Katy, TX 77450

Will:

On behalf of Reynolds, we would like to commend you and your team at WC Construction for the great job you've done for us recently.

As general contractor for multiple construction projects for Reynolds in both Houston and College Station, you've managed each project well to our satisfaction.

The most recent remodel project of 15,000 square feet of space at our College Station location had a very aggressive timeline to complete. Not only did WC Construction hit the deadline but the quality of their work was exceptional.

You were organized and efficient in orchestrating all of the vendors involved to achieve the objectives set by Reynolds. Any issues that came up were immediately communicated so a decision could be made and not impede progress. The on-site personnel of WC Construction were professional and friendly throughout the project.

In summary Reynolds extolls the great work WC Construction has done for us so far and look forward to working together on future projects.

Sincerely,

A handwritten signature in blue ink that reads "Aaron Wiley".
