

Gadget Corners incorporate two, three or more interactive Gadget Panels into a free standing play area solution that requires minimal floor space. Gadget Corners are free standing so they are ideal for locations where you can't fix Gadget Panels onto building walls or perhaps you just want a more portable, Gadget Panel option. Gadget Corners are strong; they will take a fair amount of abuse. They have no loose pieces that can be stolen or poses a safety risk making them suitable for public areas such as child friendly retailers, waiting areas, showrooms, parent's rooms, restaurants or anywhere space to set up a play area is at a premium. There are many different configurations illustrated in this brochure; all are suitable for indoors and some for outdoors.

Create Your Own or Choose An Existing Configuration

Choose from one of the many Gadget Corner examples in this brochure or design your own combination from the panel options below. Gadget Corner components are simple to assemble, move and change meaning clients are never locked into one design option.

Themed Gadget Corners

Made in Australia
Concepts and Design © Playtec Pty Ltd

Gadget Corners can incorporate affordable theming that multiplies the overall impact of the play area by engaging the children's visual senses. Theming is digitally printed onto solid plastic panels. The result is a hygienically sealed surface that is durable and easy to clean. Choose from one of the design examples below or create your own artwork and we will print theming that is unique to your business or organisation.
