversion option for the warrants has a variable conversion rate which is subject to future events that may take place, the conversion option is noted to violate the fixed-for-fixed criteria within IAS 39, Financial instruments: recognition and measurement ("IAS 39"), and is classified as a derivative liability, due to the value of the instrument changing based on the underlying change in the fair value of shares, measured at fair value through profit and loss ("FVTPL"). The residual value between the cash proceeds received from such private placements, and the fair value assigned to the warrants is recognized as equity. The fair value of warrants is updated at each reporting period, with the change in fair value being recognized in the current period statement of loss and comprehensive loss.

Financial Instruments

Financial assets are classified and measured based on the business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. IFRS 9 contains three primary measurement categories for financial assets: amortized cost, fair value through other comprehensive income ("FVTOCI") and FVTPL. Financial assets are recognized in the statements of financial position if the Company has a contractual right to receive cash or other financial assets from another entity. Financial assets are derecognized when the rights to receive cash flows from the asset have expired or were transferred and the Company has transferred substantially all risks and rewards of ownership.

All financial liabilities are recognized initially on the transaction date at which the Company becomes a party to the contractual provisions of the instruments. The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or expired. Financial instruments are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. The Company has classified its cash and cash equivalents, trade and other receivables, income tax receivable, trade and other payables, lease liability, and due to related parties as financial assets and financial liabilities measured at amortized cost. Such assets and liabilities are recognized initially at fair value inclusive of any directly attributable transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment losses. Loan payable and derivative financial instruments entered into by the Company are classified as FVTPL.

4. BUSINESS COMBINATIONS

With the acquisition of Bitbuy together with Coinberry, WonderFi maintains one of the largest communities of Web3 users in Canada and is one of Canada's largest employers of crypto-industry professionals.

Acquisition of FLC

On March 25, 2022, the Company completed the acquisition of FLC by purchasing all of the issued and outstanding shares of the entity. FLC is the parent company of Bitbuy Technologies Inc., Canada's first approved crypto marketplace. Pursuant to the purchase agreement, the Company paid \$38,624,575 and issued 70,000,000 common shares on March 25, 2022.

The acquisition of FLC by the Company has been accounted for as a business combination. The assets acquired from the acquisition are to be recorded at their estimated fair values in accordance with IFRS 3, *Business Combination*. IFRS 3 allows for a measurement period, which shall not exceed one year from the acquisition date, in which the Company may gather the information necessary to record the acquisition in accordance with IFRS 3. As at September 30, 2022, the Company is still in measurement phase. The preliminary allocation of purchase consideration is as follows:

	<u>March 24, 2022</u>
Assets acquired:	
Prepaid expenses	657,846
Taxes receivable	3,090,442
Digital Asset inventory	2,771,480
Digital Assets	1,451,334
Client assets	395,781,890
Investment	-
Property and equipment	360,190
Customer relationships	40,226,000
Brand	9,236,000
Technology	31,168,000
	<u>484,743,182</u>
Liabilities assumed:	
Trade and other payables	6,245,420
Client liabilities	395,781,890
Short-term debt	3,030,770
Deferred tax liabilities	19,504,852
	<u>424,562,932</u>
Net assets acquired	60,180,250
Consideration	139,060,713
Goodwill	78,880,463
The consideration consists of the following components:	
Cash	38,624,575
Share consideration, net of stock option exchange	100,436,138
	<u>139,060,713</u>

As part of the transaction, the Company replaced the existing stock options and warrants of Bitbuy with those of the Company. The fair value of Bitbuy options already vested as of the date of the acquisition has been incorporated in the purchase price consideration.

The main factors leading to the recognition of goodwill are the presence of certain intangible assets, such as assembled workforce, which do not qualify for separate recognition, and the fact that additional value is generated through the collective use of the acquired assets rather than individually.

During three and twelve months ended September 30, 2022, FLC contributed \$2,422,502 and \$5,572,756 to the company's revenue and incurred loss of \$2,075,396 and \$10,282,143 to total comprehensive loss respectively.

During the twelve months ended September 30, 2022, the Company paid \$2,500,000 in cash and 1,650,683 common shares for a total broker fee of \$4,926,504 (three months ended September 30, 2022 – nil) recorded in professional fees and consulting.

Acquisition of Coinberry

On July 4, 2022, the Company completed the acquisition of Coinberry by purchasing the remaining 92% of the issued and outstanding shares of the entity. Based on the previous 8% interest the Company obtained in Coinberry prior to the acquisition and described in Note 17, the Company's 8% interest in Coinberry increased to 100%.

