

# Co-Working Spaces in Utah

Co-working spaces are membership-based workspaces where independent professionals, freelancers, entrepreneurs, and the staff of startups and enterprise companies work together in a communal setting.

Many of these facilities offer 24/7 access, high-speed Internet, printer/copier services, educational and networking events, conference rooms for hourly rental, free parking, and other amenities such as coffee bars, childcare, notaries, and gym memberships.

If you are an out-of-state company looking for a “beachhead” in Utah, contact us and we’ll assist in arranging tours of co-working spaces that fit your needs.

# Co-working Locations - North to South

Pricing levels vary for non-exclusive desk space, dedicated desk space, and dedicated office space. Some venues offer free or rental meeting room options.
