

Life here, life there

Mighty Adaptations

Materials

cardboard
tubes

straws

pipe
cleaners

scrap
constructi
on paper

craft sticks

masking
tape

You can also add a variety of craft items that you might have on hand.

Instructions

1. Your goal is to design a 3-D animal with a particular adaptation
2. Using the materials you have gathered, plan your design. You might want to sketch it out first.
3. Build your design. Think about what is working and what is not. If something is giving you trouble, brainstorm what materials might work better.
4. Describe in 3-4 sentences what your animal's adaptation is, how you designed it and how the adaptation is helpful in the survival of this species.