The acquisition of Coinberry by the Company has been accounted for as a business combination. The assets acquired from the acquisition are to be recorded at their estimated fair values in accordance with IFRS 3, *Business Combinations*. Pursuant to the purchase agreement, the Company issued 25,825,645 common shares for an aggregate fair value of \$13,429,335. The fair value of the common shares has been determined as the closing market price of WonderFi's common shares on July 3, 2022.

Final goodwill to be recognized for this acquisition is primarily growth expectations, expected future profitability, the substantial skill and expertise of Coinberry's workforce and expected cost synergies. Goodwill has been allocated to the CeFi segment and is not expected to be deductible for tax purposes.

The net liabilities recognized in the Interim Financial Statements were based on a provisional assessment of Coinberry's fair value, and the Company is currently evaluating the fair value of the identifiable intangible assets acquired.

As at September 30, 2022, the Company is still in measurement phase. The preliminary allocation of purchase consideration is as follows:

	<u>July 3, 2022</u>
Assets acquired:	
Prepaid expenses	146,489
Income tax receivable	77,757
Digital assets	579,180
Client assets	42,249,008
Due from related parties	62,417
Property and equipment	132,687
	<u>43,247,538</u>
Liabilities assumed:	
Bank overdraft	639,311
Trade and other payables	1,451,456
Contingent liabilities	1,612,000
Client liabilities	42,249,008
Income tax payable	25,650
Long-term debt	40,000
	<u>46,017,425</u>
Net liabilities acquired	2,769,887
Consideration	14,602,957
Goodwill	17,372,844
The consideration consists of the following components:	
Fair value of previously held interest (a)	1,173,622
Share consideration	13,429,335
	<u>14,602,957</u>

(a) Remeasurement at fair value of the 8% interest previously held in Coinberry resulted in recognition of \$1,433,852 loss in earnings. The loss is presented in the Statement of Loss and Comprehensive Loss on the line "Loss on reimbursement of the investment to the fair value".

Since the acquisition, Coinberry contributed \$907,125 to the company's revenue and increased loss by \$1,221,164.

If Coinberry had been acquired on October 1, 2021, revenue of the company for the twelve months ended September 30, 2022 would have been \$5,207,737, and loss for the twelve months period would have increased by \$8,780,351.

During the three and twelve months ended September 30, 2022, the Company paid 1,275,000 common shares for a total merger and acquisition services of \$471,750 recorded in professional fees and consulting, and 3,100,000 common shares for the contingent liability settlement.

Goodwill from Business Combinations

	<u>September 30, 2022</u>
Balance, beginning of year	-
Goodwill from FLC Acquisition	78,880,463
Goodwill from Coinberry Acquisition	17,372,844
Balance, end of period	<u>96,253,307</u>

5. CASH AND CASH EQUIVALENTS

The Company holds cash and cash equivalent as follows:

	<u>September 30, 2022</u>	<u>September 30, 2021</u>
Cash	8,090,142	20,346,956
Guaranteed Investment Certificate ("GIC") investments	202,663	-
	<u>8,292,805</u>	<u>20,346,956</u>

GIC investments ordered on December 24, 2021, and April 8, 2022, with prime less 2.4% and 2.65% interest rate respectively were requested by the Company's bank as security for the Company's corporate credit cards. As at September 30, 2022, the interest rate of the December 24, 2021, and April 8, 2022, GIC investments were 3.05% and 2.80% respectively.

6. TRADE AND OTHER RECEIVABLES

The Company holds trade and other receivables as follows:

	<u>September 30, 2022</u>	<u>September 30, 2021</u>
Trade and other receivables	9,594	78,146
Sales tax receivable	4,190,268	16,613
	<u>4,199,862</u>	<u>94,759</u>

7. DIGITAL ASSET INVENTORY

The Company holds digital assets as inventory as follows:

Digital assets inventory	Units	Amount (\$)
Bitcoin (BTC)	20.01	537,449
Ethereum (ETH)	199.81	367,081
USD Coin (USDC)	204,445.75	282,340
Litecoin (LTC)	1,233.34	91,070
Stellar (XLM)	491,824.84	77,807
Others	-	562,471
Balance as of September 30, 2022		1,918,218

8. DIGITAL ASSETS

The Digital assets owned by the Company are intangible assets under IAS 38, *Intangible Assets*.

