

How Abco use PensionSync to ease the SME admin burden

“PensionSync technology is essential to our business - we couldn’t be without it”

Alex Fleet | Director, Abco Payroll Ltd

Save time and money outsourcing your payroll and pensions to us.

abco-payroll.co.uk

Tell us about your company

Abco gets on with the job of managing your payroll and pensions, enabling you to focus on your core business and easing administrative pressure. Well established and reputable, we provide a cost-effective outsourced service specifically for small and medium sized employers (SMEs) wishing to reduce costs without compromising on quality.

How have you adopted PensionSync technology?

We have used PensionSync through IRIS Payroll Professional since 2018. This combination enables us to offer a comprehensive payroll and pension bureau service for the SME market. The PensionSync technology is essential to our business - we couldn’t be without it, and the integration was a key factor in our choice of payroll software.

What are the benefits of partnering with PensionSync?

We process over 160 pension schemes through PensionSync. The time-savings are enormous when compared to doing these manually.

PensionSync genuinely treats us as a business partner, meaning they actively seek our input and value our ideas. There is no lip-service: we know that when we suggest a feature or an improvement it will be considered, and good ideas become reality quickly with this company.

We can view all our pension data submissions in one place

The PensionSync Dashboard lets us know when the pension has been processed. Any alerts or errors are clearly explained.

Our payroll software works seamlessly with PensionSync

A key factor in our decision to choose IRIS Payroll Professional was the efficient and easy to use integration with PensionSync.

We can offer a tailored service without multiple processes

PensionSync works with a range of pension providers enabling us to use a single pension process for the majority of our clients.

Contact the PensionSync team to find out how we can help grow your payroll business.
