

# Baby Play Areas

Made in Australia  
Concepts and Design © Playtec Pty Ltd

Playtec manufacture baby play areas for non walking children; often neglected in play centres. Baby play areas should be considered separate to an infant toddler play area and ideally located in amongst the café seating area close to where parents are sitting.

Playtec baby play areas are unique because the play activities are incorporated into the sidewalls where they are easily accessible by crawling babies. There are also tactile play devices sewn into the top of the walls, babies love to pull themselves up and play with these. The walls are manufactured from a timber core, laminated with impact absorbing safety foam and upholstered ensuring a safe, durable, easy to clean environment. The walls are strong enough for parents to sit on and our quality construction will ensure they look good for years. Choose one of our library designs or ask Playtec to tailor a baby area to your specific needs.

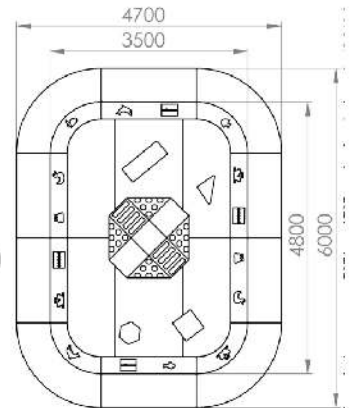

## Island 1

HEIGHT 400mm

- 8 Sided Busy Nut Climb
- Abacus Wall Gadget
- 2 Tic-Tac-Toe Wall Gadgets
- Mirror Wall Gadget
- 4 Assorted Soft Shapes
- Parents Seating/Wall
