

Kinder Kingdom is a range of soft play elements, manufactured in Australia by Playtec, catering to the different developmental needs of babies, infants & toddlers. All pieces are manufactured in foam and upholstered with durable PVC designed to meet the needs of high traffic areas. Where relevant, play elements are assembled easily using Velcro joiners, making Kinder Kingdom light and easy to move. This catalogue illustrates library examples of soft play elements, many themed to enhance their sensory appeal, including mini gyms, floor padding, ball pools, baby areas and play centres. Playtec are experts at custom shapes, so if you can't find what you want in this catalogue please talk to us.

Kinder Kingdom - Mini Gym

Made in Australia
Concepts and Design © Playtec Pty Ltd

Kinder Kingdom Mini Gyms are designed to encourage fun gross motor play activities. Use the elements randomly or in a pre-determined circuit.

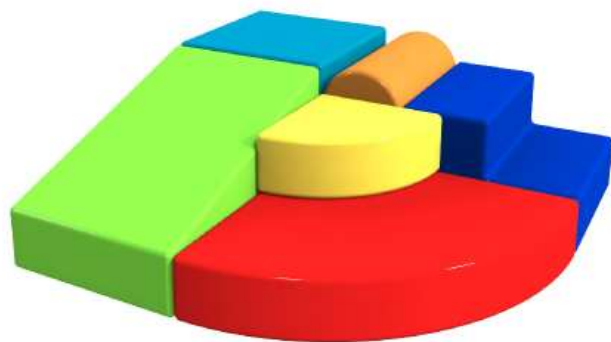

Example of typical Mini Gym Circuit layout

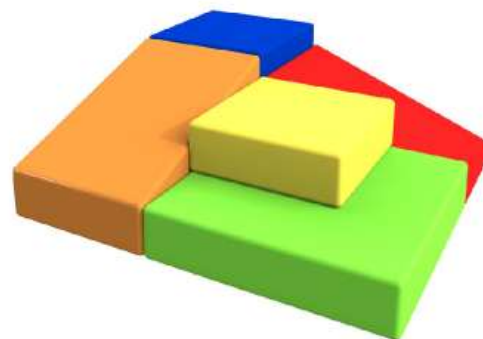

Kinder Kingdom Play Centres are designed for pre-school age children. They are manufactured from high grade foam and upholstered in durable easy to clean PVC and assembled with Velcro joiners.