Digital assets	Units	Amount (\$)
Ethereum (ETH)	235.91	433,406
Bitcoin (BTC)	361.25	1,329,493
USD Coin (USDC)	170,317.97	235,209
Uniswap (UNI)	5,109.60	45,716
Stellar (XLM)	162,313.17	25,678
Others	-	476,447
Balance as of September 30, 2022		2,545,949

Digital assets activities during the twelve months ended September 30, 2022, and year end September 30, 2021, are as follows:

	September 30, 2022	September 30, 2021
Balance, beginning of year	4,110,325	-
Digital assets received in exchange for share capital	8,750,001	1,020,000
Digital assets acquired in Business Combinations	2,030,514	-
Digital assets purchased	7,216,924	3,045,039
Digital assets earned as part of proof of stake	45,314	174
Digital assets development expense	(60,293)	59,674
Digital assets sold	(13,633,091)	-
Gain (loss) on disposal of digital assets	(924,807)	-
Gain (loss) on revaluation of digital assets	(4,988,938)	(14,562)
Balance, end of period	2,545,949	4,110,325

9. CLIENT ASSETS AND LIABILITIES

The Company holds client assets and liabilities as follows:

Client Assets and liabilities	Units	Amount (\$)
Cash – \$CA	-	45,129,442
Cash – \$US	-	1,842,938
Bitcoin (BTC)	3,655.53	98,538,356
Ethereum (ETH)	40,456.49	74,695,491
Stellar Lumens (XLM)	36,606,527.48	5,854,112
Cardano (ADA)	8,393,873.28	5,074,846
Solana (SOL)	55,540.45	2,549,862
Others	-	21,477,436
Balance as of September 30, 2022		255,162,483

As at September 30, 2022, the Company held cash and digital assets on behalf of clients. The cash was held to enable clients to execute trades involving digital assets. Cash balances were held in bank accounts and digital assets were held with third-party custodians. The Company has control over these assets and bears the associated risks.

10. PROPERTY AND EQUIPMENT

The Company holds property and equipment as follows:

	Computer equipment	Furniture and fixtures	Total
Balance as of September 30, 2021	8,934	-	8,934
Acquired from the Business Combinations (Note 4)	321,268	171,609	492,877
Additions during the period	70,969	-	70,969
Depreciation during the period	(75,720)	(34,738)	(110,458)
Balance as of September 30, 2022	325,451	136,871	462,322
As of September 30, 2022			
Cost	402,949	171,610	574,559
Accumulated depreciation	(77,498)	(34,739)	(112,237)
Net book value	325,451	136,871	462,322
Balance as of January 30, 2021 (Incorporation date)	-	-	-
Additions during the period	10,712	-	10,712
Depreciation during the period	(1,778)	-	(1,778)
Balance as of September 30, 2021	8,934	-	8,934
As of September 30, 2021			
Cost	10,712	-	10,712
Accumulated depreciation	(1,778)	-	(1,778)
Net book value	8,934	-	8,934

11. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

The Company leases its office in Toronto, Ontario. The following table presents the right-of-use assets and lease liabilities for the twelve months ended September 30, 2022:

	Right-of-use assets
Balance as of September 30, 2021	-
Additions during the period	403,429
Depreciation during the period	(115,266)
Balance as of September 30, 2022	288,163
As of September 30, 2022	-
Cost	403,429
Accumulated depreciation	(115,266)
Net book value	288,163
	Lease liabilities
Balance as of September 30, 2021	-
Additions during the period	403,429
Interest expense during the period	11,003
Payment during the period	(121,880)
Balance as of September 30, 2022	292,552
Commitments	September 30, 2022
Current Portion of Lease Liabilities	232,232
Long Term Lease Liabilities	60,320
	292,552
Commitments	September 30, 2022
2022	60,320
2023	232,232
	292,552

12. LOAN PAYABLE

On August 18, 2022, the Company received a loan of 20 BTC and 200 ETH with 3 months repayment term. The loan has initial 133% cash collateral at \$1,218,000 with 3.50% annualized interest rate in digital assets.

As of September 30, 2022, the fair value of the loan is \$906,445, and the 20 BTC and 200 ETH is recorded in the digital assets inventory.

13. LONG TERM DEBT

The long term debt consists of the Canada Emergency Business Account loan, which is an interest free loan to cover operating costs, offered in the context of the COVID 19 pandemic outbreak. Repaying the balance of the loan on or before December 31, 2023, will result in a loan forgiveness of \$13,333. Any unpaid loan balance at December 31, 2023, will be converted to a two year term loan at 5% annual interest, with payment commencing January 1, 2024, with the loan fully due by December 31, 2025.

14. WARRANT LIABILITIES

The Company has warrant liabilities as follows:

	September 30, 2022
Balance, beginning of year	-
Warrant liabilities issued	18,134,568
Changes in fair value of warrant liabilities	(16,370,368)
Balance, end of period	1,764,200

15. INTANGIBLE ASSETS

	Technology	Customer relationships	Brand	Total
Balance as of September 30, 2021	-	-	-	-
Acquired from the Business Combinations (Note 4)	31,168,000	40,226,000	9,236,000	80,630,000
Depreciation during the period	(1,629,659)	(2,991,366)	(490,258)	(5,111,283)
Balance as of September 30, 2022	29,538,341	37,234,634	8,745,742	75,518,717
As of September 30, 2022				
Cost	31,168,000	40,226,000	9,236,000	80,630,000
Accumulated depreciation	(1,629,659)	(2,991,366)	(490,258)	(5,111,283)
Net book value	29,538,341	37,234,634	8,745,742	75,518,717

The intangible assets were acquired on March 25, 2022, and July 4, 2022, pursuant to the Business Combinations (Note 4).

