

# Gadget Walls

Made in Australia  
Concepts and Design © Playtec Pty Ltd

Gadget Walls combine our wonderful Gadget Panels with affordable theming to capture the children's attention and provide a high level of sensory stimulation. Theming is digitally printed onto solid PVC plastic panels ensuring a durable, hygienically sealed surface that is easy to clean and simple for clients to install themselves.

Gadget Walls are ideal for commercial environments (eg. waiting rooms, receptions, retail areas, parents rooms, restaurants, play centres etc.) where space to set up play equipment is at a premium and for safety and hygiene reasons it is unacceptable to have loose pieces lying about the floor that can be stolen or poses a safety risk from tripping and swallowing. Gadget Panels are available without themed walls, refer to our Gadget Panel Brochure.

## Custom Theming

Playtec Gadget Walls are also available with custom theming. Using Clients artwork, Playtec can manufacture unique theming, exclusive to clients.

Example of a Custom Themed Gadget Wall

Example of a Hippo 1A & Pig 1A

## Hippo 1A

Height: 1600mm Width: 1600mm Depth: 40mm  
- Walk Around Zoo