Play Centre Corner 1

Length = 1500mm
Width = 1500mm
Height = 500mm

Play Centre Corner 2

Length = 1500mm
Width = 1500mm
Height = 500mm

Play Centre Corner 4

Length = 1500mm
Width = 1500mm
Height = 500mm

Play Centre Corner 5

Length = 1500mm
Width = 1500mm
Height = 500mm

Play Centre Wall 1

Depth = 1200mm
Width = 1800mm
Height = 400mm

Play Centre Wall 2

Depth = 1500mm
Width = 2400mm
Height = 500mm

Play Centre Wall 3

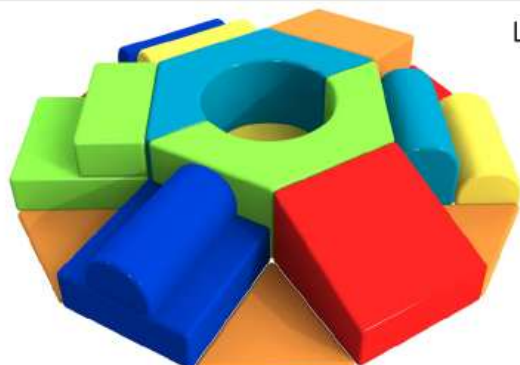

Depth = 1500mm
Width = 2400mm
Height = 500mm

Play Centre Island 1

Length = 1900mm
Width = 1900mm
Height = 500mm

Play Centre Island 2

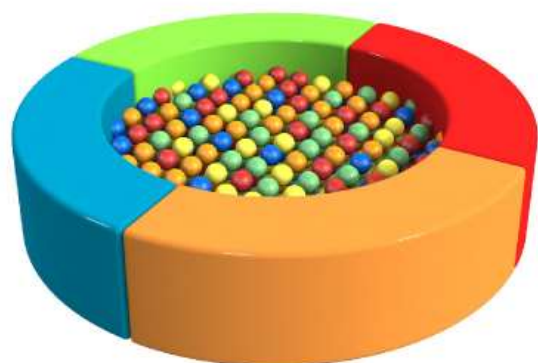

Length = 2240mm
Width = 2240mm
Height = 400mm

Play Centre Island 3

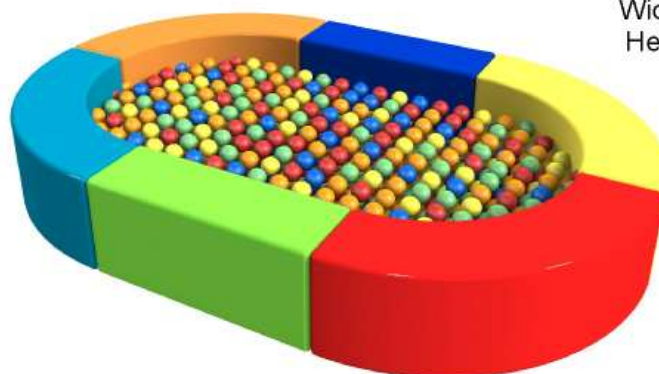

Length = 2400mm
Width = 2400mm
Height = 500mm

Ball Pool Round F1

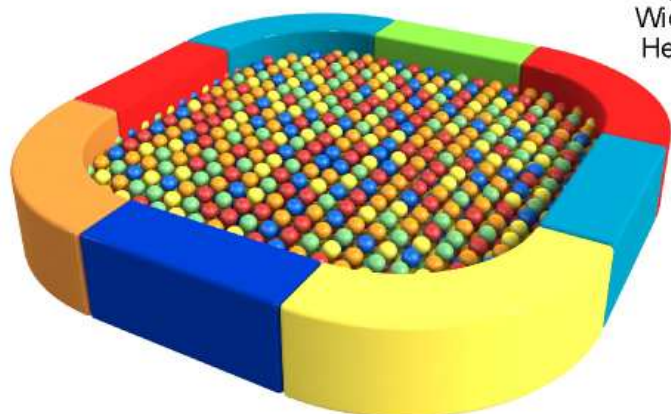

Length = 1800mm
Width = 1800mm
Height = 400mm

Ball Pool Oval F2

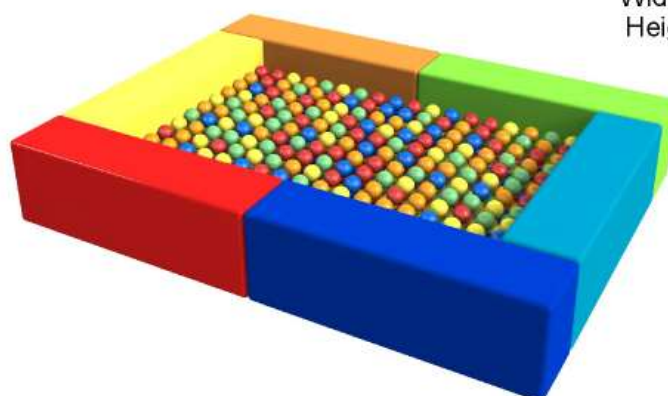

Length = 2700mm
Width = 1800mm
Height = 400mm

Ball Pool Square F3

Length = 2700mm
Width = 2700mm
Height = 400mm

Ball Pool Rectangle B4

Length = 2400mm
Width = 1800mm
Height = 400mm

Ball Pool Rectangle with Slide S1

Length = 2500mm
Width = 1500mm
Height = 600mm

Ball Pool Corner C1

Length = 1800mm
Width = 1800mm
Height = 400mm

Ball Pool Ship B3

Length = 2900mm
Width = 1500mm
Height = 400mm

Ball Pool Structure M2

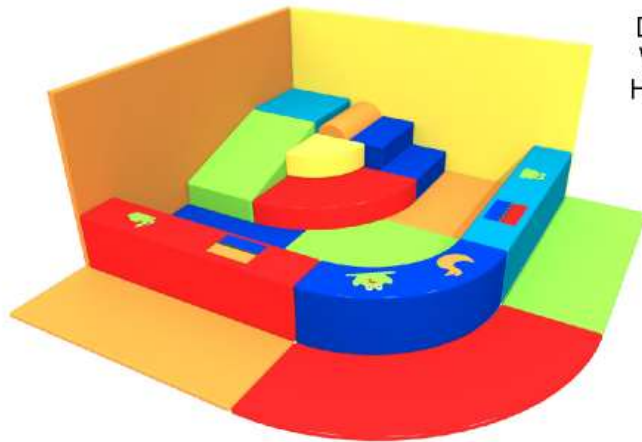

Length = 2660mm
Width = 2800mm

Length = 3030mm
Width = 3030mm
Height = 1200mm

KK Baby Area Wall 1

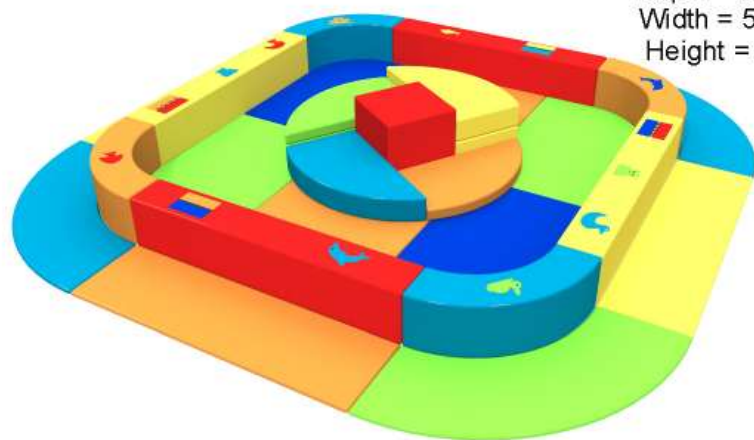

Depth = 2730mm
Width = 4800mm
Height = 1200mm

KK Baby Area Wall 2

Depth = 3330mm
Width = 5400mm
Height = 1200mm

KK Baby Area Island 1

Depth = 5000mm
Width = 5000mm
Height = 500mm

Large Baby Play Tub

Depth = 1200mm
Width = 1900mm
Height = 300mm

Safety Flooring

Playtec recommends the use of impact absorbing, safety flooring under all Kinder Kingdom soft play. Playtec flooring is upholstered in PVC, so that it is easy to clean and sterilise. Playtec manufacture safety floor pads using fire retardant, high density, closed cell foam in two thicknesses to comply with Australian Standards. Our 20 mm thick range is suitable for general use up to 500 mm fall height. Our 40 mm thick pad is compliant with fall heights up to 1.8 metres. Both are available either fully upholstered or upholstered with an added timber base. Fully upholstered floor pads are portable because they are light, making them suitable for applications where they are regularly pulled up and moved. The timber backed floor pads look better and are longer lasting, but because of their weight, are more suited to semi-permanent installations. Timber backed floor pads are safer because they sit firmly on the ground without curling edges and potential trip points.

Example of fully upholstered safety flooring