16. LOAN RECEIVABLE

On April 26, 2022, the Company made a loan in the amount of \$600,000 to an unrelated party. The loan accrues 6% interest per annum until the outstanding balance of the loan is fully paid within 12 months of the closing date.

17. INVESTMENTS

On October 19, 2021, the Company made a strategic investment of \$617,850 in FTX Trading Limited, a leading global cryptocurrency exchange, in the form of a private placement.

On November 24, 2021, the Company invested \$253,540 (US\$200,000) in Coral Capital Holdings LLC's venture fund, which focused on Decentralized Finance, blockchain gaming, and digital asset infrastructure.

On December 20, 2021, Bitbuy invested \$49,500 in Metaverse Group Limited, a leading vertically integrated real estate company focused on the metaverse economy.

Prior to the Coinberry acquisition, the Company completed the following transactions:

- On March 1, 2022, WonderFi subscribed to a convertible note in the amount of \$1,100,000 with Coinberry. The note had an interest rate of 4% per annum. This loan was converted into Coinberry's common shares on May 1, 2022.
- On June 3, 2022, WonderFi entered into a subscription agreement for common shares in the amount of \$1,500,000 with Coinberry.

The above transactions were entered into in contemplation of the Coinberry Business Combination and were therefore included in the purchase consideration in accordance with IFRS 3. Prior to the date of acquisition, the above transactions were classified as investments on the Statement of Financial Position. At the date of acquisition, the fair value of the investments was measured, and the updated fair value was included in the total transaction price for the business. As a result of the remeasurement, a total loss on remeasurement of the investment to the fair value of \$1,433,852 was recognized.

The Company records its private company investments as financial assets at fair value through profit and loss. No unrealized gain or loss was recognized during the three and twelve months ended September 30, 2022.

18. RELATED PARTY TRANSACTIONS

The Company's related parties consist of entities where the executive officers and directors of the Company are principals meaning their position in these entities results in their having control or significant influence over the financial or operating policies of these entities.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly. Key management personnel are the Company's executive management team and members of the Board of Directors.

Key management personnel compensation comprised of share-based compensation, and any salaries paid to these individuals.

During the three and twelve months ended September 30, 2022, and 2021, related party transactions were as follows:

	3 months ended September 30,		12 months ended September 30,	
	2022	2021	2022	2021
Share-based payments ⁽¹⁾	542,292	412,432	4,685,223	715,958

- (i) On January 30, 2021, the Company issued 15,000,000 common shares at \$0.002 per share for total proceeds of \$30,000 and recognized share-based payments of \$0.018 per share for an aggregate total of \$300,000.
- (ii) On February 16, 2021, the Company completed a private placement with the issuance of 1,538,461 common shares of the Company at a price of \$0.13 per share for total proceeds of \$200,000.
- (iii) On March 5, 2021, the Company completed a private placement with the issuance of 7,460,000 common shares at a price of \$0.25 per share for total proceeds of \$1,865,000.
- (iv) On March 5, 2021, the Company issued 461,537 common shares to certain advisors to settle consulting fees of \$115,384.
- (v) On April 14, 2021, the Company completed a private placement and issued 2,600,000 common shares for gross proceeds of \$650,000.
- (vi) On May 21, 2021, the Company completed a private placement and issued 9,000,000 common shares for gross proceeds of \$2,250,000.
- (vii) On June 30, 2021, the Company completed a private placement and issued 5,318,243 common shares for gross proceeds of \$5,584,155.
- (viii) On July 2, 2021, the Company issued 85,714 common shares to a service provider as a settlement for a promissory note valued at \$90,000.
- (ix) Concurrent to completion of the Transaction (Note 1) on August 30, 2021, 17,715,000 common shares of the Company were issued for gross proceeds of \$17,715,000. As part of the private placement the Company issued 960,575 agents warrants to certain agents. The fair value of the agents' warrants has been measured using the Black-Scholes option pricing model at \$737,818 and has been recorded as share issuance costs. The following assumptions were used in the calculation of agents' warrants as per Black-Scholes option pricing model:

	<u>Weighted average assumptions</u>
Share price at grant date (based on arm's length financings completed)	\$1.00
Exercise price	\$1.00
Expected volatility (based on comparable publicly listed entities)	168%
Expected life	2 years
Expected dividends	Nil
Risk-free interest rate	0.32%

