About Us

15 years in the IGA and security business

We invented and trademarked Identity as a service (IaaS).

Founded by Addison Fischer

Top Secret, Entrust, RSA, Venture Capitalist, Security Expert for US Congress.

Fischer University.

HQ in Florida with International presence.

Primary focus on higher education with a history of strong brand recognition and successful reputation for delivering business value.

What You Can Expect

Predictable Pricing for Budgets

Fixed Fee Services

FTE reduction/re-assignment

Added layers of security

Audit compliance

Optimized user experience

Support Desk call reduction

Increased productivity

Right user, right access, right resources, right time.

**Automation of manual workflows,
eliminating human error**

Modular approach

Start anywhere - wherever your business needs are prioritized.

License and Services.

Flexible architecture

On Prem, Sole Tenant, Multi Tenant

Unpresented customer success

Handle multiple sources of authority

Address multiple personas

Student, faculty, alum, etc.

Useful Vocabulary

User Provisioning

Identity and Access Management (IAM)

Identity Administration and Governance (IAG)

Compliance and/or Access Governance

Access Certification

Self-Service Password Management

Automated provisioning workflows

End user on-boarding and off-boarding

Role-Based Access (RBAC)

End User Life Cycle Management

Our Invaluable Modular Solutions

PROVISIONING

Automate on-boarding, access changes and off-boarding, leveraging hundreds of pre-built connectors for cloud and enterprise applications.

- Automated
- Self-Service
- External
- Administrative

- Assessment
- Certification
- Remediation
- Reconciliation

PASSWORD MANAGEMENT

Support for all the features your organization needs to provide self-service FTU registration, password resets, synchronization, advanced delegated administration, and help desk features.

- Identity Claim
- End User
- Help Desk
- Password Sync

- Single Sign On
- Federation
- Adaptive Access
- MFA

COMPLIANCE

Verify who has access to what whether it's appropriate. Resolve access conflicts via automated workflows to secure your business and decrease your risk.

AUTHENTICATION

Offering global authentication framework providing the features and protocol support you need, including OpenID, OAuth, SAML2, CAS, ADFS and third party IdP providers.

Benefit From Our Differences

FLEXIBLE ARCHITECTURE

Offering both platform and administrative flexibility, the entire Fischer product is offered on premise, in a private cloud, or as a managed cloud solution, which can be moved over a weekend if your business requirements change over time

INVENTORS OF IaaS®

Fischer was the first to offer Identity-as-a-Service (IaaS®) over 15 years ago when no one thought it could be done. Our original customers are still with us and referenceable

CONFIGURATION-BASED SOLUTION

Fischer offers a solution that does not require coding; it's all configuration based. This simplifies maintenance, configuration changes, and upgrades. We challenge any other vendors who claim that they don't require coding.

MODULARITY

Our revolutionary implementation methodology provides you with a predictable cost model, so you can start anywhere to build your enterprise IAM Program.

Benefit From Our Differences (Continued)

TIME-TO-VALUE

Fischer prides itself Agile Implementation Methodology that guarantees customer success with the shortest time-to-value (TTV) measured in weeks, not years

PARTNER ECOSYSTEM

If you need to engage partners for your project, whether fulfillment or delivery, Fischer has a trusted partner ecosystem of like-minded professionals that are as committed to your success

FIXED FEE PROJECTS

Fischer's implementation policy is a fixed fee service model with project acceptance. Our revolutionary methodology minimizes your risk and ensure customer satisfaction.

CUSTOMER REFERENCES

Fischer has a successful implementation rate and retention rate of 99%. We're unique in the Identity industry because the vast majority of our customers are reference customers.

Business Value Propositions

CONTINUOUS COMPLIANCE

Automatically keep your account access in compliance with corporate policies.

ACCELERATE BUSINESS GROWTH

Enable business growth and cost reduction initiatives with a complete IGA solution.

CUSTOMER ADVOCACY

We ensure our customers' success supported by skilled and experienced personnel available 24x7x365.

SIMPLIFIED CONFIGURATION

System can be maintained by business analysts using a visual interface with no coding or developer skills.

RAPID INTEGRATION

Add new Sources of Authority, workflows and target systems in minutes.

CONTRACTOR MANAGEMENT

Automate identity life cycles for contractors, temp employees and other external users.

BUILT-IN GOVERNANCE

Leverage OOB technology to ensure governance oversight across the enterprise.

LESS THAN 0.5 FTE ADMIN

Gain-back FTEs due to reduced IAM solution administration.
