Re: Letter of Recommendation

To Whom It May Concern:

I am please to provide this letter of recommendation for those considering working with WC Construction, general contractor.

Will Carter came highly recommended by a close friend who has been in the construction business for over 30 years.

My first experience with WC Construction was to help a retail tenant who had hired a GC to expand her Salon. This GC completed approximately 50% of the project, then stopped and was MIA. She had two weeks before a Grand Opening event that could not be re-scheduled. I called Will, explained the situation, and asked if he could help.

We walked the project that afternoon, and he agreed to help. For the next two weeks they were on site night and day and pulled this project together. He and his crew did an outstanding job and went the extra mile to ensure everything was in place and ready for the Grand Opening.

Since then, I have had WC Construction remodel several suites in a Class A high-rise from 7,000 to 21,000 RSF. He and his team even took on a 435,000 interior demolition project. The results have all been the same, attention to detail and will do what it takes to ensure the project is kept clean, is on schedule and within budget.

WC Construction has been a pleasure to work with, and I would highly recommend them for similar projects.

Sincerely,

Billy Sams