- (x) On August 30, 2021, the Company completed the Reverse Takeover Transaction (Note 1), and as part of the closing of the Transaction, Austpro consolidated its issued and outstanding shares to 1,700,206 common shares of the Company and changed its name to WonderFi on August 25, 2021. WonderFi issued 59,188,675 common shares of the Company to the shareholders of Defi on a 1:1 basis on August 30, 2021.
- (xi) The Company incurred cash-based share issuance costs of \$1,359,261 regarding the private placements during the period from January 30, 2021, to September 30, 2021.
- (xii) A total of 14,164 stock options were exercised for 14,164 common shares of the Company for cash proceeds of \$3,542 during the period from January 30, 2021, to September 30, 2021.
- (xiii) A total of 17,500 common shares of the Company were issued to an employee of the Company as per the RSUs granted during the period from January 30, 2021, to September 30, 2021, at the fair value of \$4,375.
- (xiv) On October 26, 2021, the Company completed a private placement with issuance of 13,520,001 units ("Units") at a price of \$1.95 for aggregate gross proceeds to the Company of \$26,364,002. Each Unit consists of one common share of the Company (and one-half of one common share purchase warrant ("Warrant") of the Company. Each Warrant is exercisable to acquire one Common Share of the Company at an exercise price of \$2.55 for a period of 36 months from the issuance date. In the event of an additional rights offering, the exercise price and number of shares that such Warrants may be convertible to, may be adjusted. The adjustment results in variability in both the conversion price and the number of shares to be issued, and as such, the Warrants breach the fixed-for-fixed requirement and are classified as a derivative liability measured through FVTPL. This warrant liability is remeasured at each reporting period, by updating inputs within the Binomial Model based on the facts and circumstances at each reporting period. Any resulting gain or loss is recorded in the consolidated statements of loss and comprehensive loss. The fair value of the warrants has been initiated recognized at \$6,016,402 with the following (non-exhaustive) list of assumptions:

	<u>Weighted average assumptions</u>
Share price at grant date	\$2.50
Exercise price	\$2.55
Expected volatility (based on comparable publicly listed entities)	150%
Expected life	3 years
Expected dividends	Nil
Risk-free interest rate	0.94%
Upward ceiling price	\$4.00

The Company incurred cash-based share issuance costs of \$2,206,348 regarding the private placement, \$450,824 was recorded to the statement of loss and comprehensive loss. As part of the private placement, the Company also issued 910,503 broker warrants to certain agents. Each broker warrant is exercisable to acquire one common share and one-half of one common share purchase warrant of the Company at an exercise price of \$2.55 for a period of 36 months from the issuance date. The fair value of the broker warrants has been measured using the Black-Scholes option pricing model at \$2,923,540 and has been recorded as share issuance costs, \$667,167 was recorded to the statement of loss and comprehensive loss. The following assumptions were used in the calculation of broker warrants as per Black-Scholes option pricing model:

	<u>Weighted average assumptions</u>
Share price at grant date	\$1.95
Exercise price	\$1.95
Expected volatility (based on comparable publicly listed entities)	151%
Expected life	3 years
Expected dividends	Nil
Risk-free interest rate	0.94%

- (xv) On February 4, 2022, the Company completed a private placement with the issuance of 18,750,000 Units at a price of \$2.40 per unit for aggregate gross proceeds to the Company of \$45,000,000. Each Unit consists of one common share of the Company and one-half Warrant of the Company. Overallotment Warrants of 808,333 were also issued. Each Warrant is exercisable to acquire one Common Share of the company at an exercise price of \$3.10 until February 4, 2024. In the event of an additional rights offering, the exercise price and number of shares that such Warrants may be convertible to, may be adjusted. The adjustment results in variability in both the conversion price and the number of shares to be issued, and as such, the Warrants breach the fixed-for-fixed requirement and are classified as a derivative liability measured through FVTPL. This warrant liability is remeasured at each reporting period, by updating inputs within the Binomial Model based on the facts and circumstances at each reporting period. Any resulting gain or loss is recorded in the consolidated statements of loss and comprehensive loss. The fair value of the warrants and overallotment warrants has been initially recognized at \$12,118,116, with the following (non-exhaustive) list of assumptions:

	<u>Weighted average assumptions</u>
Share price at grant date	\$1.86
Exercise price	\$3.10
Expected volatility (based on comparable publicly listed entities)	150%
Expected life	2 years
Expected dividends	Nil
Risk-free interest rate	1.31%

