

Enhance Senior Care with Tada Analytics

Higher Quality Care at Lower Cost

Safety First takes on a new meaning in Senior Care as the fight against Covid-19 continues. Tada is helping Senior Living and Nursing Care operators manage economics while focusing on care in this new normal.

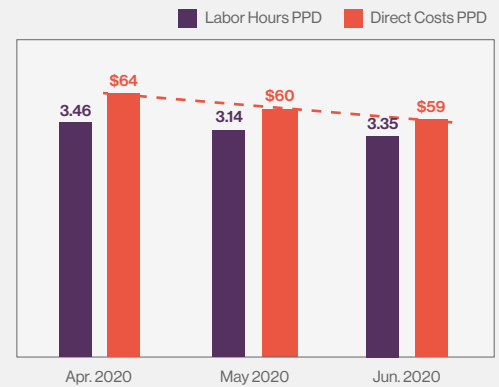

Tada connects your data for 360 perspectives on residents, care activity, nurses and staff, payers, and financial transactions across all your nursing care, assisted living, and memory units nationwide.

Client Example

Partnering with a leading not-for-profit Senior Living operator of 5 Star nursing homes, Tada created a solution that was deployed within weeks and is being used every day by dozens of decision-makers to unlock value.

- **\$5 PPD (per patient day) benefit** in Nursing Care
- **\$3 PPD benefit** in Assisted Living - Memory
- **\$1.50 PPD benefit** in Assisted Living

Care Optimization

Recommendation engine for everyday nurse staffing based on resident acuity, nursing level, Medicare Star rating, and regular vs overtime wages

Operational Excellence

Real-time performance metrics integrating electronic health records, workforce, CRM, and financial data – tailored for decision-makers at all levels

Sustainable Savings

Productivity-enhancing tools: predicting nurse attrition, forecasting revenue, recovering receivables, tracking against budgets, and more

Tada Analytics

Live intelligence, dynamic diagnostics, and actionable insights customized for leadership and workforce managers with secure access on PC, tablet, and phone

Technology + Expertise

Tada combines its innovative patented technology with deep expertise in healthcare and insurance to put a powerful solution in the hands of Senior Living operators in weeks.
