

Federato

# Discover the Risk Ops Difference

FEDERATO.AI

# About us

Federato is an underwriting platform for P&C insurance carriers that uses a collaborative, real-time approach to coordinate risk selection and proactively safeguard your portfolio.

Designed by underwriters, for underwriters to:

Amplify existing data investments

Empower your people to take action

Strengthen your relationships

We're leading the future with Risk Ops to drive more precision into your processes in an increasingly complex risk environment. Our design philosophy begins with the belief that businesses don't have problems, people do and we've spent over 1250 hours asking the underwriters you work so hard to retain what they need to do their job better.

Risk Ops brings AI to insurance in a way that transcends basic automation and instead uses the first principles of machine learning to elevate underserved underwriting teams.

Our solutions bring high-quality, dynamic risk information to the last mile in underwriting and core operations through a workflow that was, truly, designed by underwriters themselves.

# What we do

Despite massive investments into data augmentation and new predictive models, precision underwriting remains elusive in P&C insurance. Federato's Risk Ops approach surfaces portfolio-aware insights at key points of action in the pricing process.

## OUR CAPABILITIES

- Systematic adherence to rules, guidelines and authority
- Proactive monitoring of risk accumulations
- Real-time organizational performance & goal tracking
- Account prioritization by appetite and winnability
- Dynamic optimization of each underwriter's queue
- Embedded notes, referrals, and collaboration

# Benefits

- ✓ Balance growth and risk exposure to maximize return on reinsurance
- ✓ Measure conformance to organizational goals and guideline
- ✓ Improve underwriter satisfaction and increase productivity

The ultimate goal is to have a portfolio where risk, expense, rate and premium are optimized. Since each new prospect and renewal creates a new set of variables and impacts, the Federato tool allows you to adapt to this new information and gives you the power to truly optimize in real-time.”

CEO | \$1B P&C CARRIER

## WHY FEDERATED?

Our federated architecture allows your organization to form a comprehensive view of disparate information in the underwriting workflow. We eliminate the need to move sensitive information outside your firewall while delivering a modern, continuously updated, as-a-Service experience into your on premise, multi, or hybrid cloud environment.

## Ready to learn more?

Let's have a 30 min discussion about how your solution would help your organization.