The Company incurred cash-based share issuance costs of \$3,378,527 with respect to the private placement, \$781,512 was recorded to the statement of loss and comprehensive loss. As part of the private placement, the Company also issued 1,151,042 broker warrants and 26,271 overallotment broker warrants to certain agents. Each broker warrant is exercisable to acquire one common share and one-half Warrant of the Company at an exercise price of \$3.10 until February 4, 2024. The fair value of the broker warrants and overallotment broker warrants has been measured using the Black-Scholes option pricing model at \$1,488,871 and \$25,622 respectively and has been recorded as share issuance costs, \$406,382 in total has been recorded the statement of loss and comprehensive loss. The following assumptions were used in the calculation of broker warrants as per Black-Scholes option pricing model:

	<u>Weighted average assumptions</u>
Share price at grant date	\$1.86
Exercise price	\$3.10
Expected volatility (based on comparable publicly listed entities)	165%
Expected life	2 years
Expected dividends	Nil
Risk-free interest rate	1.45%

The following assumptions were used in the calculation of overallotment broker warrants as per Black-Scholes option pricing model:

	<u>Weighted average assumptions</u>
Share price at grant date	\$1.48
Exercise price	\$3.10
Expected volatility (based on comparable publicly listed entities)	164%
Expected life	2 years
Expected dividends	Nil
Risk-free interest rate	1.46%

- (xvi) On February 7, 2022, the Company issued 1,000,000 common shares to advisors as consulting fees totaling \$1,780,000.

- (xvii) On March 25, 2022, WonderFi issued 68,349,317 common shares of the Company to the shareholders of FLC on a 2.3528:1 basis with respect to the Bitbuy Business Combination (Note 4). The Company also issued 1,650,683 common shares in broker fees totaling \$2,426,504.
- (xviii) On March 25, 2022, the Company issued 1,000,000 common shares to advisors as consulting fees totaling \$1,230,000.
- (xix) The company issued 921,453 and 185,185 common shares on April 8, 2022, and June 30, 2022, for \$1,796,833 finder's fee of FLC acquisition and \$100,000 listing sponsorship service respectively.
- (xx) On July 4, 2022, WonderFi issued 25,825,645 common shares of the Company to the shareholders of Coinberry on a 1.1129:1 basis with respect to the Coinberry Business Combination (Note 4). The company also issued 1,275,000 common shares to advisors for consulting fee totalling \$471,750 and \$3,100,000 for contingent liability settlement.
- (xxi) On September 21, 2022, the Company issued 27,785 common shares to advisors for consulting fee totalling \$10,680.
- (xxii) A total of 596,375 stock options were exercised for 596,375 common shares of the Company for cash proceeds of \$295,674 during the twelve months ended September 30, 2022.
- (xxiii) A total of 541,677 warrants were exercised for 541,677 common shares of the Company for cash proceeds of \$541,677 during the twelve months ended September 30, 2022.
- (xxiv) A total of 269,999 common shares of the Company were issued to the employees, and directors of the Company upon vesting of the RSUs at the fair value of \$260,348 during the twelve months ended September 30, 2022.

Normal Course Issuer Bid

- (xxv) On February 17, 2022, the Company announced its intent to commence a Normal Course Issuer Bid ("NCIB"). As at June 30, 2022, the Company repurchased 4,008,300 of its common shares on the open market through its broker at an average purchase price of \$1.28 per share. Of these common shares, 607,900 were cancelled on February 28, 2022, and 3,400,400 were cancelled on March 31, 2022.

Options

The Company issued stock options to key management personnel and Directors to purchase shares in the Company.

The Company has established a Stock Option Plan under which, the Board of Directors may, from time to time, grant options to directors, officers, employees, or consultants of the Company. The aggregate number of shares issuable upon the exercise of all options granted under the Plan shall not exceed 10% of the issued and outstanding common shares of the Company. Under the Stock Option Plan, the exercise price of an option cannot be lower than the closing price on the TSX on the trading date preceding the date of grant. Each stock option and all rights thereunder shall be expressed to expire on the date as set out in the option agreement or the maximum term of 10 years, whatever comes earlier.

The weighted average inputs used in the measurement of the fair values at grant date of the stock options are as follows:

	<u>Weighted average assumptions</u>
Share price at date of grant	\$1.35
Exercise Price	\$1.29
Volatility	147%
Expected Life	4.62
Dividends	Nil
Risk free Rate	2.25%

A summary of the Company stock options as at and during the twelve months ended September 30, 2022, is as follows:

	<u>Number of options</u>	<u>Weighted Average exercise price</u>	<u>Weighted Average Life</u>
Balance as of September 30, 2021	2,159,720	0.61	4.68
Granted	11,084,739	1.29	
Exercised	(596,375)	0.50	
Expired / cancelled / forfeited	(2,649,032)	0.93	
Balance as of September 30, 2022	9,999,052	1.29	4.04
Vested as of September 30, 2022	1,874,519	1.43	3.49

	<u>Number of options</u>	<u>Weighted Average exercise price</u>	<u>Weighted Average Life</u>
Balance as of January 30, 2021	-	-	-
Granted	2,460,000	0.56	
Exercised	(14,164)	0.25	
Expired / cancelled / forfeited	(286,116)	0.25	
Balance as of September 30, 2021	2,159,720	0.61	4.68

The Company recorded a total of \$1,712,344 and \$6,031,267 respectively as share-based payments during the three and twelve months ended September 30, 2022 (\$314,211 and \$427,590 for three and twelve months ended September 30, 2021), based on the graded vesting schedule of such stock options.

Restricted Share Units

The Board of Directors may, from time to time, award RSUs to directors, officers, and employees. Under the incentive plan the maximum number of shares the Company is entitled to issue from treasury for payments in respect of awards of stock options and RSUs cumulatively should not exceed 10% of the total number of shares issued and outstanding. Upon vesting, the awardees of the RSUs will receive one common share of the Company for each RSU held. These RSUs include service conditions only.

The vesting of RSUs is based on the following service condition schedule:

Number of RSUs Granted	Fair Value per RSUs (\$)	First Vesting Date	Vesting Criteria
280,000	0.25	23-Sep-21	6.25% every 3 months
1,450,000	1.05	29-Oct-21	10% every 3 months
100,000	2.39	19-Jan-22	8.33% every 3 months
50,000	1.31	21-Feb-22	100% on grant date
460,000	2.39	16-Apr-22	8.33% every 3 months
300,000	1.96	7-May-22	8.33% every 3 months
20,000	0.59	17-May-22	100% on grant date
660,000	1.31	21-May-22	8.33% every 3 months
100,000	0.52	4-Jul-22	100% on grant date
500,000	0.52	4-Aug-22	4.17% every month
1,110,000	0.59	17-Aug-22	8.33% every 3 months
100,000	0.52	4-Oct-22	8.33% every 3 months

A summary of the Company's RSUs as at and during the twelve months ended September 30, 2022, is as follows:

	Number of RSUs
Balance as of September 30, 2021	1,712,500
Granted	3,400,000
Vested and Issued	(269,999)
Expired / cancelled / forfeited	(600,000)
Balance as of September 30, 2022	4,242,501
 Balance as of January 30, 2021	 -
Granted	1,730,000
Vested and Issued	(17,500)

The Company recorded a total of \$495,783 and \$929,500 respectively as share-based payments based on the graded vesting schedule of the granted RSUs during the three and twelve months ended September 30, 2022 (\$370,334 for the three and twelve months ended September 30, 2021).

Warrants

A summary of the Company's warrants as at and during the twelve months ended September 30, 2022, is as follows:

	Number of Warrants
Balance as of September 30, 2021	960,575
Granted	21,596,150
Exercised	(541,677)
Expired / cancelled / forfeited	-
Balance as of September 30, 2022	22,015,048
 Balance as of January 30, 2021	 -
Granted	960,575
Exercised	-
Expired / cancelled / forfeited	-
Balance as of September 30, 2021	960,575

The Company recorded a total of \$nil and \$4,674,471 as share issuance costs for the warrants granted during the three and twelve months ended September 30, 2022, respectively (three and twelve months ended September 30, 2021 - \$501,420). Out of the total share issuance cost, \$nil and \$1,073,549 was recorded to the Statement of Loss and Comprehensive Loss for the three and twelve months ended September 2022 (three and twelve months ended September 30, 2021 – \$nil)

Escrow Shares

The Company established a Pooling Agreement, upon which the shares of the Company are held in an escrowed schedule and are not allowed to be traded until they are released as per the escrow schedules. Pooled shares that were originally issued at \$0.002 per share and have not been transferred for a value of \$0.25 or greater shall be released as follows:

Release Date	Percentage to be released
August 30, 2021	25%
February 28, 2022	25%
August 30, 2022	25%
February 28, 2023	25%

Pooled shares that were originally issued at \$0.13 per share have been released as follows:

Release Date	Percentage to be released
August 30, 2021	25%
December 30, 2021	25%
April 30, 2022	25%
August 30, 2022	25%

Pooled shares for the Bitbuy Business Combination (Note 4) shall be released as follows:

Number of Pool Shares	First Release Date	Release Policy
42,947,658	March 25, 2022	8.33% every month
23,465,727	July 25, 2022	25% every 4 months
1,935,928	March 25, 2023	100%

Pooled shares for the Coinberry Business Combination (Note 4) shall be released as follows:

Number of Pool Shares	First Release Date	Release Policy
16,411,816	October 4, 2022	12.5% every 3 months
9,413,829	August 4, 2022	8.33% every month
3,100,000	July 4, 2022	25% every month

As at September 30, 2022, a total of 66,187,856 (September 30, 2021 – 12,403,846) shares remain in escrow as part of the pooling agreement.

23. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value measurements

IFRS 13, *Fair-Value Measurement*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As of September 30, 2022, the fair value of cash held by the Company and funds held in trust was based on Level 1 of the fair value hierarchy. Digital assets and warrant liabilities are measured using Level 2 fair values, and other investments are measured using Level 3 inputs. There was no movement of financial instruments between levels during the period.

The Company determined that the carrying values of its short-term financial assets and liabilities approximate the corresponding fair values because of the relatively short periods to maturity of these instruments and the low credit risk.

Financial risk management

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adhere to market conditions. The Company has exposure to credit risk, liquidity risk and market risk as a result of its use of financial instruments. This note presents information about the Company's exposure to each of the risks and the Company's objectives, policies, and processes for measuring and managing these risks. Further quantitative disclosures are included as applicable.

The Board of Directors has the overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with risk management policies.

Currency risk

The Company's expenses are primarily denominated in Canadian dollars. The Company's corporate offices are based in Canada and current exposure to exchange rate fluctuations is minimal. As at September 30, 2022, the Company was exposed to currency risk through the cash held that is denominated in US dollars.

Interest rate risk

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short term. The Company has not entered into any derivative instruments to manage interest rate fluctuations.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk on its cash and funds held in trust. To minimize the credit risk, the Company places its cash with major financial institutions. The Company uses the services of reputable custodian and liquidity providers for its digital assets. The Company does not self-custody its digital assets. In addition, the Company is subject to credit risk in relation to the balances of its investments. To minimize the credit risk on the investments, the Company regularly monitors its investments.

Price and concentration risk

Price risk is the risk of dispositions of investments at less than favourable prices due to unfavourable market conditions. The Company is exposed to price and concentration risk on its investment in digital assets.

Counterparty Risk

Counterparty risk is the risk of an unexpected loss if a third party fails to meet its contractual obligations, including those associated with long-term deposits and equipment prepayments. The Company is exposed to counterparty risk primarily through its significant deposits.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.

Digital currencies risk

Digital asset prices are affected by various forces including global supply and demand, interest rates, exchange rates, inflation or deflation and global political and economic conditions. A decline in the market prices for digital assets could negatively impact the Company's future operations. The Company holds digital assets on reputable custodian and liquidity providers with a total value of \$ 3,146,803 (September 30, 2021 - \$4,110,325). At September 30, 2022, had the market price of the Company's holdings of digital assets changed by 10% with all other variables being constant, the corresponding digital asset value change would amount to approximately \$314,680.

Some fiat and digital assets of Bitbuy are held on account with various third-party digital asset trading platforms. These deposits are held on account to allow for successful completion of user purchases and sales of digital assets. These digital assets are transferred to Bitbuy's digital custodian accounts and fiat funds are transferred to financial institutions on an ongoing basis.

24. LOSS PER SHARE

No diluted loss per share has been calculated for the three and twelve months ended September 30, 2022, and 2021, given the Company's loss position, as the effect would be antidilutive. Basic loss per share is calculated by dividing the net loss by the weighted average number of shares.

The Basic and fully diluted loss per share for the three and twelve months ended September 30, 2022, and 2021 are as follows:

3 months ended September 30,						
	2022			2021		
	weighted average			weighted average		
	Net loss	# of shares	Loss per share	Net loss	# of shares	Loss per share
Basic and fully diluted loss per share	(9,483,057)	192,576,740	(0.05)	(3,626,071)	48,014,849	(0.08)

12 months ended September 30,						
	2022			2021		
	weighted average			weighted average		
	Net loss	# of shares	Loss per share	Net loss	# of shares	Loss per share
Basic and fully diluted loss per share	(35,581,051)	128,381,451	(0.28)	(5,062,610)	34,467,516	(0.15)

25. SUBSEQUENT EVENTS

On September 1, 2022, WonderFi announced that it has entered into a definitive agreement to acquire all of the 121,975,844 issued and outstanding shares of Blockchain Foundry Inc. ("BCF"), a leading North American blockchain development firm, on the basis of 0.2155 ("Exchange Ratio") common shares of WonderFi for each share of BCF. Warrants and options of BCF will be adjusted or exchanged to become warrants and options, respectively, of WonderFi based on the Exchange Ratio.

26. COMPARATIVE FIGURES

These interim financial statements have been re-classified, where applicable, to conform to the presentation format used in the current year. These changes have had no impact on prior year earnings.
